He said that he had already met with Bryce and thinks all the issues mentioned in the letter have been resolved. He called Bryce and read him the letter(s) and Bryce said I think if they (meaning us) look in the file all of the issues mentioned in the letter will be addressed. I told him that we were having a staff meeting tomorrow and if Bryce was at the meeting, I would try and get the two together.

I encouraged him to make an appointment with you. Did so October 11 at 11 am. He said that he would contact the other Draney and if they wanted to also come they may come. If they don't want to come, he would come along.

Re: Snake River Basin Adjudication (SRBA)
Claim 24-2003A, 24-2011A, 24-2022A

Subject: CHANGE IN PLACE OF USE (POU) & POINT OF DIVERSION (POD)

Response Date: 17 October 2005

Dear Claimant (s):

The Idaho Department of Water Resources initial investigation of the Notice of Claims listed above indicates that there has been a change in the point of diversion and place of use.

The claims that have been filed split each of the licenses between W. Gregg Draney and Gleno Draney. We have three issues that need to be clarified before a recommendation can be made to the Court.

1. The original licensed POU of these claims are different than the SRBA claimed POU.
2. The original licensed POD of these claims are different than the SRBA claimed POD.
3. The total number of acres being irrigated on the six claims are more than the combined 3 licenses.
- 4.

There are no known previous transfers requesting the POU and POD be moved from the licensed POU and POD to the claimed POU and POD.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

SCANNED

MAR 03 2009

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

I have also enclosed a Change In Address form. Please complete this form and return it to this office.

To resolve these issues, please call our Soda office to make an appointment with our Agent, Cindy Bird. If no response is received by the above response date, then your claims may not be recommended to be decreed. Our telephone number is 547-3993.

Barbara Payne

Re: Adjudication Claims A24-02003A, A24-02011A, A24-02022A

Dear Mr. Draney:

In comparing the combined irrigated lands from Draney Creek under your water rights and Gleno Draney's water rights, I found that there are enough original licensed acres for all the current irrigation. However, there is currently some irrigation in 8S 46E Section 9, NENE, that is not listed on any of the adjudication claims. Also, apparently there was a typo on claim A24-02003A, so that not all the original licensed diversion rate has been claimed.

The attached map shows the place of use maps based on field inspection, your descriptions to me, the original licenses, and the aerial photos. The attached Field Amendment form will allow the full licensed diversion rate to be recommended for A24-02003A and A24-02003B. Please review these documents and call me if you have questions. If you wish to amend the claims, please return the Field Amendment with a notarized signature to:

I have also enclosed a map of the proposed place of use for the Smoky Canyon right, A24-04024. Please call if you have questions about this, as well.

9/28/06 Gugg spoke with me at the basin 24 public meeting about his domestic right on 24-7009. He had a partial decree on 24-7009A but wondered about his home.

10/2/06 I found that Gugg's partial decree on 24-7009B was issued in 4/1999 so I sent him a copy of the W/P printout and a copy from the SRBA Court's website CB

RE: POU Boundary. - Amended Claims, deed.

Conversation: Per the warranty deed we corrected the
ownership layer for the B portion of these rights.
In the SWNW of section 10, it should be a rectangle
of approximately 20 acres (S 1/2) and the W 1/2 SENW
of section 10 is also approximately 20 acres.
Gregg Draney farms the NW corner of the SENW
of section although it's owned by Zane. The SE
corner of the SENE of section 9 is farmed by Zane →

Action Required:

The PPU boundaries for both A & B needs to adjusted
in the SWNW of section 10 to stay within the
boundary. The change in the over all total number

I propose leaving the licensed diversion rate intact in order to preserve the ability to resume the original licensed practice of gravity irrigation, which requires more diversion rate than sprinklers. This requires individual acreage limits that add up to more than the PPU acreage, so a combined acreage limit may also be appropriate.

Claim 24-2003A, 24-2011A, 24-2022A

Subject: CHANGE IN PLACE OF USE (POU) & POINT OF DIVERSION (POD)

Response Date: 10 October 2005

Dear Claimant (s):

The Idaho Department of Water Resources initial investigation of the Notice of Claims listed above indicates that there has been a change in the point of diversion and place of use.

The claims that have been filed split each of the licenses between W. Gregg Draney and Gleno Draney. . We have three issues that need to be clarified before a recommendation can be made to the Court.

1. The original licensed POU of these claims are different than the SRBA claimed POU.
2. The original licensed POD of these claims are different than the SRBA claimed POD.
3. The total number of acres being irrigated on the six claims are more than the combined 3 licenses.
- 4.

There are no known previous transfers requesting the POU and POD be moved from the licensed POU and POD to the claimed POU and POD.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights, or that the change be conditioned to prevent injury to other water rights.

SCANNED

MAR 03 2009

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

To resolve these issues, please call our Soda office to make an appointment with our Agent, Cindy Bird. If no response is received by the above response date, then your claims may not be recommended to be decreed. Our telephone number is 547-3993.

Respectfully,

Barbara Payne

Hi Katy,

These claims need amending. However, since we do not have access to workflow, can you please help us with a workaround solution? Hoping the answer is yes. So, can you please

For each of these claims:

Go into Workflow and "print off" the Notice of Claim and then save it as a "word" document. Please email the word document to Cindy so it will be available to amend when the claimant does come in.

Thanks.

Barbara :-}
