12. Other Water Rights Used:

13. Remarks:

Priority date description: Wildlife- There has been a natural pond and stream running through this property when the original landowners made their home here. According to neighbors and random pieces of history literature, the pond and stream has always been here providing a water source to wildlife, deer, moose, birds, frogs, snakes, salamanders, etc..

Domestic-

There is a hand dug well that is still semi intact which I was told by neighbors that they had family that helped clean local wells out. My father had a new well drilled in the late 70s or early 80s which provides the home with its water source. The well also provides water for our domestic animals, dogs chickens, horses, livestock etc. The well provides irrigation for our garden and lawn.

Description of use: Water Use

Description

DOMESTIC

We use the well to provide for a home, garden, 1 tenth of an acre lawn, live stock and domesticated animals

WILDLIFE

There is a spring that flows in to a pond on my property which provides water source and habitat for large wild game, small game, birds, and amphibious life.
