MILL CREEK WA 98012

SUBJECT: Notice of Claims (Claim) to a Water Right 95-14893, 95-16247 and 95-13401

Dear Mr. Martin:

In regard to your recent request for further information on the above water rights; enclosed is the following:

1. A copy of Idaho Code 42-111 of which the above claim recommendations are based, and
2. Planning Guide for Water Use

In regard to the water usage for the well in Newtons Subdivision 1st Addition, on parcel number 05580002008A, and the three parcels in Newtons Subdivision receiving water from this well; the Department has several recommendations. They are as follows:

- a. File an objection (SF1) to correct the diversion location and water usage on the claim(s) which have been incorrectly recommended.
- b. File an amended claim under 42-111 (b) with the point of diversion being the well on your parcel, the place of use listed as the three parcels, using the priority date of the most recent home which was built and hooked up to the well. I have enclosed the water usage guide to help in determining water quantities as the limitations on filing this type of claim are 0.04 cfs, 2500 gallons per day total and a total of ½ acre or less of lawn/garden irrigation, or
- c. File an application for permit for the water usage at all three properties with your well as the source, or
- d. Maintain claim 95-14893 as currently recommended under 42-111 (a) for one home with a limitation of 13,000 gallons per day and priority date of 1988.

Please feel free to contact me if you have any questions. I can be reached at (208) 762-2800 or by email at linda.werner@idwr.idaho.gov. If you need more forms, they can be found on our website at www.idwr.idaho.gov.

Sincerely,

Linda A. Werner
