Subcase No.	Issue(s)	Resolution
27-4019	1) Quantity - Should include: use of this right with right 27-2116 is limited to a total combined annual diversion volume of no greater than 3373.7 AFY	
	2) Point of Diversion - Should include the point of diversion for 27-2116 as an alternate point of diversion. The point of diversion for 27-2116 should be corrected to show it is in the NESE, not SENE. See Affidavit of Robert Beal.	E-mail from Beeman dated 10/19/06 - Basic Americans GPS readings verify IDWR's legal descriptions are correct. We agree to have alternative points of diversion for 27-2116 & 27-4019.Alternative points of diversion still at issue.
	3) Purpose of Use - Should be: Industrial use is for potato processing. The water diverted under this right for industrial purposes must first be used in association with potato processing. After water is used for industrial purposes in assocation with potato processing, it may be applied to land to satisy water quality requirements.	Condition POU described below satisfy this objection?
	4) Place of use - Add place of use for 27-7411. Remark should read "the place of industrial use includes land upon which discharged process and operating water may be applied for land application purposes to satisfy water quality requirements.	Don & Ernie have agreed to the following language as a place of use condition: Place of use includes land upon which the process water may be applied for land application purposes to satisfy federal or state water quality requirements. Water diverted shall not be used for land application unless the water is first used in potato processing as authorized by this water right. The industrial use of water under this right includes treatment of process water with fresh water. *Not certain whether agreement has been reached on the POU description. Ernie's call.*

MOTION TO FILE AN AMENDED NOTICE OF CLAIM

A *Motion to File an Amended Notice of Claim* may require a hearing before the Presiding Judge or Special Master or may be granted by leave of the court or by written consent of the parties and the Idaho Department of Water Resources. Leave to amend a claim shall be freely given when justice so requires.

✔ I must amend my Notice of Claim to the use of water in the SRBA because:

Basic American Foods' water right 27-2116 has two points of diversion (wells) which were operating and interconnected prior to November 19, 1987. The amended claim corrects original SRBA claim 27-2116 which listed only 1 of the 2 points of diversion. The amended claim also provides a more accurate legal description of both points of diversion.

Basic American Foods' water right 27-4019 has the same two points of diversion (wells) as 27-2116 and requires a similar amendment which is also being filed today.

The correction of the points of diversion will also help resolve Basic American Food's objection regarding total combined annual diversion volumes for water rights 27-2116 and 27-4019.

Basic American is the only objector to 27-2116, and Basic American Foods and the Idaho Department of Water Resources (IDWR) have been in discussions to resolve Basic American Foods' objections to IDWR's recommendation for 27-2116. These amendments are a result of those discussions.

✔ I am providing legal and factual documentation to support my amended Notice of Claim.

Prior to the filing of the Director's Report for 27-2116, Basic American Foods provided the Affidavit of Robert Beal in Support of SRBA Claims 27-2116 and 27-4019 to confirm the two points of diversion and their interconnection prior to November 19, 1987. The Affidavit is attached to this motion. Subsequent investigation by Basic American Foods and IDWR established more accurate legal descriptions of the two points of diversion. These more recent legal descriptions are included in the Amended Notices of Claim for 27-2116 and 27-4019.

I have attached:

✔ An Amended Notice of Claim 27-02116.

Hi, Cindy.

I received a call today from Jo Beeman's office wondering when the preliminary recommendations were going to be mailed out. I told them that I thought they went out in May. The ones that they had questions on were 27-2116, 27-4019, 27-7411 and 27-11243 (all related to Basic Food, I think). I'm guessing that the claimants already received copies, but just wanted to check first, just in case these ones might not yet be complete.

Thanks.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT
OF THE STATE OF IDAHO, IN AND FOR THE COUNTY OF TWIN FALLS

In Re SRBA	)	
	)	**AFFIDAVIT OF MERLYN BROWNING**
Case No. 39576	)	**IN SUPPORT OF SRBA CLAIMS**
	)	**27-4019 AND 27-7411**

STATE OF IDAHO)
) ss:
COUNTY OF BINGHAM)

I, Merlyn Browning, after first being duly sworn upon oath, depose and state that:

(1) My name is Merlyn Browning. From 1958 through August 1996, I was a fulltime employee for the potato processing plant now owned and operated by Basic American Foods, Inc. in Shelley, Idaho. I was first employed by the R. T. French Company and then the Pillsbury Company. The Pillsbury Company owned the plant at the time of my retirement in 1996.

