Priority date description: The only water source for this property is the original farm well. Current house was built in 1952 in same location as the original farm house c. 1890.

Upon purchase of the property in 2008, the hand-dug, brick-lined well was brought to current standards through the retrofit of a grouted 20 foot x 8 inch well casing, that extends approx 24 inches above grade. At the time, City, Moscow, and country, Latah, and state records did not include a recording and or description of the well. Photos of the original farm house are suggested in city photos dating c. 1900 to 1910.
