Hi Kaila,

I have attached two forms:

- a. Motion to File Amended Notice of Claim (SF 3)
- b. Copy of Claim 95-16303

Please use the Claim to amend the priority date and the Motion to file with the Court to receive the Court's ok to submit the amended Notice of Claim.

To amend the claim all you need do is cross out the incorrect data and write in the correct data. Initial and date each change that you make and then sign and date the claim under item 15. Be sure to include any documentation that you have to support the new priority date. Then you will need to complete the Motion and return the Claim and the Motion to the four entities listed on pages 3 and 4 of the SF 3.

No additional fee is required.

I am not enclosing the Objection form that I mentioned in our conversation as this form is not necessary.

If you have any questions, please feel free to contact me.

Linda

P.S. I noticed that the well permit number is 96-92-N-224. (See claim form under item 13) I found this well report and am sending it along. This well was drilled in 1992. Was this well drilled to replace/supplement an earlier well drilled in 1972? If so, then 1972 would be a correct priority date. If not, then maybe 1992 is the correct date?
