Beart said he bought the place back in 1960 and brought about 400 or 500 head with him. He said that he expanded over the years and in the years leading up to 1987 he had up to 1500 head.

Beart also irrigates about an acre of lawn. There are 3 homes on the property served by the 2 wells. The first home was there in the late 1800's or early 1900's. It has been torn down and replaced by another home. The trailer home was there in 1961, and Beart's home was built in 1969.

$$Q = \frac{3 \text{ HP} \times 0.60 \times 8.814}{10' + (2.31 \times 30) + 10'} = 0.18 \text{ cfs}$$

The second well was put in around 1961. Beart said the next cattle he's ever had on the property during the summer when the lawn is being irrigated is 250 head.

Met with Brent Call and Harvey Thiel, who submitted 8/6/2003 affidavit. When asked about the number of head of cattle he recalled at the Casper farm when he was a kid, he said that there were "about 20 head, which was considered a pretty big herd in those days."

Brent said there is a 3 HP pump in the 80' well and a 1.5 HP pump in the 60' well. At the time of filing, two 1.5 HP pumps were claimed.

To Whom It May Concern:

During the early 1900's, my grandfather, George Ether Casper, owned and farmed the farm Brent Call now owns. They raised their family there and my father, Charles W. Casper was born while they were living there in 1906. They had a well for their use which I understood was hand dug.

To who it May concern.

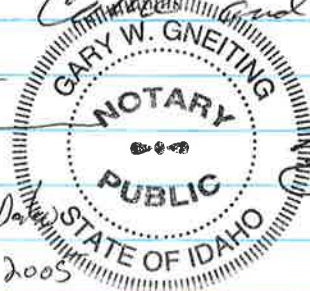

I am writing this letter to verify the use of the well on what was then known as the Casper farm and is now owned by Brent Call.

I have lived within a mile & half of this place all my life. I am now 82 years old. As I kid one of my responsibilities was to see that the cattle got water. We had to drive them (for cattle) to the Canal and haul water for the house.

It is interesting how some memories last so long. I remember as a kid used drive by the Casper farm on a sleigh in the winter. These cattle were drinking from the trough which was close by the house, and thinking, boy when I grow up, I'm going to have a well and save all the hard work, chopping a hole in the ice & driving the cattle to water.

As with everything else, the scale of farming has gotten larger. As with Brent he worked his self into a large dairy and now a dry feed lot many times larger than what the Casper had with their cattle and horses.

RE: NOTICE OF CLAIM ID# A25-11813

Dear Mr. Call:

Please find enclosed a Notice of Claim prepared with information from your original notice and a copy of a letter mailed to you on October 2, 1990 advising that action by you was needed before your Notice could be processed.

The date (month, day, and year) water was first used for the purpose(s) claimed was only partially completed in Item #2. Since the notice only listed a year, December 31, of that year was used to complete the priority date.

The filing fee is \$50.00 plus \$100.00 per cubic foot per second (cfs) listed in Item #6; in this case \$74.00. Since you have already paid \$25.00, the remaining balance is \$49.00

Review the Notice for accuracy. There may be an instance(s), in addition to the above item(s), where a clarification(s) was made by the Department. Should you determine certain items need to be changed, make the necessary changes on this form and initial beside the change. Since the Notice of Claim must be returned to the Department, when you are satisfied the Notice correctly describes the water usage, sign the Notice in the presence of a Notary Public and return the Notice and the \$49.00 filing fee by January 17, 1991.

If you have any questions or objections regarding your Notice, please contact this office at 525-7161.

Respectfully submitted,

Ernest Carlsen

RE: Notice of Claim A25-11813

Dear Mr. Call:

The Idaho Department of Water Resources (IDWR) is returning your Notice of Claim to a Water Right because of insufficient information and/or fees. All items on the forms must be completed and fees submitted before the IDWR can process the notice.

Please correct the items identified below and return the notice to the IDWR by November 2, 1990.

The form you have used is limited to domestic and stockwater uses associated with a home not exceeding 13,000 gallons per day. To claim more than 13,000 gallons per day (0.23 cfs), you must use form #42-1409(2)a, enclosed. Please complete the enclosed form, sign it, having your signature notarized and return it to this office by the above date. The filing fee is \$50.00 plus \$100.00 per cubic foot per second (cfs) listed in Item #6; in this case \$74.00. Since you have already paid \$25.00, the remaining balance is \$49.00.

After you have completed the form, have your signature(s) notarized (be sure to put "and/or" between your names and only one of you need sign the form). Please submit a check for this amount along with the Notice of Claim.

Should extenuating circumstances prevent you from returning the notice by this date, it is important the IDWR be contacted. Failure to either return the corrected notice or provide justification for additional time will be cause for refunding the filing fee previously paid and removal of the notice from the IDWR records. Notices returned after the refund process has been initiated will be subject to a late fee of \$50.00, in addition to fees already paid.
