

Split Memo

Date: 11-9-06

To: File 67-495 & 67-10479

From: Craig L. Saxton

RE: Splitting Claim per Change of ownership.

Change of ownership was submitted that splits water right s67-495 and 67-10479. However, the acreage distribution on the claim and on the recommendation is actually different. In other words, the total acres are the same, but it was recommended differently than claimed.

We are going to split the claims to match the recommendations, so the recommendations can be split accurately. The acres on each claim will be split accurately as well as the proportional diversion rate, it is just going to have a different acreage distribution than what was on the parent SRBA claim
