RE: Water Right Application, related to Water Right 95-09054

Dear Mr. Roda,

Thank you for your letter dated November 26, 2018 to Thomas C. Faulkner related to water right 95-09054. As I understand it, over the last twenty years or so as one of the property owners accepting water for summertime irrigation and fire suppression under the existing water right, I need to apply for an additional water right since the existing water right was intended for only one residence (something we did not understand). I appreciate you pointing out this nuance to the statutes as I endeavor to do everything buy the book.

Per your request I have attached the completed water right "Application for Permit" form (with a \$100 check for the permit fee) and have attached supporting documentation (map, letter to Thomas C. Faulkner for reference, Water Right License 95-09054, and Dept. of Lands Encroachment Permit No. L-95-S-4574). Hopefully I've completed everything correctly – please let me know if you need additional information or if I've made any mistakes.

Thanks, and Happy New Year!

Dennis Vermillion
