Update PLS.

4-26-05 Checked with Assessors office the
address is the same we have in our
records.

4/27/05 2:30pm. John Stucki came in to ask
about the recommendation. He wanted to
know how I came up with the number
of acres because 24 acres were claimed.
I explained to John that the water must
be put to B.U. or it could be lost to
future. He said "the water flows thru
the ditch they don't have any canvas
dams or anything it's whatever water
they get sub irrigates". As I explained
to him sub-irrigation isn't irrigation you
have to divert and apply the water for
irrigation. Then he proceeded to say
he has "a pond". I asked what the
pond is used for? For the water, I explained
that if the pond holds more than 1 days supply of
water then he needs a water right. He thought this
was his W/R. I said this right doesn't allow for storage
that would need to be a separate W/R.

Notes

6/27/05. continued

John decided he needed to speak with TOM Blotter on the split of water rights.

When I asked John when the pond was built he wasn't sure. I asked him how large is the pond. He thought maybe twice the size of the conference room.

John said he was going to go through the PDR's and get back to me if things need to change on the recommendations. As I explained to John I may need to come out and do a field exam to determine if measures are required.

He then asked me about 27-4125. He didn't get a NOE on it, I explained to him that he received a partial decree 4/16/1999 on the stock water right. He was going to write the court to see if he could obtain a copy of the partial decree.
