MEMORANDUM

TO: FILES 23-00019A/00020/00047B/00093

FROM: PAM SKAGGS^{PS}/STATE OFFICE

SUBJECT: TRANSFER 4851

DATE: March 17, 1998

=====

Transfer 4851 changes the point of diversion under a portion of Rights 23-00019A (C & D), 23-00020 (A & B), 23-00047B (C & D), and 23-00093 (A & B), splitting each right.

Review of the recorded rights show that the transfer also represents a change in place of use to the historically irrigated land. The place of use has been modified over the years through unrecorded transfer to include the 45 acres under the proposed place of use. No physical change occurs.

The applicant is the new owner of this portion of the ranch and wants to add two separate points of diversion; a diversion ditch to serve the west side of the property and a pump to serve the east side of the property. The creek bisects the property in a north south direction.

Recommended conditions include watermaster control, measuring devices and lockable controlling works, irrigation overlap, multiple points of diversion, combined right conditions, and standard transfer conditions.
