Re: Snake River Basin Adjudication Claim No. 25-10139

Dear Mr. and Mrs. Johnson,

Thank-you for taking the opportunity to meet with me this past Friday, July 18, 2003. It helped sort out the meaning behind your adjudication claim. Accordingly, my understanding of the disposition of the property is as follows:

- The property is now currently owned by four separate owners. They are:
 - Jana and Scott Mugleston, 232A N. Yellowstone Hwy.
 - Joel and June Johnson (yourselves), 234A Yellowstone Hwy.
 - Corey and Jenney Wadsworth, 234 N. Yellowstone Hwy.
 - Doug James, 232 N. Yellowstone Hwy.
- All four owners share one common well. GPS Site Tag No. A0011951. Estimated at 1 ½ hp.
- Three of the four owners are for domestic use. The fourth is a commercial use.
- No irrigation, other than yard/garden areas around homes has existed.

Given this information, I feel that we should separate the owners out for separate adjudication claims to a water right. Therefore, this water right claim will likely be recommended solely on the basis of your ownership of the 234A N. Yellowstone residence. Please find enclosed a copy of the adjudication preliminary recommendation.

I intend to send a letter to the other owners encouraging them to file new claims for their portion of the water right.

If you have any questions, please feel free to call me at (208) 745-7424.

Sincerely,

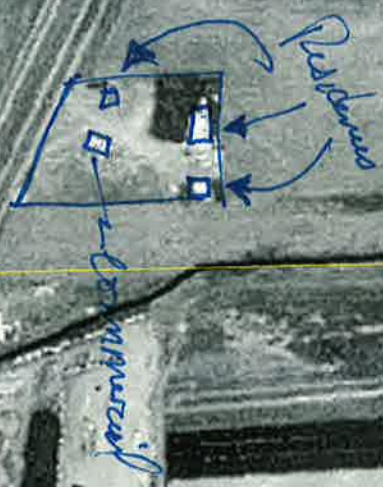

W. Roger Warner
Adjudication Specialist

RE: Investigation of Water Right Claims in the Snake River Basin Adjudication

Dear Claimant:

The Idaho Department of Water Resources (IDWR) is commencing its Snake River Basin Adjudication (SRBA) investigation of water rights in the Blackfoot River, Willow Creek and South Fork of the Snake River Drainages. This investigation is a major effort, and IDWR has hired a contractor, Intrepid Engineering Services, to assist us with this task.

The purpose of this letter is to advise you that personnel from Intrepid will make an effort to contact claimants to arrange for conducting a field investigation and obtain information about your water use. IDWR requests that you provide Intrepid with access to your water diversion system so that their personnel can conduct this field examination. Intrepid will be gathering information on the rate of flow, diversion location and place of use of your water rights. Information collected during this process will be reported to IDWR and used by a Senior Water Resource Agent to prepare a recommendation on the water right.

The process of adjudicating water rights is straightforward for most people, resulting in the issuance of decreed water rights. Experience has shown that water users who work with our agency early in the process to ensure that their recordings are correct have a better experience than those who wait until IDWR has filed its findings with the SRBA Court. Thus, we encourage you to work with our staff and with Intrepid to ensure that the results accurately reflect your water uses.

If you have sold your property, we request that you forward this letter to the purchaser. The new owner is responsible for advising IDWR of the change in ownership so future correspondence will be mailed to the correct party. If you are unable to forward this letter, please send any information regarding a new owner to our Eastern Regional Office located at 900 N Skyline Dr, Idaho Falls, ID, 83402, Attention: Jennifer Crabtree (208) 525-7161.

Sincerely,

Ernest Carlsen

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

RE: **Evidence of Priority**

Dear Mr. Johnson:

The Notice(s) of Claim identified with the number shown above you name has been filed in the Snake River Basin Adjudication (SRBA). The Notice(s) indicates the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notice(s) and the pamphlet entitled **"Evidence of Priority"**. The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date"**.

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notice(s) have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notice(s) be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date(s) by **May 28, 1991**, referencing all documents with the corresponding Notice number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. every effort should be made to submit this information within 30 days of the date of this letter.
