Subject: Modification to initial recommendations

David, Ryan Mikesell and I have been reviewing the preliminary recommendations on the ground water, beneficial use, stock water and wildlife claims at Grays Lake National Wildlife Refuge. Since these claims pertain to ponds we changed the purpose of use to reflect storage using the volume identified on the claim. In general for claims with priorities prior to establishment of the Refuge the uses will show stock water storage. A few claims listed a priority date after establishment of the Refuge and these will have both stock water storage and wildlife storage. For those claims with a priority just a year or two prior to establishment of the Refuge and listing both stock water storage and wildlife storage, I advance the priority date to 6/15/1965 (the date the Refuge was established) and recommended both stock water storage and wildlife storage.

I apologize for getting these to you with only a few days left for review. Feel free to call if you have questions.

Ernie

Evidence in Support of Beneficial Use Claims
Of United States Fish & Wildlife Service

The following declarations are submitted in support of the beneficial use claims made by the U.S. Fish & Wildlife Service. Each declaration provides evidence regarding one or more claims, as shown in the cross-referencing index below. In addition, for each applicable claim, the last page of the claim refers to the declaration that supports it. In accord with IDWR practice and instructions, declarations have not been provided for small domestic and stockwater claims or for claims supported by a license.
