Telephone Number: (208)552-2300

RECEIVED
NOV 26 2004
DEPARTMENT OF
WATER RESOURCES

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

SEE MAP.
CURRENTLY MARKED AS FARM LAND UNDER NEW PIVOT.
OLD LAND/PASTURE LAND, NOW WITH PIVOT IT IS BEING FARMED.

2. Describe the changes you wish to make in the proposed recommendation:

SEE MAP

3. Give a brief explanation as to why you disagree with these portions:

WHEN SYSTEM HAS BEEN CHANGED WITH NEW PIVOT; OLD
HAND LINES DID NOT COVER LAND, NOW PIVOT DOES AND IT
IS BEING IRRIGATED/FARMED.

I AGREE with this proposed recommendation: no changes need to be made.

Re: Water Right Adjudication Claim(s) A25-04000

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

The main purpose of this visit is to locate and photograph the headgate(s), ditches, and irrigated lands. It is also important to establish the current ownership of this water right. Please forward this letter as appropriate.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

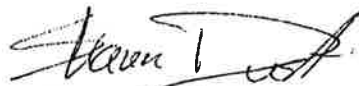

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication

Dear Claimant:

The Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Blackfoot River, Willow Creek and South Fork of the Snake River Drainages. This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that personnel from Intrepid will make an effort to contact claimants to arrange for conducting a field investigation and obtain information about your water use. IDWR requests that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights. Information collected during this process will be reported to IDWR and used by a Senior Water Resource Agent to prepare a recommendation on the water right.

The process of adjudicating water rights is straightforward for most people, resulting in the issuance of decreed water rights. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

If you have sold your property, we request that you forward this letter to the purchaser. The new owner is responsible for advising IDWR of the change in ownership so future correspondence will be mailed to the correct party. If you are unable to forward this letter, please send any information regarding a new owner to our Eastern Regional Office located at 900 N Skyline Dr, Idaho Falls, ID, 83402, Attention: Jennifer Crabtree (208) 525-7161.

Sincerely,

Ernest Carlsen
Adjudication Section Supervisor

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CLAIM TO A WATER RIGHT

Established by Diversion and Application to Beneficial Use

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

(Please refer to the instructions on the back of this form)

1. Name of claimant EARL E. SPAULDING
post office address Route #2, Box 270-A, Rigby, Idaho 83442
2. The point of diversion is in SW $\frac{1}{4}$ of SW $\frac{1}{4}$ Section 2 Township 3 N.
Range 40 E. B.M. ~~location~~ from subterranean well
(name of source)
~~location~~ in Bonneville County.
3. Dates of priority claimed: list the priority for each separate quantity that you claim. Priority dates should be based upon the earliest diversion of the water which has resulted in continued beneficial use since that time. If there has been an interval of five years or greater when the water was not beneficially used for the same purpose as originally appropriated, the priority that you claim should date from the time that the water was again beneficially applied following the period of non-use.
- a. Date of priority claimed:
- | | |
|--|--|
| <u>May 15, 1953</u> | amount: <u>1.2</u> c.f.s. or _____ acre feet |
| _____ | amount: _____ c.f.s. or _____ acre feet |
| _____ | amount: _____ c.f.s. or _____ acre feet |
| Total claimed _____ c.f.s. or _____ acre feet. | |
- b. Explain the purpose for which the water has been used and the time during the year when you have used the right claimed:
- | | |
|-----------------------|--|
| use <u>irrigation</u> | period of use from <u>May 15</u> to <u>October 15</u> (both dates inclusive) |
| use _____ | period of use from _____ to _____ (both dates inclusive) |
| use _____ | period of use from _____ to _____ (both dates inclusive) |
| use _____ | period of use from _____ to _____ (both dates inclusive) |
4. Description of diverting works:
- a. Surface water diversion dam and/or headgate: material is composed of _____
_____ ; length is _____ feet; height is _____ feet;
width at bottom is _____ feet; width at top is _____ feet; explain any increase in diversion capacity since structure was first built, giving dates and estimated capacities if known _____

- b. Underground water diverting works: is well flowing or pumped pumped ; depth of well is 202 feet; diameter of well is 16" inches; type of pump is turbine
capacity of pump is 1200 g.p.m.; name and address of well driller is Andrew Well Drilling
Co., Idaho Falls, Idaho.

