Section 42-1412(6), Idaho Code.

Remarks:Comments:

1. Igraves 9/16/2006 Flow Rate

Comment: Per manager Clair Kofoed, only the NWNW diversion is used for irrigation and consists of a 5 hp electric pump that lifts water 10 ft and open discharges into a concrete ditch. A theoretical calculation was used to estimate the pumping capacity: $5 \text{ hp} \times 8.8 \times .7 / 10 \text{ ft} + (5 \text{ psi} \times 2.31) = 1.43 \text{ cfs}$.

The two diversions in the SWNW are used for wildlife and also serve right 63-9218, which was licensed at 5.16 cfs for diversion to storage for wildlife ponds. Wildlife component for the ponds will be recommended at the claimed 1.04 cfs.

2. Igraves 9/16/2006 Overlaps

Comment: Overlaps are for other uses and/or acres.

3. Igraves 9/16/2006 Wildlife

Comment: Wildlife use is for ponds. License 63-9218 covers diversion to storage and wildlife storage for the ponds. This right covers the flow through component.

4. Igraves 9/27/2006 Source

Comment: Source was clarified to Sand Hollow Creek per department analysis and topo maps.

AFFIDAVIT

Chester Takatori

deposes and says: I was born and raised and live on property just south of Fort Boise Wildlife Management Area near Parma. Growing up, I hunted, fished and farmed on the land owned now by Fish and Game. My father and I used to walk from our home down the Boise River to its mouth at the Snake, and fish on property now on the Wildlife Area. As long as I can remember, the diversion dam on Sand Hollow creek, claimed in 63-4638, has been in place and operated for the irrigation of crops, and lately for wildlife. I recall it was there in 1938 when I was nine years old. This is the same place, township 6N, range 5W, section 31, in the SW corner of the SW quarter, where the diversion dam is today. In fact as a life-long farmer I was involved in farming the 5 acres of crops in Section 36, NW,NW, in claim 63-4638, irrigated by a ditch coming off that dam. The Sand Hollow diversion water was also used to water the 40 acres of pasture just south and west of the exiting dam on the north side of the creek.

I was also a witness to the beneficial use for agriculture of the water in claims, 63-4639 and 63-4640. Both of these claims were water diverted from Sand Hollow creek further west of the dam, toward the Snake River. Claim 63-4639 involved water pumped on to ten acres originally owned by Everett Watkins. I have knowledge this water and the water used to irrigate 50 acres adjacent and west of it, was put on pasture or crops continually from 1952, up until the Fish and Game purchased the ground in the early 1960's.

AFFIDAVIT

W. Clair Kofoed

deposes and says: I have been the manager of Fort Boise Wildlife Management Area, Idaho Department of Fish and Game, Parma, Idaho, since early October, 1985. In almost twenty one years managing the property under the three claims above, I have witnessed the beneficial use of water in the amounts and on those locations indicated under those claims. In that time, I have also been witness to two field exams by Dept. of Water Resources personnel regarding those claims which have validated the points of diversion, quantity and place of use. In personal communication my predecessor, Jim Uranga, of Caldwell, Idaho, I have verified the priority dates indicated in claims 63-4639 and 63-4640. He has personal knowledge of the use of water on these properties. My Fish and Game records also indicated beneficial use of these properties from the initial date of purchase by the Department, to the present. A an 86 year-old neighbor near the Area, Robert Greenway, 28551 Klahr Rd, Parma, Id., also indicated to me he hunted and fished on the property now occupied under all three water claims and saw the water being used to irrigate crops and pastures in the locations indicated in the claim. He first saw this in 1933, when he began hunting and fishing on the property. He verified the use up until 1941, when he went into military service. In 1946, when he returned home after the war, he said the property was leased by J. R. Simplot and he could not gain access to it so he could not verify the use of water. Another adjoining neighbor Chester Takatori also verified to me in conversation (and deposition) the use of the water on the fish and game property. He has live in the area continuously, other than the 1941-

With regard to water right claim 63-4638, I have submitted with this affidavit a copy of an aerial photograph taken on 11-6-1938, which shows the diversion dam in place on Sand Hollow creek, ditches, cultivated fields and irrigated pastures in accordance with the claim. The original photograph is kept in the Department of Fish and Game, State Office in Boise and has a notarized seal of authenticity attached dated 1-18-1977 from Ralph E. Ehrenberg, the Director of the Cartographic Division of the National Archives in Washington, D. C.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

RECEIVED

CLAIM TO A WATER RIGHT

Department of Water Resources

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Idaho Dept. of Fish and Game
(Name of Claimant)

Route 2, Box 75, Parma, ID 83605-83600
(Mailing Address)

Telephone No. 722-5888
(Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) April 16, 1962

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Sand Hollow Drain tributary to Snake River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Quantity	(cfs, gpd, AFA)	Use	(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
				(Mo., Day)	(Mo., Day)
<u>1.04</u>		<u>Irrigation</u>		Period of Use From <u>3/15</u>	To <u>11/15</u>
<u>1.04</u>		<u>Wild Life Habitat</u>		Period of Use From <u>1/1</u>	To <u>12/31</u>
				Period of Use From	To
				Period of Use From	To
				Period of Use From	To
				Period of Use From	To

- (4) 1.04 TOTAL QUANTITY USED.
(cfs, gpd, AFA)

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

SW 1/4 NW 1/4, Sec. 36 Twp. 6N Rge. 6W B.M., County of Canyon

Additional points of diversion:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. Electric pump into gravity ditches.

