E. **REASONS SUPPORTING OBJECTION(S):** To the extent this water right is claimed pursuant to state law, Claimant's assertions that Congress gave permission to private parties to operate on the public domain and that Congress passed various acts ensuring that water sources on the public domain were not monopolized does not provide a basis for a water right under state law. Alternatively, the United States has failed to establish any legal and/or factual basis for any claimed priority date for stockwater purposes with a date prior to the enactment of the Taylor Grazing Act, June 28, 1934.

Even if PWR 107 created a federal reserved water right, the United States, or any subdivision thereof, has not complied with the requirements of PWR 107 and/or the United States' and/or its subdivisions' own rules and regulations in regards to this claim. Therefore no water right can be granted based upon PWR 107.

The State reserves the right to amend this objection as to any part of this claim based on federal law, based on the final decision reached in Basin-Wide Issue #9 (PWR 107) (Idaho Supreme Court No. 23587 and/or any subsequent proceedings).
