Anderson, Pike & Bush
490 Memorial Drive
PO Box 51630
Idaho Falls, ID 83405-1630

Mr. Anderson:

This office has finished the initial processing of Maurice Robinson's notices.

A copy of each notice is enclosed for your records. These notices reflect the information contained on the notices we received 25 Oct 1991.

Also enclosed are receipts E016680 and E008007. Receipt E016680 is for \$589.00 paid to cover the fee on the additional land and 5 new notices you submitted on behalf of Mr. Robinson. Only three of the new notices are listed on that receipt. The other two have been added to receipt E008007.

Naturally if you have any questions concerning this matter feel free to call this office.

Respectfully submitted,

EC

Ernest Carlsen
Adjudication Supervisor

Field Exam Summary A25-12306 November 15, 2003

Bryce Contor

Water Resources Field Services

General Comments - All Maurice Robison Claims

Brc These claims are beneficial use claims for irrigation from a reservoir, streams, and springs. *Two* of the claims include irrigation storage. My inspection confirmed the reservoir and some of the claimed irrigation and also confirmed stockwater use, ~~which is not claimed~~. A letter to the claimant requests a more detailed explanation of irrigation history and invites an amendment or new claim for stockwater. A copy is in paper file A25-12306.

I drove by late in the day on November 1 after looking at other claims all day. I took two photos and a GPS reading, so that if snow came early I would at least have something. These field notes are in the photos directory as A25-13582_Preliminary_Notes.jpg. Both photos are scanned in one JPEG, saved as A25-13582_Preliminary.jpg. The GPS readings are recorded in the field notes as UTM coordinates to allow direct scaling off a USGS map. They confirm that I was in the right location.

On November 6 I returned and did a more thorough investigation. Field notes are in the photos directory as A25_13582Notes_X.jpg where "X" is the page number. GPS readings are in UTM and correspond to points sketched on a copy of a USGS map in paper file A25-12306. Photo numbers in the notes refer to the red circles on a copy of the claimant's map, also filed in paper file A25-12306. GPS readings for Points of Diversion are reported in the summary write up and the data file in IDTM coordinates. My GPS unit sometimes seems to "lose" data points when I change filenames so the GPS filenames are just the names assigned by the unit.

The evidence of priority is an affidavit from Mr. Robison that describes activities that he may not have personally observed, as well as activities he undertook himself. He references coming home from WWII in 1947. This could imply a birth year of about 1920, suggesting his affidavit references personal knowledge back to 1925. This is earlier than many of the claimed priority dates.

General Comments - A25-12306

Field inspection confirms the use of this water right. The home is in disrepair and domestic water may not have been used recently but it is quite likely it was in use at the time the claim was filed.

Ownership

Appears to be correct.

POD

Layout appears to be correct. GPS waypoint 100, 686,593E 239,149N ITDM is the irrigation POD, a headgate from the dam. This is photo A25-12306_3.jpg.

GPS waypoint 120, 685,114 E 240,160N is the spring POD for the domestic use, photo A25-12306_10.jpg.

POU

The POU sketch in the claim appears to be about right. I tried to mark the layout but a better representation is the sketch I made on a copy from the USGS map. The uphill (north) edge of the POU is from a GPS traverse and the downhill (south) edge is from the creek on the USGS map. Dot count indicates about 53 acres which corresponds to the claimed acreage.

Overlap

Tail water from A25-13582 will run down onto this POU and it may be reasonable to recommend overlapping places of use, as I have sketched (see A25-13582 paper file).

A25-12306, A25-13584, and A25-13585 share storage in the reservoir.

Conflict

None noted.

Priority

Claimed priority date of 1937 should be within the personal knowledge of Mr. Robison. He affirms construction of the dam and use of the water in 1937 in the affidavit.