Change of Address

Dear Mr. Leak:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to the Bank's water rights can be sent only to the address on the water rights or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by September 24, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please write

FARM CREDIT BANK OF SPOKANE
September 9, 1999

Change of Address

Dear Mr. Leak:

*Records changed, NCAP prepared,
m 9-21-99*

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to the Bank's water rights can be sent only to the address on the water rights or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary **and list any other water rights you may have** before returning this letter by September 24, 1999. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please write

FARM CREDIT BANK OF SPOKANE
September 9, 1999
Page 2 of 2

down the name and address of the new owner(s) so we can send them
a form to make this required change to the water right record.

Sincerely,

Sally Sherman
Technical Records Specialist

APPENDIX A

A few weeks prior to May 15, 1953, I installed a complete irrigation pumping plant and sprinkler system on this farm which consisted of a 50 H.P. Berkley Turbine Pump with a 50 H.P. G.E. Electric Motor attached to this well, which pump was hooked up to approximately 1,200 feet of 4 inch portable aluminum mainline pipe and 1,645 feet of 6 inch, 14 gauge, steel mainline pipe and 3 1/4 mile strings of 40 foot lengths of 3" - 4" aluminum lateral pipe complete with risers, nozzles and couplers.

On May 15, 1953, I commenced using the water from this well through such sprinkler system to irrigate the 60 acres of land above described to hay, grain and potato crops and I continued using the water during the balance of the irrigating season of 1953 for the irrigation of those crops.

Throughout the irrigation seasons of 1954 through 1960, I irrigated from this well through such sprinkler system the said 60 acres of land to hay, grain, potato and pea crops.

Throughout the irrigation seasons of 1961 through 1964, I irrigated from this well through such sprinkler system the said 60 acres of land to hay, grain and potato crops.

I believe that such system was capable of pumping at least 1200 gallons of water per minute from said well.

Early in the year 1965 I replaced the 50 H.P. Berkley Turbine Pump and the 50 H.P. G.E. Electric Motor with a new 30 H.P. Johnson Turbine Pump and a new 30 H.P. G.E. Electric Motor.

I used this same sprinkler system with the new pump and motor replacements during the complete irrigation seasons of 1965 through 1967 to irrigate from said well the said 60 acres of land to hay, grain and potato crops and intend to irrigate all those lands to crops with such system during the forthcoming irrigation season of 1968.

I believe that such revised system is capable of pumping at least 720 gallons of water per minute from said well.

It takes at least one inch of water per acre to efficiently and profitably irrigate the crops grown and to be grown on those lands through such sprinkler system and I feel that I have been using at least one inch of water per acre from said well for such irrigation purposes.

STATE OF IDAHO)
) ss.
 County of Bonneville)

JOHN A. WHEELER, being first duly sworn on his oath, says:

That he is a citizen of the United States of America, over the age of twenty-one (21) years, and resides at Route #2, Rigby, Idaho;

Affiant further says that he is now, and for many years last past has been, well and personally acquainted with Earl E. Spaulding and his farm located in Section Two (2), Township Three (3) North, Range Forty (40), East of the Boise Meridian in Bonneville County, Idaho; that Affiant farms one of his own farms which lies in close proximity to the said farm of Earl E. Spaulding;

