RE: Evidence of Priority

RESPONSE DEADLINE

APRIL 1, 1993

Dear Claimant:

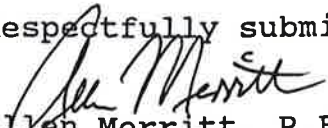

The Notice of Claim identified with the number shown above your name on the mailing label has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates your water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed. The date of first use, known as the priority date, has not been confirmed by a License, Decree or Permit. The Department will at a later date conduct reviews &/or field exams for the claims in your area. Since the priority date of a beneficial use water right can not be confirmed by field examination, proof must be provided supporting the priority date you have claimed.

Please find enclosed a computer printout of your Notice and the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement.

SPECIAL NOTE: The Department will not recommend the Notice be decreed by the court as claimed if no evidence of a priority date is submitted. It will be to your advantage to provide clear and convincing evidence. If you choose to submit statements from individuals as evidence, the statement must be in the form of a notarized affidavit.

Please submit the required evidence supporting the priority date by April 1, 1993, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

Respectfully submitted,

Allen Merritt, P.E.
Water Rights Supervisor

Subject: Pending Transfer 70497

Transfer 70497 proposes changes to the following rights.

AJC 45-2336
AJC 45-2537
AJC 45-4035

Transfer, filed by Rick and Alyssa Robinson, proposes reconfiguring the water rights on a farm located 4.5 - 5.5 miles north of Oakley, on the east side of Highway 27, so that they are diverted from a single well located on the farm and to create a 307 acre permissible place of use. In addition, some acres from a farm located in Sections 1 and 12 will be moved to this farm to allow for more irrigation within the proposed permissible place of use. The water rights involved with this transfer are primary ground water rights and the farm does not have canal shares on it (see letter from Oakley Canal Company in transfer file).

Stat. claim filed in 1971 was for .6 cfs on 80 Ac. w/a 30 h.p. pump
and mentions 29505 (cancelled)

AT claim from 1989 was for 2 cfs on 100 Ac w/ 2 wells

- looks like this claim added 2nd. well (w/a 1951 priority date) & combined with well (w/a 1954 priority date) & claimed later date (appropriately).
- typo in evidence of priority for 75hp pump (5/6 "R 135") (now 50hp.)
- rec. pou Sec. 9 in T13S, not 11S as claimed
- probably a typo since map submitted w/ claim shows T13S
