RE: Evidence for Coeur D'Alene-Spokane River Basin Adjudication (CSRBA) Water Right Claim No. 95-15637

Dear Claimant(s):

The Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Water Right Claim. We are unable to recommend your Adjudication Claim at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above has been filed for the use of groundwater for municipal purposes with a priority date of December 31, 1940. The evidence submitted with the claim is insufficient to prove the beneficial use of this water source for municipal purposes within the claimed place of use beginning on or before that date. The residential appraisal summary submitted with the claim does show that a cabin was built on the property in 1940, but does not indicate if the cabin was being served by lake water or a well. Furthermore, this would only support a claim for domestic use in one home. Additionally, the department has information indicating that the property claimed was previously served water from the Conkling Park Water Association. Evidence of when the property was disconnected from that water system and the current claimed groundwater source (well) was first used for the marina facilities is required. An accurate location for that well is also needed. **Please submit the required evidence by January 31, 2019, referencing all documents with the corresponding claim number.**

PLEASE NOTE: IDWR will recommend the NIA Court decree this claim for domestic purposes with a 2,500 gallon per day limit if no further evidence is submitted. It will be to your advantage to provide clear and convincing evidence.

If you have any questions or concerns, do not hesitate to contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

Evan W. Roda
Water Rights Supervisor
