IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 25-12222

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION
BUREAU OF RECLAMATION
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: GROUND WATER TRIBUTARY:

QUANTITY: 0.040 CFS
The quantity of water under this right shall not exceed 2,500 gallons per day.

PRIORITY DATE: 07/31/1987

POINT OF DIVERSION:
T02N R40E S16 SWNW Within BONNEVILLE County

PURPOSE AND PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
DOMESTIC	05/01 10/01	0.040 CFS
Domestic use is for drinking water at Blacktail Park.		

PLACE OF USE: DOMESTIC Within BONNEVILLE County
T02N R40E S16 SWNW

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right is not a determination of historical beneficial use.

EXPLANATORY MATERIAL: Beneficial Use

Water Right 25-12222

SCANNED

OCT 29 2004

PROFILED

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE
Intrepid Technology & Resources, Inc.

RE: NOTICE OF CHANGE OF ADDRESS

Dear Sir or Madam:

Per your request, I have changed the address on the adjudication numbers listed on the following page.

Water right numbers A29-02262, A29-02306, A29-02307, A29-02310, A29-02341, A29-02567, A29-02568 and A29-02571 do not have Bureau of Reclamation as the current owner. The current owner in our database is Falls Irrigation District. Therefore, these rights have not been changed.

All other water right numbers not listed above or on the following page will be processed by our other regions and mailed to you at a later date.

If you have any questions feel free to contact this office at 208-525-7161.

Respectfully submitted,

Cheri Vandermeulen
Records Clerk

Department of Water Resources
Eastern District Office

Mr. Eric Verner
Senior Water Rights Specialist
Idaho Department of Water Resources
150 Shoup Avenue, Suite 15
Idaho Falls ID 83402

Subject: Snake River Basin Adjudication Water Right Claims, Minidoka Project,
Idaho (Water Rights)

Dear Mr. Verner:

By two letters, each dated June 25, 1991, you requested supplemental evidence of priority for several beneficial use claims lodged in the subject case. The attached table shows some additional information about these claims, including the date of patent of the lands. Our additional comments and recommendations are as follows:

A25-12222. This claim is for a ground water well with first use in about 1987. We understand a beneficial use claim is not appropriate for ground water diversions after 1962. Therefore, this should be withdrawn from the SRBA proceedings. A water right will be obtained through the permit procedure.

A25-12223. This claim was submitted for stock and wildlife use from 4 natural springs tributary to Tex Creek. The quantity claimed is .02 cfs at 4 locations for a total of .08 cfs. The locations are shown on the attached table. Perhaps it would have been more appropriate to submit a separate claim for each location.

A25-12224. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Cove creek.

A25-12225. This claim was submitted for .08 cfs for stockwater and wildlife use from 4 natural springs tributary to Indian Fork. The quantity claimed is .02 cfs at 4 locations so a total of .08 cfs was claimed. Perhaps it would have been more appropriate to submit a separate claim for each location.

A25-12226. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Hayshed Creek.

A25-12227. This claim was submitted for .02 cfs for stockwater and wildlife uses from a natural spring tributary to Willow Creek.

MICROFILMED

APR 12 1994

A25-12228. This claim was submitted for .02 cfs for irrigation and domestic uses from three springs tributary to Pipe Creek. There are three locations or points of diversion as listed on the attached table. The claim should have been for .02 cfs from each location for a total of .06 cfs. Again, perhaps separate claims should have been submitted for each location.

A25-12229. This claim was submitted for .02 cfs for stockwater and wildlife uses from a spring tributary to Spring Creek.

A25-12231. This claim was submitted for .02 cfs for stockwater and wildlife uses from two springs tributary to Dog Tooth Creek. The quantity claimed is .02 cfs at 2 locations for a total of .04 cfs. Again, perhaps separate claims should have been submitted for each spring.

A25-12234. This claim was submitted for .04 cfs for irrigation and wildlife uses from Indian Fork, a natural stream. The water is used to maintain 3 acres of ponds at the location shown on the attached table.

A25-12236. This claim was submitted for .05 cfs for irrigation, stockwater, and wildlife uses from Trail Creek, a natural stream. The water is used to maintain a two-acre pond at the location shown on the attached table.

The IDWR has advised that the existing evidence of priority is sufficient for claims not exceeding .02 cfs for domestic and stockwatering uses. All of the above claims except the last two fit into that category. The last two claims are for maintenance of ponds. A date of priority as of the date of patent of the lands is requested for each of these claims.

Please advise us of any action on our part that needs to be taken to separate the claims that were lumped together on the original filing.

Sincerely,

Regional Supervisor of
Water, Power, and Lands

RE: **Evidence of Priority**

Dear Regional Director:

The Notices of Claim identified with the numbers shown at the end of this letter has been filed in the Snake River Basin Adjudication (SRBA). The Notices indicate the water usage is based on "Beneficial Use" or a "Statutory Claim". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a License, Decree, or Permit. For this reason, proof must be provided supporting the priority date.

For your reference I have provided a printout of your Notices and the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read all of the pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend this historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the Notices have been or soon will be conducted by Department personnel. But, the Department will not recommend the Notices be decreed by the court if no evidence of a priority date is submitted.

Please submit the required evidence supporting the priority date by **July 25, 1991**, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter or the enclosed pamphlet, please contact this office.

MICROFILMED

NOV 11 1992

Page 2

All Notices required to submit this evidence are currently being reviewed for recommendation to the court. Hence, the need for expediency on your part or your agency. Every effort should be made to submit this information within 30 days of the date of this letter.

Respectfully submitted,

Eric Verner
Senior Water Agent