(2) From 1958 to 1974, I was the maintenance foreman and then the maintenance packaging foreman at the processing plant. In 1974, the plant stopped discharging its process water and operating water into the Snake River and added "spray fields" for the year-round land application of its process water and operating water. From 1974 to August 1996, I was the contract employee responsible for year-round operation of the "spray fields." My son Dave Browning assumed those responsibilities in August 1996 and is the current contract employee for the "spray fields."

(3) Due to my employment, I was familiar with the use and operation of the wells at the plant from 1958 through August 1996, the land application of the plant's process/operating water at the "spray fields" from 1974 through August 1996, and the use and operation of the well at the "spray fields" from its first use in the summer of 1984 through August 1996.

(4) The plant wells were commonly known as well #2 and well #3. Their location never changed and their use remained generally the same over time. A third well at the plant stopped operating about 40 years ago when the warehouse was built over its location.

(5) Well #2 and well #3 operated continuously, except for repairs and maintenance. They supplied water for the potato dehydration operations of the plant when the plant was in production. The actual production days in a year could vary depending upon growing conditions and market conditions. The plant was usually in production twenty-four hours a day from sometime in August to mid-July. This could range from at least 310 days to sometimes more than 330 days in some years.

(6) Well #2 and well #3 also supplied water year round at the plant for restrooms, steam heating, general cleaning, and air compressors. The air compressors required large quantities of water at all times and had their heaviest use during production shut down. Cleanup operations typically occurred for eight hours every two weeks. The wells also supplied water for landscaping. The water supplied to the restrooms exited the plant to the sewer system for the City of Shelley.

(7) This mode of operation occurred from 1958 through my retirement in August 1996.

(8) Water from the plant began to be land applied to the "spray fields" in 1974. The water from the plant was supplied year round to the "spray fields". Process water was supplied through out the days the plant was in production. When the plant was not in production, the

water from ongoing plant operations to the "spray fields" was about 200 gallons per minute. The land application occurred continuously from 1974 through my retirement in August 1996.

(9) The small well at the "spray fields" was drilled and began operation in the summer of 1984. It was near the location where the pipe from the plant connected to the irrigation lines for the land application system at the "spray fields". The use of this small well remained generally the same over time. Throughout the year, it was used to clean the line which carried the water from the plant and to purge the irrigation lines for the "spray fields". The purging was done once or twice a week. The well was also used to prime the canal pumps when canal water was mixed with water from the plant for land application during the growing season.

(10) This mode of operation occurred from the summer of 1984 through my retirement in August 1996.

(11) I am aware that the R. T. French Company filed a claim 27-4019 with the Idaho Department of Water Resources in 1979 that states the wells at the plant were used for commercial purposes from September 15 to July 1, although the wells were actually operated year round for the plant. Lynn Sirrine signed the claim and may have focused on the processing cycle that year. From my personal knowledge, I know that the wells at the plant, well #2 and well #3, operated year round since 1958. The "spray fields" were also in operation year round in 1979.

(12) I am aware that water right license 27-7411 for the small well at the "spray fields" states that the well was used March 15 to November 15, although the well was used year round. Frank Latta signed the water right application for the well and may have focused on land application during the growing season rather than the year-round land application of the plant's process water and operation water during the growing and nongrowing seasons. From my personal knowledge, I know that the well at the "spray fields" operated year round since 1984.

FURTHER YOUR AFFIANT SAYETH NAUGHT.

Dated this 29 day of March 2004.

I, Robert Beal, after first being duly sworn upon oath, depose and state that:

(1) My name is Robert Beal. From 1962 to the present, I have been a fulltime employee for the potato processing plant now owned and operated by Basic American, Inc. in Shelley, Idaho. At present, I am the Maintenance Superintendant for the plant.

(2) Due to my length of employment at the Shelley facility, I am familiar with the plant, its systems, and its history. This includes the use and operation of the wells at the plant.

(3) There have been only three wells at the processing plant, as described in Merlyn Browning's affidavit. I have reviewed Mr. Browning's affidavit which was previously filed in support of SRBA claims 27-2116 and 27-4019. The continuously functioning plant wells are commonly known as well #2 and well #3. The third well at the plant was covered by the warehouse and has not been in use since the warehouse was built.

