To Whom it May Concern:

My name is Patty Morrison and I filed my father's water claim on his behalf as he is 87 years old.

We incorrectly wrote on the application the water use began in 1975, but were asked to ammend that to 1956 (the original date house was built and water drawn).

I spoke with a nice person there in November who sent the application back. I ammended the date to 1956 and am including the statement made by both owners (my mom and dad) as I was asked to provide giving some

Statement regarding lake water use.

We (Eugene Austin and Anna Jo Austin) purchased our lake cabin at 6866 S. Panorama View Drive, Harrison ID in 1975. I was told sometime later by the builder (a Mr. Smith) that it was built in 1956. The water system was designed to draw lake water via a water line to a pump at the lake.. Over the years the system was modernized to include a submerged pump into the lake. The basic underhouse system remains the same in design.
