Remarks: The creek upon which this application is made has no name. It is formed by the junction of two small creeks which have their sources near the summit of what is locally known as Little Baldy which is situated in the south half of Sec. 31 of T. 55 R 5 W.B.M. This creek has always sunk into the ground on the $N\frac{1}{2}$ of S.W. $\frac{1}{4}$ of Sec 8 Twn 54 R 5, W.B.M. So I own the land on which the water sinks. I have used this water for the past eight (8) years for domestic and irrigating purposes. I had not thought of filing upon it, till I learned that another party had formed a plan to get possession of it and pipe it to section 7 and 8 of this township. So this is a matter of self preservation.

The work of cutting ditch and building dam could be completed much sooner than the time I name but it requires time to get the land cleared and ready for the water.

APPROVAL OF STATE ENGINEER.

The number of this permit is 7305

Date of first receipt of application 9.00 a.m. March 7, 1911.

Returned to applicant for correction March 8, 1911.

Corrected application received April 26, 1911.

Recorded in Book 22 Page 7305 Approved May 6, 1911.

This is to certify that I have examined the within application for a permit to appropriate the public waters of the State of Idaho and hereby grant the same, subject to the following limitations and conditions:

Work to begin on or before July 5, 1911, and to continue diligently and uninterruptedly to completion, unless temporarily interrupted by circumstances over which permit holder has no control.

One-fifth of the work above specified to be completed on or before November 6, 1912.

The whole of said work to be completed on or before May 6, 1914.