(4) The following information relates to the exact locations of well #2 and well #3

and the physical attributes and diversion capacities for each well.

(5) Well #2 is 16" in diameter and 150' in depth; it is equipped with a 60 horsepower pump and diverts 650 gallons per minute (1.45 cfs). It is located in the NE ¼ SE ¼ Section 32, T1N, and R37E.

(6) Well #3 is 20" in diameter and 243' in depth; it is equipped with a 100 horsepower pump and diverts 1000 gallons per minute (2.66 cfs). I am aware that SRBA claim 27-4019 states that there are three production wells all 150 feet deep; however, there are only two production wells and well #3 is 243 feet deep. After examining the map submitted with SRBA claim 27-4019 and the map submitted with SRBA claim 27-2116, well #3 appears to be both the well in claim 27-2116 and the most southeastern well on the map with claim 27-4019. To the best of my knowledge, well #3 is located in the NE ¼ SE ¼ Section 32, T1N, and R37E.

(7) Well #2 and Well #3 have always been interconnected.

(8) Water used in the restrooms is about 50,000 gallons per day throughout the year.

(9) Prior to November 19, 1987, the highest number of days of production in a year was 338.

REF: Mr Browning's affidavit.

Jo,
I did find a copy of the affidavit in 27-7411? He refers to well # 2 and # 3 as 27-4019 & 27-7411? Is well 2 & 3 for 27-4019 and 2116 or 7411? Can you please send me a map of the location of these three wells? How many wells are in operation? Mr. Browning's states that the third well was buried under a building over 40 years ago. Was a new well drilled?

thanks,
Cindy

Cindy,

Basic American wanted to check some matters regarding its Shelley plant SRBA claims: 27-7411, 27-4019 and 27-2116.

1. Does IDWR have all the necessary documents on the change in ownership to Basic American, Inc?
2. The plant wells should be listed as points of diversion for both 27-4019 and 27-2116 and the places of use should be the same.
3. The rate of diversion for 27-4019: An affidavit will be provided to confirm the rates of diversion for wells 2 and 3.
4. Diverted volume: Basic American will have a recommendation based on Merlyn Browning's affidavit (already on file) and the rates of diversion for wells 2 and 3. Should I just email that to you?
5. Is a field exam necessary?

Basic American should have the data to me for 27-4019 and the diverted volume this week. Thanks.

Jo,

1. It does appear that we have the needed documents for the ownership change in the files.
2. Plant wells for 27-4019 & 27-2116. Are you saying that the two wells under the different rights should be both listed on both claims? The pod listed under 27-2116 does not agree with what Harold Jones found during his field exam. The licensing exam shows it in the NWSE. Was a new well drilled? If so when? Harold found one in the NESE and one in the SENE of section 32. Claim 27-2116 claimed the NWSE of section 32? Why is it different? If they need to claim both wells under both claims they will need to amend the claims.
3. The rate of diversion under 27-4019 has to be based on a 1957 rate not today's rate of diversion.
4. Diverted volume: I do not have a copy of Mr. Browning's affidavit in the claim file for 27-4019.
5. Harold Jones has already been out to the site. Unless we need to re-exam it shouldn't need a field exam.
6. Another issue that needs to be addressed. Under license 27-2116 the pou was licensed as NWSE of section 32. But in the A.J. claim it is much different. This is also similar for 27-4019. The SOU was changed from the statutory claim and the A.J. claim. As you know the Department needs documentation of when the change was made. Because a change like this requires a transfer and one was not filed. In order for us to recognized the change we need documentation that it occurred prior to commencement of the adjudication in 1987.

Jo, these recommendations have to go out in a couple weeks without the proper documents in the file the claims will be disallowed. You immediate attention to this matter is needed in order for a recommendation to be made for your clients.

Jo,
I have three claims filed in the SRBA by Pillsbury Company, 27-7411, 27-4019 and 27-2116. I'm assuming they are the water rights involved in the purchase. I still need something to confirm that. Yes I do need confirmation of the rates of diversion because 27-4019 is a statutory claim that must be verified and I can't verify it with the information I have.
Thanks,
Cindy

Cindy,
Thank you. I will check with Larry. Is there correspondence to BAF listing the water right elements for which you need factual confirmation? If not, could you let me know what you need? I am aware of the season of use issue. I have suggested that BAF provide information to assist with the determination of a diverted volume, but do you also need confirmation of the rates of diversion for the two wells at the plant?

