**RE: Assessments: West Eastern Snake Plain Aquifer Measurement District
Snake River Basin Adjudication (SRBA) Claims
37-14344, 37-14345 and 37-17396**

Dear Mr. Nelson:

BLM has filed several groundwater claims in the Snake River Basin Adjudication (SRBA) for stockwater wells lying within the West Eastern Snake Plain Aquifer Measurement District (WMD). The quantities for the three described above appear to be subject to assessment.

The quantities asserted were calculated according to the two hour diversion rate calculation method for stockwater. The quantity claimed is artificially high as a result and does not accurately reflect the volume of water intended. The claimed quantities will be amended by BLM within the context of our other amendments for Basin 37 water claims and will be submitted to IDWR on August 1, 1998. The amendments will be as follows:

37-14344	0.02 cfs	de minimis volume	Timmerman Well (#5345);
37-14345	0.02 cfs	de minimis volume	Conversion Well (#5284);
37-17396	0.05 cfs	greater than de minimis	Good Time Well (#5263).

Thank you for allowing us the opportunity to seek a waiver from assessment through this correspondence in advance of our actual amendment. If there are questions regarding any statements above, please do not hesitate to contact me at 373-3831 or at the address provided above.

Sincerely,

Fredric W. Price
Water Rights Specialist
