Talked with Vaughn Hunter, re: 25-262.
He said that to his knowledge the acreage east of the drain, which he referred to as "spring creek," was watered with Long Island canal water. He had no knowledge of that land being irrigated with Spring Creek water. It appears that there was no way to deliver Spring Creek water to that ground without the benefit of a pump.

Met with Doc Stoker, Vaughn Hunter
after ownership with Doc Stoker and
possibly others. Have Doc a change of
ownership form. Changed address in
database from Robert to Louisville.

Observed Bob. Claimed ground on east
side of creek appears submerged for
many years. Doc's son, Scott,
confirmed that they didn't own that land.
Comment says that SWSW of sec 2 and
NE NW of sec 11 are also watered with
the WR. However WR database shows
only canal water in these QQ.

POB is same as 258-2, Revere there.
5 acres on this pump.

The summer, Doc installed a portable pump
in a creek which I believe is used as a
drain for the Long Island canal. Doc referred
to the source as Spring Creek, but it has
no name on USGS quad map. It does not
appear have a WR for this diversion.
