PLACE OF USE:

29528 ACRES TOTAL

Place of use does not include federal public lands.

Place of use is within the boundary of Progressive Irrigation District pursuant to Section 43-323, Idaho Code.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

This right is limited to the irrigation of 100 acres within the place of use described above in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Rights have also been claimed to water from Basin 01 for the same purpose of use at the same place of use described above, which will be included in a Directors Report to be filed at a later date. Any water rights recommended in the Basin 01 report for the same purpose of use at the same place of use described above will contain combined use limitations for this right and the Basin 01 rights.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

Chris and Ernie: Please draft SF-5s that resolve BLM & BOR objections. Let Fred or Scott know when they are done. Fred/Scott will pick them up from you, then send them to Mr. Harris for his signature, along with a postage paid return envelope. Mr. Harris can sign, then return the documents to Fred/Scott. Fred/Scott will then obtain IDWR concurrence, unless the documents have already been signed by IDWR, then they will send the documents to me for signature. I will file and serve. Hopefully, we will have time to complete all of the above before the Initial Hearing in Idaho Falls. If not, I will see you and Mr. Harris in Idaho Falls, where we can sign the documents and get them filed or ask the Special Master for more time. Thanks,

Larry

Subject: Progressive Irrigation protest resolution

Larry,

I received word yesterday from Progressive Irrigation District concerning the BLM and BOR protests and your proposed resolution to those protests. The Board stated the following:

"With regards to the objections of the BOR and BLM to including federal lands within the district, we concur that these lands should not be included as a place of use for irrigation water. We would like to authorize you to so inform BLM and BOR and make the necessary steps to bring this to conclusion"

I have reviewed the materials you emailed and maps showing federal ownership and agree that the place of use as it currently stands includes federal land that should not be authorized for irrigation. Please take the necessary steps to see that the provisions you have proposed are undertaken, including informing IDWR of the resolution so they can modify the current digital boundary and preparing the necessary stipulations with the SRBA court (I believe it is SF-5) so that we do not have to show up at the September 28th hearings.

Please call me if you have any questions. Also, could you please inform the BOR of the protest resolution.

Robert L. Harris

Since your call to me on August 18, I found that the Bureau of Reclamation also objection to all but one of the Progressive Irrigation claims at issue under BLM's objections. Please call me to discuss settlement of the objections at 202-305-0435. I am informed that Special Master Bilyeu will be setting Initial Hearings on September 27 and 28. The BOR and BLM would like to settle their objections to Progressive Irrigations claims as follows:

OBJECTION RESOLUTION:

BLM Objections:

-Modify the digital boundary to entirely exclude the legal land descriptions listed below.

-Remove from IDWR's place of use data the legal land descriptions listed below.

-Evaluate whether there is an effect on total acres and quantity.

within

the boundary. I can e-mail maps and GIS data from BOR to you if you wish.

-All of the legal land descriptions containing BOR land is mixed ownership, therefore some portion of all these POUs will remain within the digital boundary and within IDWR's POU data. Since all of the POUs containing BOR land represent a mixed ownership situation, a clarifying remark place under the POU element would complete the resolution of BOR's objection, such as the following: "The use of water under this right does not include a use on federal public land."

-Evaluate whether there is an effect on total acres and quantity.
