RE: Water Rights in Reporting Area 14, Basin 25
Snake River Basin Adjudication (SRBA)

Dear Water Right Claimant(s):

Please find enclosed the Idaho Department of Water Resources recommendations for your water right claim(s) in Basin 25 for part of the Upper Snake River drainage basin. We have also enclosed instructions for reviewing (1) your recommended water right(s), and (2) other recommended right(s) in your area. Water rights for nearly all domestic and/or stockwater rights were recommended separately in an earlier report, and most of those now have been decreed by the SRBA Court.

Note that you have until June 22, 2005, in which to review your water rights or those of other claimants and to file any objection to our recommendations. Information on the other water rights can be found at the county courthouses in Blackfoot, Idaho Falls, Rigby, and Soda Springs, and at all the Idaho Department of Water Resources offices (see addresses in enclosures).

If the SRBA Court does not receive an objection to our recommendation from you and no other party objects to your water right, your water right will be decreed early next year as recommended. You will receive your decree from the SRBA Court.

Completion of the SRBA is important for the future of water management in Idaho. We invite you to contact our regional offices with any questions you have about your water right(s) or this adjudication process.

Sincerely,

Karl J. Dreher
Director

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

2. Describe the changes you wish to make in the proposed recommendation:

Change place of use from 0.4 acres to 0.6 acres.

3. Give a brief explanation as to why you disagree with these portions:

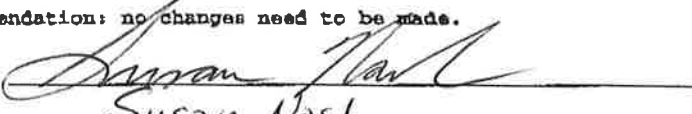

Church records show the water right is used to irrigate 0.6 acres instead of 0.4 acres.

I AGREE with this proposed recommendation: no changes need to be made.

Arthur was billing

Summary
A25-04200 ~~Field Notes~~ 10/16/03

I met w/ Monte Keppner, Facility Manager, at his office in Ucon. I did not visit the site as the field notes from Intrepid appeared to be complete.

- ① Ownership: Appears to be correct. Mr. Keppner filled out a Δ address form to add a second address:

Rigby ID FM Office
PO Box 26
Ucon ID 83454

- ② PoD: Mr. Keppner confirmed location sketched by Intrepid on layout, North end of building. Intrepid GPS location 664,281 E 283,821 N waypoint 4200-Intrepid. Site tag A0011949 per Intrepid notes.

- ③ PoU: Layout appears to be correct. Only lawns around building are irr. by this WR. See Keppner letter to LDS HQ regarding irr area of 25,740 $\text{ft}^2 \approx 0.6$ acres. Ball field is irr. from Canal.

A25-04200 Summary 10/16/03 p 2

④ Overlap: None. Not current well is a replacement; old well was covered during 1977 remodeling.

⑤ Quantity: Per Keppner statement, facility has 17 fixtures. Using Field Examiners handbook 1 gpm/fixture, minimum 20 GPM for schools / churches, rate for indoor = 20 gpm = 0.045 cfs. Claimed rate 0.04 cfs is reasonable.

For irrigation, $0.6 \text{ acres} \times 0.03 \text{ cfs/acre}$ (since this is a small parcel) = 0.012 cfs. I propose rounding to 0.02, for total rate of 0.06.

Volume for inside church is based on Keppner letter. 179 people for 7 hrs $\approx$ 269 people for 6 hrs. Using Field Examiners Handbook rate 15 gallons/person/day for day schools w/o gym or cafeteria $\approx$ 4035 gallons/day $\times$ 52 Sundays $\approx$ 209,820 gallons

AAS-04200 Summary 10/16/03 p3

Assume during the week activities
regular

include equivalent of 100 people
for 3 hrs $\approx$ 50 people for 6 hrs
 $50 \times 15 \times 52 = 39,000$ gallons.

Assume twice a month a funeral,

wedding, party, etc. 500 people

for 3 hrs $\approx$ 250 for 6 hrs

$250 \times 15 \times 24 \approx 90,000$ gallons.

Total = $338,820$ gallons $\approx$ 1,04 acre foot

Alternate calculation: De Minimis

non-household limitation = $2,500$ gpd.