Affiant further says that he is well acquainted with the irrigation pumping plant and sprinkler system installed by the said Earl E. Spaulding on the said Spaulding farm early in the year 1953 and that beginning with the irrigation season of 1953 and continuing during the irrigation seasons of each year thereafter to and including the irrigation season of the year 1964, he personally witnessed the water from Mr. Spaulding's well located in the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) of said Section Two (2) pumped through Mr. Spaulding's sprinkler system onto approximately 60 acres of Mr. Spaulding's farm in the irrigation of hay, grain, potato and/or other crops grown on those lands during those irrigation season;

That the said 60 acres of land is comprised of approximately 6 acres in the Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$), 38 acres in the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) and 16 acres in the Southeast Quarter of the Southwest Quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$) of said Section Two (2);

Affiant further says that in the year 1965 Mr. Spaulding replaced the 50 H.P. pump and electric motor with a new 30 H.P. pump and electric motor and that he witnessed the water from said well pumped through said revised pumping plant and sprinkler system onto the above described 60 acres of land for the irrigation of hay, grain and potato crops grown thereon during each of the irrigation seasons of the years 1965 through 1967;

Affiant further says that in his experience as a farmer he believes that lands in the area where his said farm and the said Earl E. Spaulding farm are located require around one miners inch of water per acre for an efficient and profitable irrigation of crops, and that he believes that the said pumping plant and sprinkler system so used by Mr. Spaulding are capable of furnishing at least one miners inch of water per acre for the irrigation of Mr. Spaulding's said lands.

Subscribed in my presence and sworn to before me at Idaho Falls, Idaho, this _____ day of January, 1968.

JAY B. WHEELER, being first duly sworn on his oath, says:

That he is a citizen of the United States of America, over the age of twenty-one (21) years, and resides at Route #2, Rigby, Idaho;

Affiant further says that he is now, and for many years last past has been, well and personally acquainted with Earl E. Spaulding and his farm situate in Section Two (2), Township Three (3) North, Range Forty (40), East of the Boise Meridian in Bonneville County, Idaho; that Affiant's farm is located directly across the road from the said Earl E. Spaulding farm;

Affiant further says that he is personally acquainted with the said Earl E. Spaulding's irrigation pumping plant and sprinkler system situate on Earl E. Spaulding's above mentioned farm; that the said pumping plant and sprinkler system was installed by Mr. Spaulding early in the year 1953 and that it consisted of a 50 h.p. pump and electric motor attached to the Spaulding well located in the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) of said Section Two (2) and buried mainline pipe through which the water was pumped from the well into several strings of aluminum lateral pipe with couplers, risers and nozzles;

Affiant further says that he personally witnessed the water from Mr. Spaulding's well pumped through such pumping plant and sprinkler system onto approximately 60 acres of Mr. Spaulding's farms for the irrigation of hay, grain, potato and/or other crops grown on those lands beginning with the irrigation season of 1953 and continuing during the subsequent irrigation seasons of each year thereafter to and including the irrigation season of the year 1964;

Affiant further says that the above 60 acres of land included approximately 6 acres in the Northwest Quarter of the Southwest Quarter (NW $\frac{1}{4}$ SW $\frac{1}{4}$), approximately 38 acres in the Southwest Quarter of the Southwest Quarter (SW $\frac{1}{4}$ SW $\frac{1}{4}$) and approximately 16 acres in the Southeast Quarter of the Southwest Quarter (SE $\frac{1}{4}$ SW $\frac{1}{4}$) of said Section Two (2);

Affiant further says that Mr. Spaulding replaced the 50 h.p. pump and electric motor early in the year 1965 with a new 30 h.p. pump and electric motor and that he witnessed the water from said well pumped through the revamped pumping plant and sprinkler system onto the above described 60 acres of land in the irrigation of hay, grain and potato crops grown thereon during the 1965 irrigation season and also during the subsequent irrigation seasons of 1966 and 1967;

Affiant further says that the farm lands in the farming area where Mr. Spaulding's farm and his own farm above mentioned are located require at least one miner's inch of water per acre in order to raise profitable crops,
