RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-12152

Dear Claimant,

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested revisions to your claim recommendation at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above was filed for the use of groundwater for domestic purposes with a claimed priority date of December 3, 2003. In your Notice of Error Reply, you requested that additional water be allocated to you based upon the water yield listed on your well report. Please note that the 80 gallon per minute yield reported included a 100% draw down of the well and is also not reflective of what your well pump is actually capable of pulling to the surface. Additionally, the daily use limit of 13,000 gallons per day was set forth in Idaho Code § 42-111 (1)(a) for de minimis domestic uses and cannot be increased. The current recommendation of your claim for domestic purposes includes in home use and lawn/garden irrigation of up to ½ acre. If additional water is needed beyond what is currently recommended, an Application for Permit should be filed. For your convenience, I have enclosed an Application for Permit form with instructions.

If you have any further questions or concerns, do not hesitate to contact our office and we will be happy to help. We can be reached by phone during business hours at 208-762-2800.

Sincerely,

Evan W. Roda
Water Rights Supervisor
Northern Region