Jo,
You need to remind Larry that we also need the supporting documents required for an ownership change. He indicated that the warranty deed is about 30 pages long and would have to check with you on what documents could be released. Jo, you have worked with the Department long enough to know what documents we need for the ownership change. Could you send those as soon as possible?

I need the diversion information as soon as possible. I'll put a copy of this email in the file to note your response.
thanks Jo,

Cindy,

I have been working with Larry Sautter on the affidavit regarding year round use of the two wells at the plant (SRBA claim 27-4019) and the well at the spray fields (SRBA claim 27-7411) for Basic American Food's processing plant in Shelley.

Merlyn Browning should be able to sign the affidavit Monday or Tuesday when he returns to Shelley from Utah. It will be waiting for him in Larry's office and Larry will mail it directly to you in Soda Springs once it is signed and notarized.

Larry also wants you to know that Dan Hatch with Basic American Foods has signed the change in name forms and you will receive those shortly.

Finally, information about the plant's historical diverted volume is under review. Do you need that by March 31? Later?

I appreciate the assistance. You are welcome to call.

on claims 27-2116, 27-7411 & 27-4019.
It looks like Skip gave them an ownership change on 1/16/04. Send them a reminder with a 2/27/04 deadline.

2-4-04 Email to Skip re well ID. BP

2-4-05 Letter to claimant re ownership change. BP

2/5/04 emailed Ernie to see if a layout is needed for the land application of the waste water. CB
Is POU required? Yes. per Allen Rubberry 2/5/04 CB

2/6/04 Larry called to say they are still working on the paperwork for the ownership change. He has a 4" binder that he is going thru and their accountants last day is Friday 2/6/04 CB.

2/12/04 The orginal license does not have a SOU for the commercial, so it could reasonably be 4/1 to 12/31.
The claimed POU is claimed under 1-38 Snake River Valley Irrigation Dist.

Subject: RE: Basic American Foods (Pillsbury Co.)

Cindy
I spoke with Skip and Don S. about the three rights claimed by Basic American Foods. Skip indicated the land application was a pre-1987 practice so the recommendations can include C05 and show the QQs where land application occurs. He indicated the map illustrates the QQs to be identified as the place of use.

From the conversation between Don and I, we came up with two conditions listed below. The first condition is for 27-7411 and is actually on license but does not show up in the data base.

Water used under this right is for cleaning the distribution system used to discharge plant wastewater. Plant wastewater is co-mingled with fresh water and is used for land application.

Use the following remark for 27-4019 and 27-2116. This remark is a modified WD8. Don said to leave it as a place of use remark.
The place of commercial use includes land upon which wastewater may be applied for land application purposes to satisfy water quality requirements. Water diverted shall not be used for land application unless the water is first used in potato processing as authorized by this water right.

Since the rights do not provide for using ground water to irrigate I suggest not including any reference to irrigation use.
I hope this helps. Let me know if you still have questions.
Ernie

good morning Candice,

I have 3 claims for Pillsbury Co. now owned by Basic American Foods that uses the water to process potatoes then uses the wastewater with there canal water to land apply the water. I don't find an appropriate remark or condition to fit this application. Would you please create an appropriate condition with the correct wording to work in this application?

Claim numbers 27-4019, 27-7411 and 27-2116.
Thanks you,
Cindy

Subject: Pillsbury

Hi Skip,
We received today via certified snail mail the Pillsbury files. When Cindy was reviewing them, it is not clear the location of Wells 2 and 3.
Well #2 is identified as a 16" well drilled October 1956 for French Company. It is apparently 150 feet deep.
Well #3 is identified as a 20" well drilled April 1958 for French Company. It is apparently 243 feet deep.
All 3 of their claims describe the diverting works as a "well, 150' deep, pump, pipelines".
So pick a claim, any of the following, 27-2116, 27-4019, or 27-7411. Then pick a well, any well, just so it is #2 or #3, to come up with a match. Is one well service 2 claims?
So many questions, no answers at this end. Your turn.
Barbara :-}

PS Please write to Cindy, I might not get your quick response. :-}

Re: The Pillsbury Company, Inc.