- (6) A) Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

T	R	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTAL
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4

D. FLOW MEASUREMENTS

1.

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date
Pygmy meter				090181		

2. **Measurements:** Jan Shurte performed a measurement of the entire Sand Hollow drain on 5/13/1987. Since the applicant is the last person on the drain before it enters the Snake River, they have the ability to use all of the drain water if necessary.

63-9268

E. NARRATIVE/REMARKS/COMMENTS

On May 13, 1987, Jan Shurte performed a field exam on this permit. During this field exam, Ms. Shurte measured the water in Sand Hollow Drain and determined the capacity of the system. I have reviewed her data and agree with her measurements. This measurement should be used to determine the amount of water allocated for this permit.

The water for this permit is taken from the Sand Hollow Drain at multiple points along the drain. The applicant is the last user on the drain, so they have the ability to divert the entire drain if needed. This system is comprised of a number of wildlife storage ponds and irrigated fields that are all fed through ditch system and gravity irrigation. Approximately 83.4 acres of ground have been irrigated at this place of use. The crops grown are generally corn and grain type crops to supply food for the ducks and other wildlife that use the facility. There are approximately 15 ponds that are used to supply water for ducks and fish. All of the ponds are interconnected and the return flows from the ponds and irrigation goes directly into the Snake River.

OVERLAP

Water rights 63-4717, 63-4639, 63-4640, 63-4638, 63-11812, 63-11813 all overlap the place of use and point of diversion. 63-4717, 63-4639, 63-4640, and 63-4638 overlap the 83.4 acres that were found irrigated. These rights are all statutory claims and have not been verified. However, the irrigation described in these rights more than cover the amount land actually irrigated. Therefore, no irrigation should be recommended under this permit.

63-11812 and 63-11813 overlaps some of the ponds for this permit. However, all of the ponds had been developed except for the ponds in Section 25. Therefore, these permits should be used to cover the ponds in Section 25. All the remaining ponds not in Section 25 will be covered under this permit.

This permit allows wildlife, but does not have any storage component. The four irrigation rights do have a wildlife component, but do not have a storage component either. Therefore, this permit should be amended for the storage of the ponds and the diversion to storage. The refill of the ponds will be covered by the wildlife components listed on the 4 statutory claims.

RECOMMENDATIONS:

I recommend that this permit be recommended for diversion to storage at a diversion rate of 5.16 cfs and wildlife storage for 292 afa. This permit should be amended to remove the irrigation and wildlife component for the permit and changed to include the storage components.

Have conditions of permit approval been met? X yes ___ no

F. FLOW CALCULATIONSYES Additional Computation Sheets Attached

Measured Method:

The capacity of the system was measured at 18.6 cfs (please see attached sheet).

The permit limits the diversion rate to 5.16 cfs, so the maximum allowable diversion rate is 5.16 cfs.

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{I.R.} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) =$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 =$$

$$V = \text{Smaller of } V_{I.R.} \text{ and } V_{D.R.} =$$

B

2. Volume Calculations for Other Uses:

292 acre-feet of storage for all of the ponds, excluding the ponds in Section 25, which will be covered under, permits 63-11812 and 63-11813.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial use	Period Of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)
	From	To		
DIVERSION TO STORAGE	1/1	12/31	5.16 CFS	
WILDLIFE STORAGE	1/1	12/31		292 AFA
TOTAL			5.16 CFS	292 AFA

2. Recommended Amendments

☐ Change P.D. as reflected above ☐ Add P.D. as reflected above ☐ None
☐ Change P.U. as reflected above ☐ Add P.U. as reflected above ☒ Other

(CHANGE USE TO DIVERSION TO STORAGE AND WILDLIFE STORAGE)

RE: EVIDENCE OF PRIORITY

SNAKE RIVER BASIN CLAIM NOS: A63-4638, A63-4639, A63-4640

Dear Claimants,

In the past, you submitted the above referenced claims during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed are computer generated print-outs of the claims for your reference only, it is not necessary to return these print-outs. These claims are based on "Statutory Claims" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-outs. Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority dates, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future.

Dan Nelson has already confirmed the diversion points and acres irrigated during his field exam 10/6/2000 for IDF&G license 63-9218. If additional information is needed regarding the above rights, Dan will be notifying you.

Page 2

The above requested information needs to be submitted by July 11, 2006. Please let me know if you may not be able to submit the information or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

A handwritten signature in black ink, appearing to read "Lori Graves". The signature is fluid and cursive, with the first name "Lori" written in a larger, more prominent script than the last name "Graves".

Lori Graves
Sr. Water Resource Agent

Enclosure: "Evidence of Priority" Pamphlet/Affidavit