Quantity

The claimed 53.5 acres appears reasonable and justifies the claimed diversion rate and storage volume. A Manning's calculation confirms adequate diversion works capacity. My volume calculations for the reservoir indicate a capacity of 49 to 59 acre feet useable, which is less than claimed.

The three storage claims need a combined limitation to the reservoir capacity.

Water Use

Irrigation, domestic, and stock water uses observed. Letter invites claimant to amend claim to include stockwater.

List of Photos

- A25-12306_1.jpg Looking west at place of use. Foreground is not part of claim, claimed POU is beyond the line of willows in the middle ground. Corresponds to photo 7 on map and in field notes.
- A25-12306_2.jpg Dam. Corresponds to photo 8.
- A25-12306_3.jpg Headgate at dam. Photo 9.
- A25-12306_4.jpg Ditch. Photo 10.
- A25-12306_5.jpg Ditch at location of cross-section used for Manning's. Photo 11. Looking west (downstream).
- A25-12306_6.jpg Looking upstream (east) at ditch very near site of previous photo. Uphill ditch is the main ditch used in Manning's calculation. Lower ditch parallels upper for about half a mile. The line in between that looks like a ditch is a cow path. Photo 12.
- A25-12306_7.jpg Looking SW towards POU. POU is all on the near side of the creek. At the left of the photo traces of a dam can be seen, corresponding to point "G" on the field sketch map. Other claims indicate pumping from ponds for sprinkler irrigation and this is one of the dams sketched by claimant. Photo 13 on map and in notes.
- A25-12306_8.jpg POU looking SW from bend in ditch, photo 14 at GPS location 114.
- A25-12306_9.jpg POU looking NW from same location. Photo 15 in notes and on map.
- A25-12306_10.jpg Domestic POD. The pipeline also supplies stock tanks near the home.

Re: Water Right Adjudication Claims A25-12306, A25-13582, A25-13583,
A25-13584, A25-13585, A25-13586

Dear Mr. Robison:

Many years ago you filed adjudication claims for the irrigation of your ranch in Long Valley, above Bone. Idaho Department of Water Resources is investigating irrigation claims in your area in order to make recommendations to the court. I have been contracted to do field exams of your rights, as I indicated in a post card mailed to you earlier.

In my field inspection I found the claimed gravity irrigation from the reservoir and from Long Valley Spring, as well as domestic and stock use. I also found stockwater use. You may wish to talk to IDWR about amending your claims or filing a separate claim for stockwater.

Some of your claims are for sprinkler irrigation on land too rolling for gravity irrigation. I found traces of previous sprinkler irrigation but no indication of current use of sprinklers. To aid IDWR in making a correct recommendation, I need you to send me a letter explaining your sprinkler irrigation practice from 1984 through the present. The more detail you can give me, the better. I've enclosed a map, could you please mark on there *exactly where you actually have sprinkled, and when*. Please describe the size and horsepower of the pump, the number of joints of mainline you used, the number of sprinklers and the nozzle size, how many sets a day you ran and about how many weeks a year you were able to irrigate each parcel.

Thank you,

Bryce A. Contor

A25-12306 Reservoir Capacity 11/15/03

Using a dot grid on the USGS topo map
I count 16 dots $\times$ 0.92 acres $\approx$ 14.7 acres.

It looked like the effective ^{recently used} ~~usable~~ depth of the reservoir is about 4' though it has been dry the last few years. Neglecting the slope of the edges of the wedge of storage water (see photo A25-12306-3.jpg)

the storage volume @ 4' is $4' \times 14.7 \text{ acres} = 59 \text{ acre feet}$.
The neglecting of the wedge is partial accommodation of a potentially greater depth.

As an alternate calculation, the total volume can be seen as an inverted pyramid with a 14.7 acre base and an elevation of ten feet. The claim states "30' High" dam but the USGS map shows reservoir elevation at 6290 and the 6280 foot contour does not reach the foot of the dam. Pyramid volume = $\frac{1}{3}(\text{base})(\text{height})$
 $= (\frac{1}{3})(14.7 \text{ acres})(10 \text{ feet}) = 49 \text{ acre feet}$.