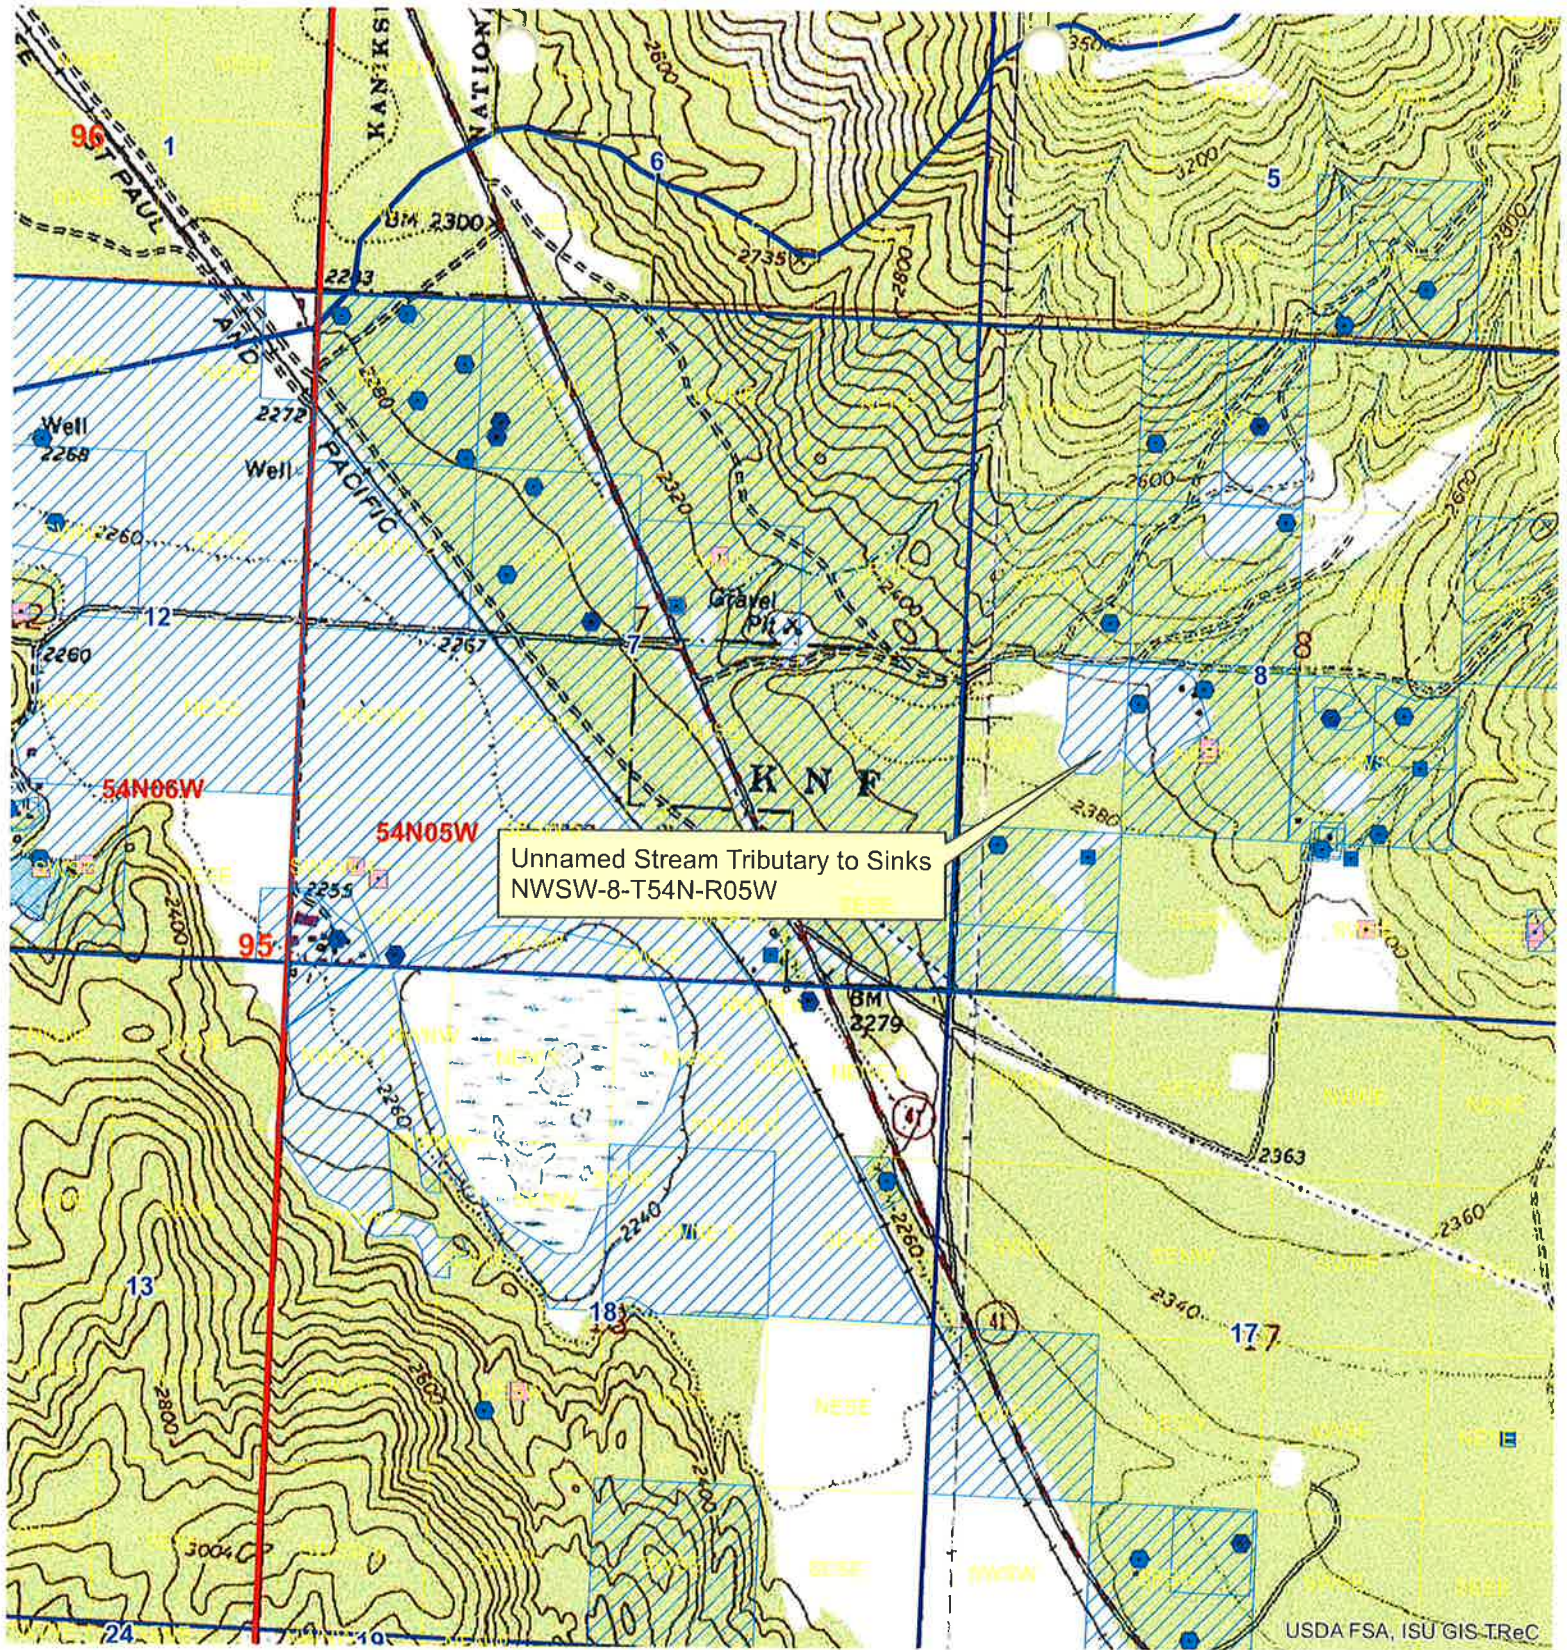

The time for proof of beneficial use of water appropriated in accordance herewith, extended to May 6, 1916.

Witness my hand this sixth day of May, 1911.

A. E. Robinson

State Engineer.
