13. In 2002, a new well (well tag #D0022757) was drilled to replace old well. In 2008, a renter ran this well dry. We had the well tested and was told it is dry. We had no choice but to drill another well (well tag #D0055361) and have been using this one. We have not abandoned the 2002 well thinking that with time it could recharge itself and used if needed in the future.