A25-12306 Manning's Calculation 11/8/03

I did not have my laser level so I measured approx ditch dimensions w/ tape measure & planned to take slope from 4565 mag, plotting ditch location w/ 405. On a small scale the ditch appears to go uphill in places but over the length, the ditch about parallels the 6250 contour. Since the reservoir elevation is given at 6290 and the lat waypoint ⁽¹¹⁶⁾ is much closer to the 6280 than the 6260, I suppose fall is about 10 ft in the mile length of the ditch.

$$\frac{10}{5250} \approx 0.0019.$$

Cross-section (see A25-13562 Notes - 3.jpg):

$$HR = \frac{A}{wp} = \frac{2.044^2}{4.3844} = 0.9464$$

SCANNED P measured w/ ruler = 4 3/8 ft

= 4.38 ft

JAN 04 2005

PROFIED

A25-12306 Mannings' p 2 11/8/03

Mannings' n from Perry Civil Engineering
Handbook 1959

Earth, some weeds 0.025
Earth, dense weeds 0.030
0.030
0.040

I select 0.030 as mid-range value.

$$Q = \frac{1.486}{n} A R^{2/3} S^{1/2} \quad (\text{Bureau Rec. Data Meas. Manual p 170})$$

$$Q = \frac{1.486}{0.030} (2.0) (0.46^{2/3}) (0.0019)^{1/2} = 2.6 \text{ ft}^3/\text{s}$$

The slope could be double what I estimated
and n could be 0.025.

$$Q = \frac{1.486}{0.025} (2.0) (0.46^{2/3}) (0.0038)^{1/2} = 4.41 \text{ ft}^3/\text{s}$$

The slope could be half what I estimated
and n could be 0.04

$$Q = \frac{1.486}{0.04} (2.0) (0.46^{2/3}) (0.0095)^{1/2} \approx 1.38$$

RE: NOTICE OF CLAIM A25-12306, EVIDENCE OF PRIORITY

Dear Maurice:

This letter will confirm that the time period for providing Evidence of Priority on Notice of Claim A25-12306 has been extended to July 9, 1991.

I understand during the interim you will be working with Greg Anderson to compile the documentation necessary for describing the development of irrigation on your ranch.

Naturally, should either you or Greg Anderson have questions, feel free to contact me.

Respectfully submitted,

Ernest Carlsen
Adjudication Supervisor

RE: **Evidence of Priority**

Dear Mr. Robison:

The Notice of Claim identified with the numbes shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice have been or soon will be conducted by Department personnel. **But, the Department will not recommend the Notice be decreed by the court if no evidence of a priority date is submitted.**

IN RE THE GENERAL ADJUDICATION)
OF RIGHTS TO THE USE OF WATER)
FROM THE SNAKE RIVER BASIN)
WATER SYSTEM.)

Civil Case No. 39576

AFFIDAVIT OF
MAURICE L. ROBISON

(CLAIMS: A25-12306;
A25-13582; A25-13583;
A25-13584; A25-13585;
and A25-13586.)

STATE OF IDAHO)
: ss.
County of Bonneville)

Maurice L. Robison, being first duly sworn, deposes
and states that:

I am one of the owners of certain real property
situated in Bingham County, Idaho.

In approximately 1916, Alex Robison homesteaded
certain real property situated in Bingham County, Idaho.

In 1920, Alex Robison and Roy A. Robison built a
home on the following described property situated in Bingham
County, Idaho, to-wit:

N1/2 NW1/4, Section 24, Township 2 South, Range
40 East Boise Meridian.

In 1920, in conjunction with the construction of the
foregoing home, Alex Robison and Roy A. Robison diverted water
from Long Valley Spring and appropriated it to beneficial use
as follows:
