RE: Notice of Error Reply for Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim No. 95-8796

Dear Claimant(s):

The Idaho Department of Water Resources has reviewed the Notice of Error Reply for the above referenced water right claim. We are unable to make the requested revisions to your claim recommendation at this time for the following reason.

The recommended place of use could not be revised as no evidence was received to prove when the additional properties were added to your water system. The need for this additional evidence was explained in a phone conversation with John Ortmann on December 13, 2018. Mr. Ortmann stated that he would email the evidence to the department, but none was received. As such, this CSRBA claim will be recommended to the Court as it was originally licensed. Following the submission of the Director's Report for Part 2 of Basin 95, if you locate additional evidence and wish to further pursue revisions to the water right claim recommendation, a Standard Form 1 (Objection) should be filed with the Court.

PLEASE NOTE: The current recommendation of this adjudication claim does not prevent the establishment of new water rights on the property in the future. Additionally, changes to the place of use can be accomplished through the water right transfer process. Feel free to contact our office anytime if you would like assistance filing an Application for Permit or Application for Transfer of Water Right, and we will be happy to help.

If you have any further questions or concerns, please contact our Northern Regional Office during business hours at 208-762-2800.

Best Regards,

Evan W. Roda
Water Rights Supervisor
Northern Region
