INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is ESSENTIAL and should be available from the documents that will be present at the time of closing. The first two lines of the legal description MUST be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is NOT a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for BOTH the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

Re: Estate of Harley Vaughn Stringer, Deceased
Water Right No. A63-3082

Dear Ms. Hodges:

Per your instructions, I am returning herewith the Notice of Change of Water Right Ownership which has been executed by Nancy DeBoer, one of the Personal Representatives of the above estate, together with a certified copy of Letters Testamentary. I will await receipt of the complete copy of the claim showing this ownership change.

Thank you for your help.

Very truly yours,

RE: Vaughn Stringer claim

Dear Steve:

As we discussed, enclosed is a change of ownership form which may be used to assign the above Snake River Basin Adjudication claim to the Vaughn Stringer estate.

Please do the following and return all pages to my attention:

1. Since Mr. Vaughn was listed on the claim, any party who has power of attorney for the estate may sign the change of ownership form. If you or Ms. DeBoer have power of attorney, sign on both the "old owner" and "new owner" lines. **Please attach a copy of your power of attorney authorization document.**

2. If you desire amendments to the claim, either in the form of increased acres within the licensed limits, or modification of listed acres, it would be most efficient to just fill out a new claim form reflecting the amendments. **Sign and notarize** the claim, and return along with the change of ownership. If amendments involve an increase in acreage above the 53 acres originally claimed, you will need to enclose a \$1.00 per acre surcharge for each acre in excess of 53. The balance of the claim fee was paid at the time of filing (receipt copy enclosed).

When I receive the above material, I will be able to generate a complete copy of the claim which shows both the ownership change and any desired amendments, which I will return to you for the estate files. It is important that we accomplish these steps before attempting any transfer of water and/or additional changes of ownership preliminary to a land sale. If a transfer is necessary in the future, please contact me and I can prepare the application and forward it to you for signature.

If you have any questions, please don't hesitate to contact me again.

Sincerely,

Cindy Hodges
Sr. Water Resource Agent

Dear Ms. Hodges:

Thank you for the information you sent on the water rights on the Lane Place identified in your computer printout as 63-03082.

Since I talked to you, G. W. Stringer had in his files a copy of notice of claim to a water right filed by Kenneth H. Nelson for Vaughn Stringer on the same place under identification number 63-3082.

I am enclosing with this letter a photocopy of that notice which includes a grid map showing the point of diversion in Section 18 and the quarter sections where the water is applied in Section 7. I don't see any filing stamp on our copy, just the initials at the top "J. L.", which may be the initials of the examiner who helped Kenneth Nelson fill it out.

Firstly, would you please search your data base to see whether or not the claim has been entered and, if as I suspect, it's entered under the name of Kenneth H. Nelson, please tell me what needs to be done to change that to the Estate of Vaughn Stringer, Deceased. The proper address of the owner at the present time would be c/o Nancy DeBoer, Personal Representative, P. O. Box 1565, Nyssa, Oregon 97913, which is my office address as I am the attorney for the Personal Representatives.

I will not fill out another notice of claim until I have heard from you to determine whether or not the claim we have a copy of was actually filed.

The next problem I have to deal with, would be a procedure for another change of ownership to a portion of the lands covered by this application from the Estate of Vaughn Stringer, Deceased, to The Amalgamated

Sugar Company. We are working on a sale but have not reached agreement yet on all of the terms; but a portion of the water rights at least will probably be transferred in this sale.

Thank you for your quick response. I look forward to hearing from you again.

Permit No. 26385This proof is for Beneficial Use

In Water District No. _____

1. Name of applicant James P. Lane2. Source of water supply: Drainage and waste water ditch3. Location of point of diversion: Is in the 250 feet, South distant from NE corner in NE 1/4 of Section 18T. 6 N. R. 5 W., B.M. County of Canyon

4. Describe works as they exist, giving dimensions and capacities of same. Water is diverted from a large drain ditch in the bottom of the draw thru a stub ditch as indicated on the map, to the pump where it is lifted thru 8" steel pipe to the top of the bench and then carried in a larger concrete pipe to the ditch headings, then thru ditches to fields by gravity. Motor is a fifteen h.p. U.S. vertical, driving a Peerless Turb. four stage pump. 8" delivery thru a 45 foot lift. There is a 4'x 4' concrete sump and a well house over the pump and motor. The main delivery heading is thru a large concrete box. There is also one outlet that is made from an old oil drum. In block 5 a concrete pipe line with outlets every few feet makes irrigation easy.

5. Water is used for: Irrigation6. State whether or not water has been turned into works of diversion: yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation):

Blocks 5 and 6 of Oregon-Idaho Orchard Co. Subdivision of Sec. 7., Twp. 6 N.,Rge. 5 W., B.M.Also lots 2 and 3 of Sec. 7., Twp. 6 N., Rge. 5 W., B.M.See map

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River
