

01/14/2005

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 25-7004

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION
BUREAU OF RECLAMATION
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: WILLOW CREEK

TRIBUTARY: SNAKE RIVER

QUANTITY: 90,500.000 AFY

The reservoir storage capacity is 90,500 acre feet when filled to elevation 5112.8 and measured at the upstream face of the dam.

PRIORITY DATE: 06/16/1969

POINT OF DIVERSION:

T03N R40E S22 NWNW Within BONNEVILLE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION FROM STORAGE	04/01 10/31	80,500.00 AFY
IRRIGATION STORAGE	01/01 12/31	80,500.00 AFY
WILDLIFE STORAGE	01/01 12/31	10,000.00 AFY

PLACE OF USE:

Place of use for irrigation storage and wildlife storage is Ririe Reservoir.

The place of use for irrigation from storage is upon lands located along the Snake River and its tributaries in Eastern Idaho within the Minidoka Federal Reclamation Project as listed in Storage Contract 4-07-10-W0999 dated March 31, 1994, between the United States and Mitigation, Inc.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: License

Permanent measuring devices must be maintained in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

Water stored under this right and conveyed to downstream lands is subject to a shrinkage loss as determined by the watermaster.

Wildlife storage (inactive storage) shall not be released from storage for a beneficial use.

Use of water under this right will be regulated by a watermaster with responsibility for the distribution of water among appropriators within a water district. At the time of this approval, this water right is within State Water District No. 01.

The storage of water under this right is contingent upon continued certification by the Department of Water Resources under the dam safety provisions of the Idaho Code, authorizing storage.

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 25-7004

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION
BUREAU OF RECLAMATION
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: WILLOW CREEK

TRIBUTARY: SNAKE RIVER

QUANTITY: 90,000.000 AFY

PRIORITY DATE: 06/16/1969

POINT OF DIVERSION:

T03N R40E S22 NWNW Within BONNEVILLE County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION FROM STORAGE	04/01 10/31	90,000.00 AFY
IRRIGATION STORAGE	01/01 12/31	90,000.00 AFY

PLACE OF USE:

Place of use is within the Willow Creek drainage, within the Progressive Irrigation District and within the Salmon Falls drainage.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

Permanent measuring devices must be installed in such a manner that the amount of water entering the reservoir and the amount of water released from the reservoir can be measured.

Water stored under this permit and conveyed to downstream lands is subject to a shrinkage loss as determined by the watermaster. The storage of water is contingent upon certification by the Department of Water Resources, of the applicants dam under the dam safety provisions of the Idaho Code, authorizing storage.

The permit shall not be assigned, amended, or transferred without first securing the written approval of the Department of Water Resources.

Subject to all prior water rights including those for stockwatering.

THIS RIGHT IS CONDITIONED UPON COMPLETION OF THE APPROPRIATION IN ACCORDANCE WITH THE STATUTORY PROCEDURE FOR APPROPRIATION OF WATER RIGHTS. THIS RIGHT REMAINS SUBJECT TO ALL CONDITIONS SET FORTH IN THE PERMIT UPON WHICH THIS RIGHT IS BASED, AND WILL BE SUBJECT TO ALL CONDITIONS SET FORTH IN THE LICENSE ISSUED BY IDWR UPON COMPLETION OF THE STATUTORY APPROPRIATION PROCESS.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: Permit

Use of water under this right is subject to control by the watermaster of State Water District No. 01.

Remarks:

IDAHO DEPARTMENT OF WATER RESOURCES

Water Right Report 25-7004

Comments:

1. kwilson 11/12/2004 Field Report Narrative

Comment: Ririe Dam and Lake Environmental Impact Statement dated October 6, 1972, page 46, provides a 10,000 acre-feet pool for fish and wildlife. Construction of Ririe Dam and Reservoir was authorized by the Flood Control Act of October 23, 1962, P.L. 87-874 (76 Stat. 1193). House Document No. 562 served as the basis for the authorization. Formal transfer of the project from the Corps of Engineers to the Bureau of Reclamation was consummated by a memorandum of agreement effective October 14, 1976.

