RE: Notice of Error, 27-7014A & 27-7014B

Brett Malcom
Firth School District #59
PO Box 69
Firth, ID 83236

Dear Mr. Malcom:

In response to the Notices of Error received in this office on June 3, 2005, I am not able to increase the number of irrigated acres for the above water rights.

A review of the water right record reveals license 27-7014 was issued for the irrigation of 5.9 acres with 0.12 cubic feet per second. In September 1994 the school district applied for a change in place of use and point of diversion for license 27-7014. Transfer 4448 was approved in June 1995, copy enclosed. The transfer split the water right into A and B portions which are reflected in the recommendation.

Since the district is irrigating land not covered by license 27-7014, I suggest you investigate options for providing irrigation water to cover this additional land. Roger Warner, Water Rights Supervisor, in this office is knowledgeable of the different options available for this purpose.

Respectfully yours,

Ernest Carlsen
Water Rights Supervisor

This report irrigates the football track for the H.S. on the imagery (1987) it's the area with the 8.9 acres area indicated. They are only authorized for 4.1 acres outline a 4.1 ac POU and will call it good. They will have to deal with Roger on the other issues.

If you use the 2003 satellite imagery it shows the fields. Done 12-20-04 / ~~1/5/05~~

Ready for ECR work when the layout is complete.

Roger Warner and I spoke with the Maintenance Supervisor. The claims you have reflect the ground water rights they have. Go ahead and prepare your recommendations based on the licenses and transfer. The school district needs to decide the least painful way for them to irrigated the football field and baseball field. They have some options but they should not impact the SRBA. He is also going to look for more documents verifying the priority date on the BU claim for the elementary school. He is pretty sure construction started in 1960. If he can verify that then the project was under construction prior to March 1963.

Ernie

Also I heard the Miner's Ditch consolidation failed to happen. Hold off on making those recommendations for a couple of weeks just in case the water users change their minds.

good afternoon,

I was talking to Skip yesterday on the City of Blackfoot and he mentioned that you had a meeting with the Firth School District? You talked to them about the irrigation?

Cindy this afternoon I spoke with Brent Malcolm, Maintenance Supervisor, for the School District. He has been handling the water right issues for the district. The football and baseball fields currently being irrigated from wells may be covered by canal shares. He is going to research this more. Brent's cell phone number is 681-6863.

Notes

9/2/04. Recommend as noted. Please check with Ruth Wilson on a W/R POU layout. CB.

10/25/04 The Arcview Map in the file is in the wrong area for this claim. The POU should be in NWNE, Lot 5 of Section 25, T1S, R36E. Please try to use the map in the file marked POU to create a shape file. CB

10/25/04. The Spatial Map outlines the same POU under 27-7014A.
What is the correct POU for this right?
POU needs to be clarified!

11/15/04 Michael Ciscell is sending 2003 Satellite imagery for this area so we can create the layout for the for the football field under the 1995 transfer.

This right irrigates the track and football field. The shape shows 8.9 acres in the outline shape from Skip.

On Oct 27, 2004 I visited with Wayne Burnett, Grounds Supervisor of Firth School District #59. He accompanied me to the two well sites & places of use under these claims.

Claim A27-7014A well is a 5hp submersed pump shown in photo #1. This well irrigates a baseball field shown on the attached Arc View map. (See transfer #4448)

Claim A2-7014B well is a 15hp submersed pump shown in Photo #2. This well irrigates a track, football field area as well as two practice baseball fields. Approximate size of site is 500' x 800'. Area has a full 1/4 milz track & 2 sets of bleachers on site that take up non-irrigated space. (See Transfer #4448) See USGS Map for approx. location.
