Memo to file:

Mckay Anderson returned my call. He had called Cindy on the advice of Roger Warner. Roger asked that he call Cindy so the change in the POD could be taken care of during the adjudication. After further clarification, apparently when he went to talk to IF about changing the POD, Roger noticed that the actual land claimed did not coincide with where he wanted to change the POD.

He said the POD was changed a couple of weeks ago. I said that we could not take care of any POD changes after 1988.

I pulled the 2 files we had in our office 27-2152 (which as been recommended) and 27-10080 (which has been disallowed). I told him the particulars about each claim and he said these were not the ones he was concerned about.

He found the numbers 27-7447 and 27-7446. I advised him that these were licensed claims and that we did not have files in this office. I suggested he call Roger back to resolve any discrepancies.

PHILIP E. BATT
GOVERNORKARL J. DREHER
DIRECTOR

December 17, 1998

Gilbert Dayley
Idaho Supreme Potatoes, Inc.
P.O. Box 246
Firth, ID 83236**RE: TRANSFER NO. 5326 OF WATER RIGHT NO. 27-02152**

Dear Mr. Dayley:

Your Petition for Reconsideration (petition) dated December 7, 1998 to Karl Dreher has been referred to me for response. The petition was filed in connection with Transfer No. 5326 which the department approved on December 3, 1998. In your petition you object to Condition of Approval No. 7 which reads as follows:

The total instantaneous diversion of water from all points of diversion under Transfer 5326 shall not exceed 1.07 cfs, nor a total combined annual volume of 774.7 af.

As brief background in this matter, on June 6, 1972, the department issued License No. 27-02152 authorizing a maximum diversion rate of 1.07 cfs and a maximum annual volume of 774.7 acre feet. The rate of 1.07 cfs was determined to be the diversion capacity during the department's field examination conducted on December 23, 1971. The volume was mathematically determined as the largest volume of water which could be produced assuming the pump operated continuously.

On September 25, 1998, you filed Application for Transfer No. 5326 with the department seeking approval to add a point of diversion (new well) to licensed water right no. 27-02152. On December 3, 1998, the department approved the transfer including Condition of Approval No. 7.

Section 42-222, Idaho Code, authorizes the department to approve a transfer of water right provided the proposed changes a) will not injure other water rights, b) do not constitute an enlargement in use of the original right, c) are in the local public interest and d) are consistent with the conservation of water resources within the state of Idaho.

The department is aware that in connection with Section 42-1426, Idaho Code, you have filed Snake River Basin Adjudication (SRBA) claim No. A27-10080 in which you claim a rate of 2.93 cfs as an enlargement claim. Although the claim has not yet been investigated by SRBA staff, as presently filed, the claim can not be allowed, since

Section 42-1426, Idaho Code, provides that an enlargement claim can not increase the rate of diversion.

You are correct that the question of administration of delivery of water by authorized rate of diversion or by volume was and still is an unresolved issue in connection with the draft Water Management Rules. This question, however is a different matter than the amount of water which has been established under a water right.

The transfer can not be approved under terms of Section 42-222, Idaho Code, with a diversion rate larger than 1.07 cfs or an annual volume larger than 774.7 af. Hence, your petition for reconsideration is denied. Enclosed is information titled Explanatory Information which describes potential actions you may pursue in connection with denial of the petition for reconsideration.

In connection with your use of water in excess of that authorized under the transfer, you need to obtain or develop a water right. Possibilities include obtaining part of other existing water rights or filing an application for permit for the excess water.

If you have questions, please feel free to contact the department.

Sincerely,

L. GLEN SAXTON, P.E.
Chief, Water Allocation Bureau