Dear Mr. Carlsen:

You will find that we are returning to the Department four Notices of Claim to a Water Right which have now been modified based on your letter to us dated September 6, 1989.

The principal change relates to a characterization of the proposed use of the waters claimed. As you will see, our client has determined to claim an incidental use only for irrigation while the principal use relates to the commercial operations of The Pillsbury Company other than the one claimed for domestic use.

Also, based on your letter to us the filing fees have been recalculated with $25.00 representing the fee for the domestic notice, $50.00 each for the three commercial claims, plus $705.00 for the commercial claims at $100.00 per cfs. The total is therefore $880.00.

Should you have any questions concerning the conditions of this letter or the enclosed claims please let us hear from you. If not, we shall simply look forward to return of the client's copies of the enclosed documents indicating the same have been filed.

Thank you for your cooperation in this matter.

Very truly yours,

C. Timothy Hopkins

RE: Pillsbury Co. Water Right Claims

Dear Mr. Hopkins:

The Idaho Department of Water Resources (IDWR) is returning your check #10340 ($686.00) and The Pillsbury Company's Notices of Claim to Water Rights because of insufficient information and fees. All items on the claim form must be correctly completed and fees submitted before the IDWR can process the notices.

Please correct the items identified below and return the forms to the IDWR within 30 days of the date of this letter. Failure to return the corrected notices within the 30-day period may result in an assessment of an additional late-fee.

Domestic Notice of Claim

- Item #2: The day and month water was first used for the house must be entered. If you do not know the precise date, you must estimate the day and month, or apply the last day of the year, i.e. December 31, 1946.

- Items #6 and #7: The amount claimed for the household must be entered. The amount guideline for one house with up to 1/2-acre of lawn and garden irrigation is 0.04 cfs.

Commercial/Irrigation Notices of Claim

- Item #10: The place of use for commercial purposes should be denoted by using a "C" in the appropriate 1/4 of 1/4 section-boxes. If you are also claiming irrigation purposes separately, you must enter the number of irrigated acres within each of the claimed 1/4 of 1/4 section-boxes (40-acre tracts).

MICROFILMED
NOV 12 1992

Note: On the notices for Water Right Licenses 27-7411 and G-27323/27-2116, it appears the water used in the processing plant is also being claimed for irrigation use. However, the licenses do not reflect the use of water for irrigation. If the practice is to discharge plant effluent through a sprinkler system, application of the water to the land would be considered an incidental use to the commercial use. This incidental use could be described in "Remarks" (Item #14), instead of being claimed as a separate purpose in Item #6, with the 1/4 of 1/4 section-boxes where the water is applied marked with a "C" in Item #10.

If you claim the irrigation as a separate purpose, rather than an incidental use, the irrigation on each claim must coincide with acres irrigated during the claimed priority date. For example, only 20 acres of irrigation are listed for the priority date of 7/1/1957 on Claim to a Water Right 27-4019. Please refer to the enclosed copies of the Water Right Claim and Licenses.

Insufficient Fee

The filing fee for each Notice of Claim for commercial and/or irrigation purposes is $50.00, plus $100.00 per cfs claimed for commercial purposes, plus $1.00 per each irrigated acre listed in Item #10 (The acreage fee only must be paid once, i.e. $511.00). There is no fee for the irrigated acreage if it is listed as an incidental use. The filing fee for the Domestic Notice of Claim is $25.00. The total filing fee for all four claims, as previously submitted, is $1,191.00.

If you have any questions, please call Tony Olenichak, Water Rights Agent, at (208)-525-7161.

Sincerely,

Tony Olenichak

Re: The Pillsbury Company, Inc.--Claims to Water Rights--(Bingham County)

Gentlemen:

You will find that I have enclosed the action of the Director of the Department of Water Resources extending The Pillsbury's time to file its notices of claims to water rights until August 31, 1989. You will find that we have enclosed four notices prepared for our client. You will also find that we have enclosed our check in the amount of $686.00 made payable to the Department as and for the applicable fees.

Thank you for your assistance in filing these claims. Should you have any questions concerning the same we ask that we be contacted directly as counsel for The Pillsbury Company, Inc.

Very truly yours,

C. Timothy Hopkins
