)
) FOR WATER RIGHTS 63-04621,
) 63-04622, 63-04623, and 63-04624

I. FINDINGS OF FACT

Notices of claim were filed for the above-captioned water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* contained a recommendation or abstract for the elements of these water rights.

On June 20, 2007, the State of Idaho, Department of Lands, through Deputy Attorney General David Barber, filed an objection to the *Director's Report*, asserting that the place of use should not include land owned by the State of Idaho. Water right claims 63-04622, 63-04623, and 63-04624 were identified by IDWR as uncontested water right claims that may be affected by the outcome of a contested matter. An initial hearing was held on May 30, 2008, at which the claimant failed to appear. An *Order to Show Cause* was issued, and a hearing thereon was held July 29, 2008. Again the claimant failed to appear. Pursuant to the terms of the *Order to Show Cause*, the objection was granted, resulting in the recommendation herein that the right be proportionally reduced in quantity and acreage, and a remark be added stating that the place of use does not include land owned by the State of Idaho.

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein, IT IS RECOMMENDED that water rights 63-04621, 63-04622, 63-04623, and 63-04624 be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

RE: Notice of Error forms

Date: November 4, 2006

.....

Notice of Error forms submitted for these recommendations discusses bolded items addressed below.

Claimant states the **location of point of diversion** is in error. The location for diversion point was determined through GPS reading by Sandy Hemenway during field exam conducted on 7/4/2006. Sandy was accompanied by Randy Million and Virginia Griffiths during exam, therefore no change will be made to point of diversion location unless they have better information in their records. Mr. Million states point of diversion is located on south side of Peckham Road which is where the diversion is located on GIS image mailed to claimant. Sandy found that both claimed points of diversion were at the same location. Diversion dams piped the water to different locations.

Source: Claim was filed for use of water from Pipe Gulch Creek and Renshaw Canal. However, in review of topographical map X4, the creek and canal appear to be the same water source. Since we cannot recommend man made structures as sources (Renshaw Canal) I have recommended the source as Pipe Gulch Creek for each of these claims.

No changes will be made to recommendations due to NOE. If claimant does not agree with recommendations they can file objection with SRBA court.

To the Water Resource Board,

I receive agricultural water for my land from a diversion in the Renshaw Canal, also known as Cape Bush watering, Tuleys # 63-4621, # 63-4622, # 63-4623, and # 63-4624.

We were short of water last week and I would protest the operation of a pump that has been placed in the watering above my diversion point by a man named Del Christensen at 19501 Top Road, Caldwell, Idaho 83605, and his neighbors to the east, located south of Greenleaf in Canyon County.
