Dear Mr. Foster,

I amended the above referenced Notice of Claim to a Water Right because the point of diversion was incorrect. While doing a field exam with Hannah Robinson I discovered that the water is injected into Deep Creek and then rediverted down stream. The claim was amended to reflect this change. Please have Ms. Brown sign and return the amended claim by the above response date. If you have any questions please don't hesitate to give me a call at 547-3993.

REF: Snake River Basin Adjudication (SRBA) claim 24-6

Subject: IRRIGATION OF GROUND IN NWSE OF SECTION 28

RESPONSE DATE: FEBRUARY 13, 2006

Dear Mr. Foster,

While reviewing the above referenced SRBA claim file and your correspondence with my staff on the land claimed in the NWSE of section 28 I thought I better follow up with a response. The decreed place of use includes two-quarter, SENW and NESW, sections that are not owned by your client. We have not received sufficient evidence to support that the decree was moved from the decreed ground to your clients ground in the NWSE of section 28, township 4 south, range 46 east of the Boise Meridian.

The additional ground was claimed to be irrigated in the NWSE of section 28 may fall under a couple different scenarios. One being if the land was irrigated prior to the mandatory permit statute for surface water under IDAHO CODE § 42-103 then your clients may be able to establish a beneficial use claim. Which would require that they submit evidence to support that the land was irrigated prior to May 19th 1971. Otherwise, it might fall under an enlargement, IDAHO CODE § 42-1426, to claim 24-6. In the case of the enlargement claim they would not receive any additional water to irrigate the ground in the NWSE but the right to irrigate it.

The filing fee for either scenario is \$50.00 and requires Department form 42-1409(2) a 1/88. There wouldn't be a per acre charge because the acres were already paid for under 24-6.

SCANNED

FEB 27 2009

If we do not hear from you by the response date above then only the acres found to be irrigated under the decreed place of use will be recommended for the above referenced claim. If you have any additional questions please feel free to contact me at 547-3993.

Re: SRBA Claim No. 24-6A

Dear Ms. Basset:

We tried in our letter of March 30, 2005, to explain the history of the water use on the property listed as the place of use under the above referenced SRBA claim. We do understand the discrepancy in the place of use, but can provide no other information except that when Mrs. Brown became familiar with the property in 1976, it was being irrigated the same as it is today. If a change was made between the time of the decree and 1976, we do not know of the date of that change, but it had been made at least by the time Mrs. Brown and her then husband, Nick W. Robinson, obtained the land in February of 1976. We are enclosing a copy of the deed from Ms. Robinson's parents to Nick W. Robinson and Janene Robinson. Mr. Robinson died early in their marriage and Janene Robinson later married one Kent Brown. She is the same Janene Robinson Brown who is the claimant under the above referenced SRBA claim. In addition to the warranty deed from Mr. Robinson's parents to Nick W. Robinson and Janene Robinson, we are enclosing a copy of the Deed of Distribution from Mr. Robinson's estate to Janene Robinson following his death.

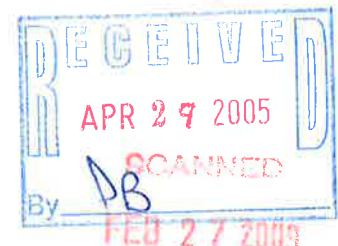

We probably have no additional information to provide and the description of where the water is used and has been used since Mrs. Brown has had any familiarity with the property as best she can describe it, is shown in the claim.

Yours very truly,

Kent W. Foster

Re: Snake River Basin Adjudication (SRBA)
Claim: 24-6A

Subject: CHANGES IN THE PLACE OF USE (POU),

RESPONSE DATE: April 18, 2005

Dear Mr. Foster:

Thank you for your letter dated March 30, 2005. To better help your client understand the discrepancy in the place of use, I've enclosed a copy of the original Franklin Lindholm decree. I highlighted the area that is located in this decree. I've also enclosed a copy of Janene Robinson Brown's water right claim. The 40 acres I've highlighted on her claim is not in the original place of use, as sited in the decree.

As stated before, IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

If the change occurred prior to November 19, 1987, then the date must include the month, day and year the change occurred. If the change occurred after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

This office must receive a response by the response date shown above. If no response is received, then your client's claim to water for the new place of use will not be recommended to be decreed.

If you have any questions please feel free to contact us at 547-3993.

Respectfully,

Pauline Bassett

Re: SRBA Claim 24-6A

Dear Ms. Payne:

We are in receipt of your letter of March 2, 2005. After receiving your letter we sent it on to Mrs. Brown. It turns out she has been in Montana for the winter and the letter did not catch up with her until a couple of days ago. We have discussed this claim and the discrepancy in the place of use. The best information we have available is as follows.

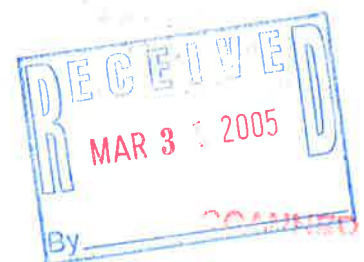

Mrs. Brown acquired the property in about 1976. At the time the land was acquired, the irrigation was being done virtually identically to what has been done since that time and is still done today. No changes were made by Mrs. Brown after she acquired the property and she knows of no changes that were made prior to her acquisition of the property.

When we assisted the Browns in preparation of the SRBA claim, we tried to list the land that was then being irrigated. It is true that we did not have as good maps when we prepared the SRBA claim as you have access to now, but we did the best we could in describing the place of use. In any event, Mrs. Brown knows of no changes that were made either prior to her acquisition or since that time in the irrigation of this land. If we may provide any other information, please feel free to call upon us at your convenience.

Yours very truly,

Kent W. Foster

Re: Snake River Basin Adjudication (SRBA)
Claim 24-6A

Subject: PLACE OF USE

Response Date: 2 April 2005

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 24. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on a priority date of May 15, 1885 as established in the Franklin Lindholm decree. There is a discrepancy on the place of use. Our initial finding is as follows:

	<u>Decreed</u>	<u>Claimed</u>
T4S, R46E, Sec. 28	S1/2NW	SWNW
T4S, R46E, Sec. 28	N1/2SW	NESW, NWSW NWSE

I am enclosing a copy of a Spatial Dynamics map indicating the claimed place of use. A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19,

COPIED

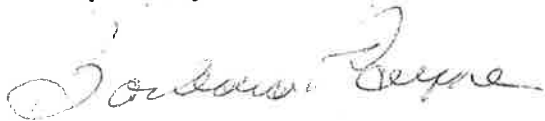

FEB 27 2009

1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible. **Field exams to verify other items of the Notice need to be conducted by the Department personnel.**

This office must receive your response by the above referenced response date. If no response is received, then your claim to water from the new point of use will not be recommended to be decreed. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,
