NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided, if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) are for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

RE: EVIDENCE OF PRIORITY FOR WATER RIGHT CLAIMS 23-10269, 23-04003 and 23-04004

Dear Claimant (s):

The Idaho Department of Water Resources is nearing the end of water rights review in Basin 23. The Notice(s) of Claim identified with the number shown above has been filed in the Snake River Basin Adjudication (SRBA). The Notice of Claim indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Claim. The date the water was first put to beneficial use, known as the priority date, has not been confirmed by License, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

Your claims, as referenced above: 23-10269, claims a Priority Date of April 15, 1950, from a well; 23-04003, claims a priority date of May 1, 1911, from Pritchard Creek; 23-04004, claims a priority date of May 1, 1911, from Garden Creek.

It is important that each element of the Notice of Claim be verified. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have provided a printout of your Notice of Claim and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other elements of the Notice of Claim have been or soon will be conducted by Department personnel.

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

RE: Fama Dairy - Notices of Claim to a Water Right

Dear Ms. Sturm:

Enclosed are the copies of the Fama Dairy Notices of Claim to a Water Right and the receipt for the money paid by Hopkins, French, Crockett, Springer & Hoopes. I am sorry for the extreme frustration you have experienced in filing the water right notices, as expressed in your November 1, 1989 correspondence.

The Fama Dairy Notices of Claim were submitted on September 29, 1989, the last day of the filing period for Bonneville County. All claims hand-delivered to the Department of Water Resources (IDWR) during the final days of each county deadline are generally accepted without question in order to avoid the assessment of any late fees to the claimant.

The following morning, a short period of time is set aside for the Water Right Agents to review each claim that was received in the mail or hand-delivered the previous day. Notices that are correct and complete are receipted, and added to the permanent files. Most notices that are incomplete or submitted with insufficient fees are returned for correction. The remaining notices are receipted, and are later returned to the claimant when time allows, or are corrected later in the objection or hearing stages of the adjudication.

To avoid any confusion or misinterpretations of the IDWR filing instructions, the department recommends that you or your client call to make an appointment well in advance of the county filing deadline for assistance in completing the notices. Upon making an appointment, a Water Right Agent will complete the notices from the information that is submitted.

Re: Fama Dairy - Notices of Claim to a Water Right

Dear Mr. Carlson:

In response to your correspondence of October 2, 1989, addressed to the attention of Mr. and Mrs. Waters, we have revised Fama Dairy's Notices of Claim to a Water Right. In accordance with your instructions, we have corrected the items identified on each of the five notices which were returned to us for additional information and/or fees. Please be advised that each of these claims was carefully reviewed with a representative of the Department of Water Resources in Idaho Falls prior to filing. The information which was originally presented on each of the forms was confirmed as accurate and complete.

We would like you to understand the extreme frustration we have experienced in attempting to anticipate and to deal with the problems we knew would be presented in filing these rather complicated water rights claims, only to find that we were given incomplete and inaccurate information and then instructed to revise the documents. This course of conduct has caused our client expenditures in time and attorney fees.

We have enclosed herewith a filing fee for each domestic/stockwater notice of claim and for each irrigation notice. Please note that we have filed four domestic/stockwater claims and five claims based on irrigation use. There is substantial overlap in the place of use parcels identified in the five irrigation notices. We have computed a fee based on \$25.00 for each domestic/stockwater notice, \$50.00 for each irrigation notice and \$1.00 per acre for each irrigated acre. Upon review

MICROFILMED

of the notices, you will find that the total number of acres claimed exceeds the computation of \$1.00 per irrigated acre. Certain of the water rights share the same place of use parcel, although they are filed under separate claims because they have separate dates of priority. We have taken into account the so-called double use on these parcels in computing the fee, therefore, the dollar amount does not equal the total number of irrigated acres represented in the five claims.

Should you have any questions or require any additional information regarding any of these claims to a water right, please do not hesitate to contact this office.

Very truly yours,

Teresa L. Sturm

RE: Fama Dairy Notices of Claim to a Water Right Returned

Dear Mr. and Mrs. Waters:

The Idaho Department of Water Resources (IDWR) is returning your check #10484 (\$1,649.00) and Fama Dairy's Notices of Claim to a Water Right. Five of the eight enclosed notices have insufficient information and/or fees. All items on the notices must be correctly completed and fees submitted before the IDWR can process the claims.

Please correct the items identified on each of the five notices needing correction, and return the claims with the appropriate fees to the IDWR within 30 days of the date of this letter. Failure to return the notices within the 30-day period may result in an assessment of an additional late-fee for each notice.

The filing fee for each domestic/stockwater Notice of Claim is \$25.00. The fee for each irrigation notice is \$50.00 plus \$1.00 per irrigated acre. If you have any questions, please call Tony Olenichak, Water Right Agent, at (208)-525-7161.

Sincerely,

Tony Olenichak

- The claimed amount (Items #6 and #7) and the total acreage (Item #10) must equal the licensed amount and acreage (see enclosed IDWR report for license 23-07019). The place-of-use parcels may differ, however, the total acreage must be the same as the licensed acreage. If an expansion in the amount (cfs) and/or acreage has occurred, you must complete a separate Notice of Claim for the additional amount and/or acreage not included in the license with the priority date reflecting the date of expansion. Note: If the total acreage in Item #10 is modified, you must also modify the total consumptive use in Item #8.

MICROFILMED
