Mrs. Livingston,

The recommendation of CSRBA Claim No. 95-16517 is consistent with the Notice of Claim to a Water Right that you submitted on October 3, 2012. That claim was filed for the domestic use of groundwater (well) in one home with a claimed priority date of 1978. The listing of Lot 3 on the claim is in reference to the point of diversion and place of use locations within Government Lot 3, not your actual subdivision lot (Lot 2, Block 1, Clark Estates).

No other water rights have been previously established on the claimed property for industrial or irrigation use. The recommendation of this claim for domestic use in one home does not prevent the acquisition of new water rights for additional uses in the future. If you would like to utilize water for industrial purposes or to irrigate additional land beyond the ½ acre allowed with your domestic use, an "Application for Permit" should be filed. The permit system for establishing a water right became mandatory for uses developed from groundwater sources after March 25, 1963 (except for small domestic and stockwater purposes). Additionally, a water right is not required for the diversion of water to repel or extinguish an existing fire on the property as defined by Idaho Code § 42-201(3)(a).

For your convenience, I have attached an Application for Permit with instructions. If you have any further questions or concerns, do not hesitate to contact our office and we will be happy to help. We can be reached by phone during business hours at 208-762-2800.

Regards,

Evan

Just noticed this also says Lot 3. It's lot # 2 plus a well agreement with Lot 1. Would be industrial and residential this was approved 2001 when the house was built.

Thanks Dawn appreciate your help. Curious why only 1/2 acre irrigation and one home? That well has been there quite a while and when I got the water rights it's been hooked up to the industrial and the home on a total of 11 acres since 2001. When we did the Plat the fire department requested 10000 gallon holding tank so that is there also. Maybe I'm reading wrong just seems restrictive.

Good morning Lanette!

It was a pleasure talking to you this morning. Attached is a copy of the Adjudication Claim for your water right on Kootenai County parcel # 013150010020. This is a Domestic claim for household use and up to a half acre of irrigation. If you have any other questions, please feel free to call our Adjudications Department and ask for either Linda, Kaila, or Evan.

Thank you!

Dawn Lenon
