Claim A27-02019A

1. I met with Claimant Franklin Wright, on March 25, 2004. After discussing the situation Mr. Wright agreed it was in his interest to leave claim A27-02019A in the Stevens Ditch.

I asked Mr. Wright to contact NRCS to get a soil profile started to justify more than 0.02 cfs/acre.

If you read transfer #5027 remarks you will see that the total cfs (2.04 cfs) is limited in use to just 35 acres.

Claim A27-02019A is for overlapping ground of 25 acres.

Notes

2/26/04 Skip, please check this out for me. After looking closer, I'm thinking Mr. Wright might be confused so please verify the correct pod.

- History: licenced POD: SWSW Sec 8, T3S, R35E.
Claimed POD: SWSENE Sec. 8, T3S, R35E.
T5027 Changed his pod on 27-23F/27D & 37D
to Lot 6 (SWNE), Sec 18, T3S, R35E.

According to Mr. Wright all of his w/r's were transferred from the Central & Stevens ditch to the Riverton ditch. Well this right comes out of the Stevens ditch and it was his understanding that all of his rights were changed.

So let's verify this so we get it right.

Notes

Re: Snake River Basin Adjudication (SRBA)
Notice of Claim 27-2019A

Subject: AMENDED CLAIM

RESPONSE DATE: MARCH 12, 2004

Dear Franklin:

Thank you for responding promptly to my request for information. After our meeting I'm recommending that you amend your Notice of Claim A27-2019A. The 1998 approved transfer 5027 didn't include this water right changing the point of diversion (POD), as you had originally understood that it did. Once the objection period for this basin is complete you will need to visit our Idaho Falls regional office and file a transfer to change the POD to SWSENE of section 8, township 3 south, range 35 east as you did on transfer 5027 for your other rights. For your convenience I have enclosed the amended claim correcting the POD back to the pre 1987 POD for your review and signature. **Your signature must be notarized.** You can either have your signature notarized and return the Notice of Claim to this office or make an appointment with me to notarize your signature.

Please response by the above referenced response date so your claim can be completed and ready for our recommendation to the SRBA court.

If you have any questions please feel free to contact me at 547-3993 in Soda Springs.

Respectfully,

Cindy E. Bird

REF: Snake River Basin Adjudication (SRBA)
Notice of Claim 27-2019A

Subject: Change in the point of diversion

RESPONSE DATE: MARCH 12, 2004

Dear Claimant(s):

Idaho Department of Water Resource's (IDWR) initial investigation of the Notice of Claim listed above indicates that there has been a change in the point of diversion as described below:

Previous Point of Diversion: SWSW section 8, township 3 south, range 35 east.

New Point of Diversion: SWSENE section 8, township 3 south, range 35 east.

A water right owner who has made a change in use of a water right prior to commencement of the SRBA without prior IDWR approval may claim the change in the SRBA. IDWR may recommend a right as changed, however, only if the change meets certain requirements. One of those requirements is that the changes not result in injury to other water rights.

Before IDWR may recommend your claim, you must provide IDWR with the date the change was made and some evidence tending to support that date. If the change was made before November 19, 1987, then the date provided must include the month, day and year. If the change was made after November 19, 1987, then a specific date is not necessary, and the evidence need only support that the change occurred sometime after November 19, 1987.

This office must receive your written response by the date shown above. If no response is received, then your claim to water from the new point of diversion will not be recommended to be decree in the SRBA court.

If you have any questions, please feel free to contact me in our Soda Springs office at 547-3993.

Respectfully,