The 1990 Fort Hall Indian Water Rights Agreement between the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation, the United States, and certain Idaho water users settled the tribes rights reserved under the Winters Doctrine within the Snake River Basin. The Congress approved the Agreement in the Fort Hall Indian Water Rights Act of 1990, P.L. 101-602, which directed the Secretary of Interior to contract 80,500 acre-feet of storage space in Ririe Reservoir for protection of existing users. Pursuant to this legislation, the Bureau of Reclamation contracted with Mitigation, Inc. to provide storage space to the water users adversely impacted by the 1990 Fort Hall Indian Water Rights Agreement, Contract No. 4-07-10-W0999, dated March 31, 1994.

The Fish and Wildlife Storage use was identified in the Environmental Impact Statement in 1973 and the Reservoir has historically been operated with 10,000 acre-feet of storage up to elevation 5,023 for fish and wildlife purposes in addition to 80,500 acre-feet of storage for irrigation.

Place of use lands are identified under water rights listed in Storage Contract 4-07-10-W0999 dated March 31, 1994, between the United States and Mitigation, Inc.

The property at the point of diversion is owned by the United States, The Department of the Interior, Bureau of Reclamation. Section 5 Act of November 16, 1990, P.L. 101-602, 104 Stat. 3059, also known as the Fort Hall Indian Water rights Act of 1990; the United States has entered into Contract No. 4-07-10-W0999 to provide the contractor storage space in Ririe Reservoir.

The original application for permit identified 90,000 acre-feet total quantity to be appropriated...except in extraordinary years when the reservoir may capture additional water during the irrigation season... The applicant stated that the total beneficially used storage is 90,500.0 acre-feet, and is consistent with the original permit application for 90,000 acre-feet and the statement ...except in extra ordinary years when the reservoir may capture additional water during the irrigation season...

The Safety of Dams Program Summary Sheet, for the Idaho Department of Water Resources, lists the storage capacity of Ririe Reservoir as 100,500 ac-ft.

Subject: Notice of Error and Amended Claim for Water Rights No. 25-7004

Dear Mr. Carlsen:

Please find enclosed the Notice of Error and Amended Claim for Water Right No. 25-7004. These comport with the Application for Amendment of Permit that was filed with the Idaho Department of Water Resources in November 2002. If you have any questions, please call me at 208-378-5306.

Sincerely,

E. Gail McGarry
Program Manager, Water Rights and Acquisition

NOTICE OF ERROR
REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: November 22, 2004

Water right number: 25-07004

UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION CODE PN-3100
BUREAU OF RECLAMATION
1150 N CURTIS RD SUITE 100
BOISE ID 83706-1234
Telephone Number: (208) 378-5306

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity
Purpose
Place of Use

2. Describe the changes you wish to make in the proposed recommendation:

Quantity element should include a remark: "The reservoir storage capacity is 90,500 acre feet when filled to elevation 5112.8 and measured at the upstream face of the dam.

Purpose element should be changed to:

Irrigation storage	80,500 acre feet	01/01 to 12/31
Irrigation from storage	80,500 acre feet	04/01 to 10/31
Fish & Wildlife storage below elevation 5023.0	10,000 acre feet	01/01 to 12/31

Place of Use element should be changed to:

"The place of use is land in the Minidoka Federal Reclamation Project within Bingham, Bonneville, Fremont, Jefferson, Madison, and Teton Counties pursuant to Contract No. 6-07-10-W0999 between the United States Department of the Interior Bureau of Reclamation and Mitigation, Inc."

3. Give a brief explanation as to why you disagree with these portions:

Quantity remark has been added to reflect the operational flux of the reservoir.

Purpose of use has been changed to recognize Ririe Dam and Lake Environmental Impact Statement dated October 6, 1972, page 46, which provides a 10,000 acre foot pool for fish and wildlife. Construction of Ririe Dam and Reservoir was authorized by the Flood Control Act of October 23, 1962, P.L. 87-874 (76 Stat. 1193). House Document No. 562 served as the basis for the authorization. Formal transfer of the project from the Corps of Engineers to the Bureau of Reclamation was consummated by a memorandum of agreement effective October 14, 1976. The Amended Claim changes the nature of use to include 10,000 acre feet (inactive storage) to Fish and Wildlife storage up to elevation 5,023. The total beneficially used storage in the Amended Claim is 90,500 acre feet. Historically, the reservoir has been operated with 10,000 acre feet of storage up to elevation 5,023 for fish and wildlife purposes in addition to 80,500 acre feet of storage for irrigation.

Place of Use was changed to recognize the Fort Hall Indian Water Rights Act of 1990 and Contract No. 6-07-10-W0999 as cited above.

 I AGREE with this proposed recommendation: no changes need to be made.