Taking this as an average:

$$\frac{2,500 \times 365.25}{325,850} \approx 2.8 \text{ acre foot}$$

Ingestion Volume: 0.6 acre

$\times 3.5 \text{ cfs} = 2.1 \text{ acre foot}$

⑥ Priority:

Attached Printout from LOS

Church computer records shows
Building completed 1/1/1952. I

Propose accepting this as

A25- 04200 Summary 10/16/03 p 4

evidence of priority. If this is not adequate Mr. Keppner believes Glade Pincock at Salt Lake, or Gary Cooper in Pincock's office, can provide copies of original dedication documents, which would establish dedication date 4/1/1953. See letter in file for contact info.

⑦ Photos: I didn't take any photos because Intrepid field notes we otherwise complete & the travel time to the building did not seem justified.

Dear Mr. Dustin:

At your request please find enclosed the Notice of Claim for A25-04200 and the map showing point of diversion.

The well is on the north side of the building. The GPS reference location is E0007688 A0011949. It supplies water for inside use and to irrigate 0.6 acres of turf and shrubs.

The ball field located west of the meetinghouse is flood irrigated by surface water from a canal and ditch system.

If you require additional information or if you have questions please call me.

Sincerely,
NATURAL RESOURCE SECTION

Re: Water Right Adjudication Claim(s) A25-04200, A25-12346

Dear Water User:

Idaho Department of Water Resources (IDWR) is reviewing claims to water rights in the Snake River Basin Adjudication in your area. Water Resources Field Services has been retained to do field inspections to aid the Department in making correct recommendations to the court. In the next weeks and months I will be contacting you to make an appointment to look at your diversion works and uses of water.

The purpose of the visit is to photograph and locate the wells for the Coltman Ward and the Garfield Ward buildings. Please forward this letter to appropriate local contact persons, and let me know whom I may contact.

I look forward to helping make sure your water right recommendation is correct. Please contact me if there is a particular time that would be convenient for you. You may call in the evenings, or leave a message on the answering machine.

Sincerely,

Bryce A. Contor

To whom it may concern:

10/13/03

The Garfield LDS Meetinghouse was constructed in 1952 at which time the well was installed.

The present meetinghouse has an attendance of 179 people in three different sessions for a total attendance of 537.

There are 5 toilets, 2 urinals, and 10 sinks for a total of 17 fixtures.

Sincerely,

A handwritten signature in cursive script that reads "Monte Keppner".

November 25, 2002

Dear Brother Pincock,

I have reviewed the documentation that was sent to me regarding the use of the well at the Garfield meetinghouse. (5069270) The meetinghouse measurement is 19,336 sq. ft..

Exterior turf and shrub area that is watered from the well is 25,740 sq.ft..

The aerial depiction of the property showing areas being irrigated is accurate.

However the location of the wellhead is inaccurate. It is now located on the north side of the building. It's GPS reference location is E0007688 A0011949.

There is a ball field to the west which is flood irrigated from the ditch.

Sincerely,

Monte Keppner
Rigby Facility Manager

150 Shoup Avenue, Suite 15
Idaho Falls ID 83402

Dear Mr. Carlsen:

Attached is a letter from Conley Stucki and a well drilling report for permit A25-04200. Mr. Stucki explains how an original well was drilled in 1953-1954 and then it was replaced by another well in 1977. A copy of the report from the firm that drilled the well shows the drilling report and also the well and pump system. I hope this is sufficient for the "Evidence of Priority" proof report. This information is for the Garfield Ward, our property #506-5270.

We have not yet received information on the Coltman 1,2 Wards' wells - permit #A 25-12346 but will send it to you as soon as it arrives.

Thanks for your help.

Sincerely,

Ronald C. Johnson

IDAHO FALLS, IDAHO 83401

RECEIVED

MAY 23 1991

Department of Water Resources
Eastern District Office

15 May 1991

Ronald Johnson:

Some years ago a well was drilled to provide water for the Coltman F.D.S. building. During the years of 1953-1954 the Coltman building was remodeled and the existing well was covered by part of the new building. The well was still used until 1977 until repairs could no longer be made. Then a new well was drilled. The old well has been abandoned. It still exists under the building but has been capped.

RE: **Evidence of Priority**

Dear Sir:

The Notices of Claim identified with the numbers shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notices indicates the water usage are based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notices and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notices be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority dates by **June 6, 1991**, referencing all documents with the corresponding Notice numbers. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Ernest Carlsen
Water Right Supervisor, Adjudication
