RE: Notice of Error, 27-7014A & 27-7014B

Brett Malcom
Firth School District #59
PO Box 69
Firth, ID 83236

Dear Mr. Malcom:
In response to the Notices of Error received in this office on June 3, 2005, I am not able to increase the number of irrigated acres for the above water rights.

A review of the water right record reveals license 27-7014 was issued for the irrigation of 5.9 acres with 0.12 cubic feet per second. In September 1994 the school district applied for a change in place of use and point of diversion for license 27-7014. Transfer 4448 was approved in June 1995, copy enclosed. The transfer split the water right into A and B portions which are reflected in the recommendation.

Since the district is irrigating land not covered by license 27-7014, I suggest you investigate options for providing irrigation water to cover this additional land. Roger Warner, Water Rights Supervisor, in this office is knowledgeable of the different options available for this purpose.

Respectfully yours,

Ernest Carlsen

Please create a layout for the ball field (4.28ac.) shape on the 1987/88 Nipp photography. We need to create a layout for 1.8 acres only for the ball field. The school district will have to deal with Roger Warner or Shelly Kuon on the additional irrigation. Use the 2003 satelite imagery for the rest also.

Roger Warner and I spoke with the Maintenance Supervisor. The claims you have reflect the ground water rights they have. Go ahead and prepare your recommendations based on the licenses and transfer. The school district needs to decide the least painful way for them to irrigated the football field and baseball field. They have some options but they should not impact the SRBA. He is also going to look for more documents verifying the priority date on the BU claim for the elementary school. He is pretty sure construction started in 1960. If he can verify that then the project was under construction prior to March 1963.
Ernie

Also I heard the Miner's Ditch consolidation failed to happen. Hold off on making those recommendations for a couple of weeks just in case the water users change their minds.

good afternoon,
I was talking to Skip yesterday on the City of Blackfoot and he mentioned that you had a meeting with the Firth School District? You talked to them about the irrigation?

Cindy this afternoon I spoke with Brent Malcolm, Maintenance Supervisor, for the School District. He has been handling the water right issues for the district. The football and baseball fields currently being irrigated from wells may be covered by canal shares. He is going to research this more. Brent's cell phone number is 681-6863.

Notes

9/2/04 Please create a layout. (Check w Ernie or Keith Wilson) and see if they have a POU in the waters right's side that can be linked to A.J.? Transfer was approved in 1995. Otherwise, please create a layout based on the approved transfer.

I checked Ernie's calendar and he is out until Tuesday. So check with Keith, but he might also be out until Tuesday. CB.

10/25/04 Spatial Dynamatics map outlines the same POU as 27-7014B?
What does this right irrigate?
POU needs to be clarified.

11-8-04 Michael Cissell is going to send us some 2002-3 Spot imagery on c.d. for this area of the state. We don't have any on the y drive/ Satelite.
This right irrigates the baseball diamond. The 4.28 acres around the baseball field was irrigated in 1987, but with what there was no W/R to irrigate it. Unless they have surface waters.
Also the 1995 transfer that split 27-7014 between the two ball field so they can build a school on the old ground. Is there acreage around the school that is irrigated?

Hi Keith,
I am working on a shape for the above referenced claim. Do you have a shape on the water right's side that can be linked to this claim shape? The transfer was approved in 1995. If a shape doesn't exist, I will create one. Please let me know if there is one already. Thanks.
Glad to hear your son is getting better.

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to reflect cropping patterns or acceptable standards of water delivery efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. This right when combined with all other rights shall provide no more than .02 cfs per acre nor more than 3.5 afa per acre for the lands above.