Idaho Falls, ID 83402-1718

Subject: Notice of Error and Amended Claim for Water Rights No. 25-7004

Dear Mr. Carlsen:

Please find enclosed the Notice of Error and Amended Claim for Water Right No. 25-7004. These comport with the Application for Amendment of Permit that was filed with the Idaho Department of Water Resources in November 2002. If you have any questions, please call me at 208-378-5306.

Sincerely,

E. Gail McGarry
Program Manager, Water Rights and Acquisition

MEMORANDUM

Date: November 10, 2004
To: Water Right File 25-7004
From: kwilson
Re: Field Report Narrative

Ririe Dam and Lake Environmental Impact Statement dated October 6, 1972, page 46, provides a 10,000 acre-feet pool for fish and wildlife. Construction of Ririe Dam and Reservoir was authorized by the Flood Control Act of October 23, 1962, P.L. 87-874 (76 Stat. 1193). House Document No. 562 served as the basis for the authorization. Formal transfer of the project from the Corps of Engineers to the Bureau of Reclamation was consummated by a memorandum of agreement effective October 14, 1976.

The 1990 Fort Hall Indian Water Rights Agreement between the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation, the United States, and certain Idaho water users settled the tribes rights reserved under the Winters Doctrine within the Snake River Basin. The Congress approved the Agreement in the Fort Hall Indian Water Rights Act of 1990, P.L. 101-602, which directed the Secretary of Interior to contract 80,500 acre-feet of storage space in Ririe Reservoir for protection of existing users. Pursuant to this legislation, the Bureau of Reclamation contracted with Mitigation, Inc. to provide storage space to the water users adversely impacted by the 1990 Fort Hall Indian Water Rights Agreement, Contract No. 4-07-10-W0999, dated March 31, 1994.

The Fish and Wildlife Storage use was identified in the Environmental Impact Statement in 1973 and the Reservoir has historically been operated with 10,000 acre-feet of storage up to elevation 5,023 for fish and wildlife purposes in addition to 80,500 acre-feet of storage for irrigation.

Place of use lands are identified under water rights listed in Storage Contract 4-07-10-W0999 dated March 31, 1994, between the United States and Mitigation, Inc.

The property at the point of diversion is owned by the United States, The Department of the Interior, Bureau of Reclamation. Section 5 Act of November 16, 1990, P.L. 101-602, 104 Stat. 3059, also known as the Fort Hall Indian Water rights Act of 1990; the United States has entered into Contract No. 4-07-10-W0999 to provide the contractor storage space in Ririe Reservoir.

The original application for permit identified 90,000 acre-feet total quantity to be appropriated...except in extraordinary years when the reservoir may capture additional water during the irrigation season... The applicant stated that the total beneficially used storage is 90,500.0 acre-feet, and is consistent with the original permit application for 90,000 acre-feet and the statement ...except in extra ordinary years when the reservoir may capture additional water during the irrigation season...

The Safety of Dams Program Summary Sheet, for the Idaho Department of Water Resources, lists the storage capacity of Ririe Reservoir as 100,500 ac-ft.

WILLOW CREEK BASIN

13057940 WILLOW CREEK BELOW TEX CREEK, NEAR RIRIE, ID

LOCATION.--Lat 43°26'30", long 111°43'42", in NE¼SE¼ sec.3, T.1 N., R.40 E., Bonneville County, Lone Pine Ridge quad., Hydrologic Unit 17040205, on right bank, 0.3 mi below Tex Creek and 13.2 mi southeast of Ririe.

DRAINAGE AREA.--568 mi².

PERIOD OF RECORD.--August 1977 to September 1979, October 1985 to current year.

GAGE.--Water-stage recorder. Elevation of gage is 5,200 ft above NGVD of 1929, from topographic map.

REMARKS.--Records good except for estimated daily discharges, which are fair. Station equipment includes satellite telemetry. Diversions above station for irrigation of about 7,300 acres, of which 100 acres are irrigated by withdrawals from ground water (1966 determination). Since May 1924, water has been diverted from Grays Lake into Meadow Creek basin and thence into Blackfoot Reservoir.

EXTREMES FOR PERIOD OF RECORD.--Maximum discharge, 2,420 ft³/s May 7, 1997, gage height, 6.73 ft; minimum, 2.1 ft³/s Aug. 23, 1992, gage height, 1.62 ft.

