BEFORE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO

IN THE MATTER OF TRANSFER NO.)	
1561 IN THE NAME OF ALVA A. HARRIS)	PRELIMINARY ORDER CORRECTING TRANSFER APPROVAL
AND DARRELL L. COOK)	
_____)	

This matter having come before the Department of Water Resources (Department) as a result of a transfer of water rights, the Department makes the following Findings of Fact, Conclusions of Law, and Order:

FINDINGS OF FACT

1. On December 17, 1968, the Department approved Application for Transfer No. 1561 (transfer), in the name of Alva A. Harris and Darrell L. Cook, changing the place of use and point of diversion for water right nos. 27-1, 27-2, 27-3A, 27-4J and 27-5.
2. The transfer approval included the following condition of approval:

The approval of this transfer is limited to the beneficial requirements of 594 acres and is not to exceed 227.90 acre feet per annum. Adequate measuring devices must be installed and maintained at points of diversion and point of exchange. All points of diversion must be assessable [sic] by vehicle. Water Right No. 4 (Blackfoot Irrigation /Company) withdrawn from application.

3. Water right claims were filed in the Snake River Basin Adjudication for the water rights involved in the transfer. Water right no. 27-1 was claimed by Casey W. Reid (part A) and Paul Reid (part B). Water right no. 27-2 was claimed by Casey W. Reid (part A) and Paul Reid (Part B). Water right no. 27-3A was claimed by Casey W. Reid (part D) and Paul Reid (part E). Water right no. 27-4J was claimed by Casey W. Reid (part Y), Paul Reid (part Z), Fred and Alma Reid (27-10388) and Wallace R. and Marlene Reid (27-10390). Water right no. 27-5 was claimed by Casey W. Reid (part A) and Paul Reid (part B).

CONCLUSIONS OF LAW

1. The condition of approval on the transfer approval contains a clerical error regarding the combined limit of annual volume of water allowed for irrigation under the water rights. The total annual volume of water allowed under the water rights when used in combination should be 2279.0 acre-feet per annum (afa) instead of 227.90 afa.
2. The transfer approval should accurately describe the established water rights as changed by the transfer pursuant to Section 42-222, *Idaho Code*.

3. The Department should correct the condition of approval on the transfer approval to show a total combined limit of 2279.0 afa of water allowed for irrigation under the water rights.

ORDER

IT IS HEREBY ORDERED that the condition of approval on the transfer approval for Transfer No. 1561 is **CORRECTED** as follows:

The approval of this transfer is limited to the beneficial requirements of 594 acres and is not to exceed 2279.0 acre feet per annum. Adequate measuring devices must be installed and maintained at points of diversion and point of exchange. All points of diversion must be accessible by vehicle. Water Right No. 4 (Blackfoot Irrigation /Company) withdrawn from application.

Dated this 20th day of September, 2005.

GARY SPACKMAN
Chief, Water Allocation Bureau

Conditions of Approval:

This Approval of this transfer is limited to the beneficial requirements of 594 Acres and is not to exceed 2279.0 AF Annuum.

Adequate measuring devices ^{must be installed & maintained} at points of diversion and point of exchange.

Justin -

This e-mail is in response to our conversations of the past few weeks re the water rights/ SRBA claims referenced above. Attached is an e-mail with scanned documents. The first 2 pages are from the Stevens Decree [IDWR decree # 27-C] regarding decreed rights 27-4 and 27-14. I have also included 2 pages from the land list in the Stevens case with information about the places of use of the 2 decreed rights 27-14 and 27-4.

Re 27-4y, 27-10390, 27-10398 - [you indicated you thought this last right should be 10389]:

27-4Y-this right is in the name of Casey Reid and was formed from a split from 27-4J

27-13090 - this right is in the name of Marlene and Wallace Reid and was formed from a split from 27-4J

27-10398 - this right is in the name of Marlene and Wallace Reid and was formed from a split from 27-4K

27-10389 - this right is in the name of Fred Vincent and was formed from a split from 27-4K

Re 27-4079:

Our database indicates that this was a statutory claim not a decreed right [not decreed in the Stevens decree]. Making a statutory claim was an old method of claiming a water right which does not mean that the right was proven to be valid or awarded in any way by IDWR or its predecessor. This method of claiming of right is not longer used, though the statutory claim is used to provided information to substantiate an SRBA claim. That is all the information our database contains - I doubt that Cindy has additional information because the purpose of the letters we sent our was to obtain more information regarding claims.

Please call if you have questions regarding this e-mail.

Vicky, will these

RE: Casey and Carol Reid
Claim No. 27-4Y

Dear Ms. Bird:

Enclosed is a Special Warranty Deed and Bill of Sale wherein Casey and Carol purchased property located in Sections 1, 2, 11, and 12, Township 2, South Range 37 EBM in 1990. At the time of the purchase, they also purchased the Decreed Water Rights numbers 27-0001, 27-0002, 27-003A, 27-0005 and 27-10191 according to the Deed.

Also enclosed is a copy of a Notice of Change of Water Right Ownership. This was filled out at the time the property was purchased at the Department of Water Resources in Idaho Falls. At the time this was filled out, the Department of Water Resources indicated to both Casey and Paul and also on the form, that 27-10191 was an incorrect number and the number should be 27-0004X. The Department of Water Resources indicated that on the Notice of Change. This may have even then been a mistake by the Department of Water Resources, in that your records show it as 4Y.

The right 27-0004Y does make sense as this property was initially owned by Darrell Cook and your records indicate that 4Y is a split from 4J. In 1981, Wallace Reid purchased portions of Section 2 and 11 from Darrell Cook and at that time received 57 inches of water as Decreed Water Right Number 27-0004, which was transferred by Application for Transfer of Water Right Number 1561, approved December 17, 1968 by the State Reclamation Engineer, State of Idaho, Department of Reclamation, which is indicated in Wallace's deed from Darrell Cook. Your records indicate that Wallace's right to 27-10390 derives from a split from 27-0004J.

Therefore apparently, as your records indicate, when both Wallace and Casey purchased adjacent properties from Darrell Cook, the rights they received were from the Application for Transfer of Water Right Number 1561.

December 11, 2003

Page 2

Portions of the property that Casey purchased from Darrell Cook were initially homesteaded by Presto Burrell and his daughter, Margeret Burrell who received the patents on portions of the property. Darrell Cook had initially purchased part of this property from W. C. Cannon in 1956.

Enclosed are copies of the deed Casey received from Travelers, i.e., Darrell Cook, the Note of Change of Water Right Ownership, and the Deed from Cook to Wallace Reid, showing the original transfer application.

Hopefully those deeds and other documentation are enough evidence to prove this claim. If you need anything else, please don't hesitate to contact me.

Yours very truly,

BLASER, SORESEN & HANSEN, Chrt.
