CLAIMANT CONTACT

12/14/2004

I talked with Richard Lockyer, manager of Idaho Irrigation District, on the phone this afternoon regarding the district's notice of error reply. We were able to clear up some misunderstanding regarding the priority date, source, and point of diversion. Richard did not realize that we were only recommending rights for basin 25 at this time. He was expecting recommendations on the district's basin 01 claims as well, so that was the source of confusion.

Once that was cleared up, his only remaining issues were the location of the district boundary and total number of irrigated acres. He said that we were about 4000 acres short. After taking out a couple of lots on BLM ground, he said that the boundary would be correct. I subsequently removed lots 10 and 11 of 2S 38E S06 SWSW to correct the boundary issue.

I explained that our recommended acreage was based on maps the district had provided to Mark Larson. I informed him that he would need to provide an amended shape file which included the additional acreage by the end of the month.

Michael, Please remove the BLM parcels from Idaho Irrigation District's boundary. A call to Sonja Tawzer (Secretary, Idaho Irrigation Dist) would be in order just to find out their time line providing the new boundary. We need it by the end of this month. I would like to have the Director's Report ready by January 14, 2005.

I talked to Sonja Tawzer (Secretary, Idaho Irrigation Dist) and she said that they intend to remove that area from the digital boundary as they didn't mean to include it in the first place. She also said that they were in the process of making other changes to their boundary as they think the current one is 5,000 acres short!

Sonja,

Thank you for speaking with me today on the phone. I have been reviewing the Preliminary Director's Report Recommendations by the Idaho Department of Water Resources (IDWR) for the Irrigation and Other Claims in Basin 25.

On the Idaho Irrigation District claim 25-00224, I ran across a couple Places of Use (POU) describing BLM land that are included within your

digital boundary along the edge of the boundary:

T02S, R38E, Section 6, Lot 10 (SWSW)

T02S, R38E, Section 6, Lot 11 (SWSW).

My Field Office in Pocatello took a look at those parcels to see if there was some agricultural use taking place. They were able to determine that these two parcels are not irrigated, nor used for agricultural purposes. I was able to determine that BLM has not issued any Land Use Permits for these parcels.

I'm hoping to avoid having to file an objection to any IDWR recommendations in the Final Director's Report for Irrigation & Other Claims in Basin 25. If the inclusion of these two BLM parcels within your digital boundary was an oversight, then perhaps the boundary can be adjusted prior to the final recommendation. If the inclusion was intentional, then I guess we've got something to talk about. I have attached a couple of scanned images so you can see the BLM parcels that I'm talking about.

I understand you are going to be working on the digital boundary anyway because it is too small by some 5,000 acres or so in the preliminary. If you like I can take a look at your new map when your ready, to see if there are any issues with BLM in the new boundary?

If you have any questions, please contact me.