EXTREMES FOR CURRENT YEAR.--Maximum discharge, 271 ft³/s Apr. 15, gage height, 3.59 ft; minimum daily, 3.4 ft³/s July 25.

DISCHARGE, CUBIC FEET PER SECOND, WATER YEAR OCTOBER 2002 TO SEPTEMBER 2003

WILLOW CREEK BASIN

13058000 WILLOW CREEK NEAR RIRIE, ID

LOCATION.--Lat 43°35'00", long 111°44'45", in SE $\frac{1}{4}$ SE $\frac{1}{4}$ sec.16, T.3 N., R.40 E., Bonneville County, Poplar quad., Hydrologic Unit 17040205, on right bank 0.25 mi downstream from Ririe Dam, 3.4 mi southeast of Ririe, and at mile 20.2.

DRAINAGE AREA.--627 mi².

PERIOD OF RECORD.--April 1903 to September 1904, October 1916 to September 1925, May to August 1928, October 1962 to September 1979, October 1985 to current year. Monthly discharge only for some periods, published in WSP 1317.

GAGE.--Water-stage recorder. Elevation of gage is 4,950 ft above NGVD of 1929, from topographic map. Prior to September 1904, nonrecording gage at site about 3.25 mi downstream at different datum. October 1916 to June 1921, nonrecording gage, June 1921 to August 1928, water-stage recorder at present site. October 1962 to September 1979, at site 1.75 mi downstream at different datum. Records comparable.

REMARKS.--No estimated daily discharges. Records good. Diversions above station for irrigation of about 7,300 acres, of which about 100 acres are irrigated by withdrawals from ground water (1966 determination). Since May 1924, water has been diverted from Grays Lake some years, about 40 mi upstream, into Meadow Creek basin and thence into Blackfoot Reservoir. Flow regulated by Ririe Reservoir beginning December 1975, with some storage beginning July 1974. During winter months when gates at Ririe Dam are closed, seepage may pass the gage, but sinks into the gravels; consequently this flow is not published.

EXTREMES FOR PERIOD OF RECORD.--Maximum discharge observed (1903-74), 4,200 ft³/s May 15, 1917, gage height, 16.30 ft; minimum daily, 1.2 ft³/s Aug. 12, 1974.

Maximum discharge since regulation began in 1975, 2,320 ft³/s May 20, 1975, gage height, 14.07 ft; no flow for long periods most years.

EXTREMES OUTSIDE PERIOD OF RECORD.--Maximum discharge since 1899, 5,080 ft³/s Feb. 11, 1962, from estimate based on field survey, gage height, 15.0 ft from floodmarks; stream reported practically dry during summers of 1899 and 1934.

EXTREMES FOR CURRENT YEAR.--Maximum daily discharge, 439 ft³/s Aug. 26; no flow for long periods.

Subject: Application for Amendment and Proof of Beneficial Use for Water Right Permit No.
25-7004, Ririe Reservoir

Dear Mr. Dreher:

Enclosed is an Application for Amendment of Permit and Proof of Beneficial Use for Permit No. 25-7004 for the Ririe Reservoir water right permit.

The Application for Amendment includes a change in the place of use. As you know, The 1990 Fort Hall Indian Water Rights Agreement (Agreement) between the Shoshone-Bannock Tribes of the Fort Hall Indian Reservation, the State of Idaho, the United States, and certain Idaho water users settled the tribes rights reserved under the Winters Doctrine within the Snake River Basin. The Congress approved the Agreement in the Fort Hall Indian Water Rights Act of 1990, Act of November 16, 1990, PL 101-602, which directed the Secretary of Interior to contract 80,500 acre-feet of storage space in Ririe Reservoir for protection of existing uses. Pursuant to the legislation above, the Bureau of Reclamation contracted with Mitigation, Inc. to provide storage space to the water users adversely impacted by the 1990 Fort Hall Indian Water Rights Agreement, Contract No. 4-07-10-WO999, dated March 31, 1994. The change in the place of use reflects the use under the above mentioned contract.

The Application for Amendment also changes the nature of use of 10,000 acre-feet (inactive storage) to "Fish and Wildlife to storage" up to elevation 5,023. This use was identified in the Environmental Impact Statement in 1973 and the Reservoir has historically been operated that way. The total beneficially used storage in the Amended Application for Permit and Proof of Beneficial Use is 90,500.0 acre-ft. This quantity of 90,500.0 acre-ft is consistent with the original permit application. In the original permit application under section 5(b), "Total quantity to be appropriated," Reclamation was approved for "90,000 acre-feet per annum, except in extraordinary years when the reservoir may capture additional water during the irrigation season." Historically, the reservoir has been operated with 10,000 acre-feet of storage up to

TWP	RANGE	SEC.	NE 1/4				NW 1/4				SW 1/4				SE 1/4				TOTALS
			NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	NE	NW	SW	SE	
Lands identified under water rights listed in Storage Contract 4-07-10-W0999 dated March 31, 1994, between the United States and Mitigation, Inc.																			

4. a. Who owns the property at the point of diversion? United States, The Department of the Interior, Bureau of Reclamation.
b. Who owns the land to be irrigated at the place of use? See attached list of water rights in Contract No. 4-07-10-W0999 Exhibit B.
c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing. Section 5 Act of November 16, 1990, P. L. 101-602, 104 Stat. 3059 also known as the Fort Hall Indian Water Rights Act of 1990 - United States has entered into the contract in 4(b) above to provide the contractor storage space in Ririe Reservoir.

Show 1/4 1/4, section, township, range and ditches. (the smallest subdivision represents 40 acres)

[illegible]

I hereby request approval of this change subject to the fact that no one will be injured by the change, and that the change will be made at my own risk.

RE: NOTICE OF CHANGE OF ADDRESS

Dear Sir or Madam:

Per your request, I have changed the address on the adjudication numbers listed on the following page.

Water right numbers A29-02262, A29-02306, A29-02307, A29-02310, A29-02341, A29-02567, A29-02568 and A29-02571 do not have Bureau of Reclamation as the current owner. The current owner in our database is Falls Irrigation District. Therefore, these rights have not been changed.

All other water right numbers not listed above or on the following page will be processed by our other regions and mailed to you at a later date.

If you have any questions feel free to contact this office at 208-525-7161.

Respectfully submitted,

A handwritten signature in cursive script that reads 'Cheri Vandermeulen'.

NOTICE OF ERROR
REPLY

MH

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

YOUR DEADLINE FOR RETURNING A NOTICE OF ERROR REPLY IS: November 22, 2004

Water right number: 25-07004

UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION CODE PN-3100
BUREAU OF RECLAMATION
1150 N CURTIS RD SUITE 100
BOISE ID 83706-1234
Telephone Number: (208) 378-5306

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Quantity
Purpose
Place of Use

2. Describe the changes you wish to make in the proposed recommendation:

Quantity element should include a remark: "The reservoir storage capacity is 90,500 acre feet when filled to elevation 5112.8 and measured at the upstream face of the dam.

Purpose element should be changed to:

Irrigation storage	80,500 acre feet	01/01 to 12/31
Irrigation from storage	80,500 acre feet	04/01 to 10/31
Fish & Wildlife storage below elevation 5023.0	10,000 acre feet	01/01 to 12/31

Place of Use element should be changed to:

"The place of use is land in the Minidoka Federal Reclamation Project within Bingham, Bonneville, Fremont, Jefferson, Madison, and Teton Counties pursuant to Contract No. 6-07-10-W0999 between the United States Department of the Interior Bureau of Reclamation and Mitigation, Inc."

3. Give a brief explanation as to why you disagree with these portions:

Quantity remark has been added to reflect the operational flux of the reservoir.

Purpose of use has been changed to recognize Ririe Dam and Lake Environmental Impact Statement dated October 6, 1972, page 46, which provides a 10,000 acre foot pool for fish and wildlife. Construction of Ririe Dam and Reservoir was authorized by the Flood Control Act of October 23, 1962, P.L. 87-874 (76 Stat. 1193). House Document No. 562 served as the basis for the authorization. Formal transfer of the project from the Corps of Engineers to the Bureau of Reclamation was consummated by a memorandum of agreement effective October 14, 1976. The Amended Claim changes the nature of use to include 10,000 acre feet (inactive storage) to Fish and Wildlife storage up to elevation 5,023. The total beneficially used storage in the Amended Claim is 90,500 acre feet. Historically, the reservoir has been operated with 10,000 acre feet of storage up to elevation 5,023 for fish and wildlife purposes in addition to 80,500 acre feet of storage for irrigation.

Place of Use was changed to recognize the Fort Hall Indian Water Rights Act of 1990 and Contract No. 6-07-10-W0999 as cited above.

I AGREE with this proposed recommendation: no changes need to be made.
