

12/19/2003

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 27-4150

NAME AND ADDRESS: BLACKFOOT SCHOOL DISTRICT #55
270 E BRIDGE ST
BLACKFOOT ID 83221

SOURCE: GROUND WATER

TRIBUTARY:

QUANTITY: 0.040 CFS

The quantity of water under this right shall not exceed 13,000 gallons per day.

PRIORITY DATE: 04/01/1921

POINT OF DIVERSION:

T02S R36E S17 NENESE Within BINGHAM County

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
DOMESTIC	8/15 6/01	0.040 CFS

PLACE OF USE: DOMESTIC Within BINGHAM County

T02S R36E S17 NESE

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right is not a determination of historical beneficial use.

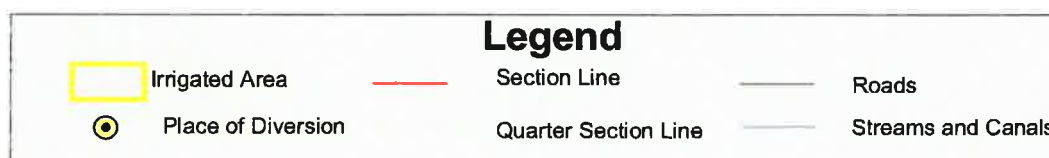

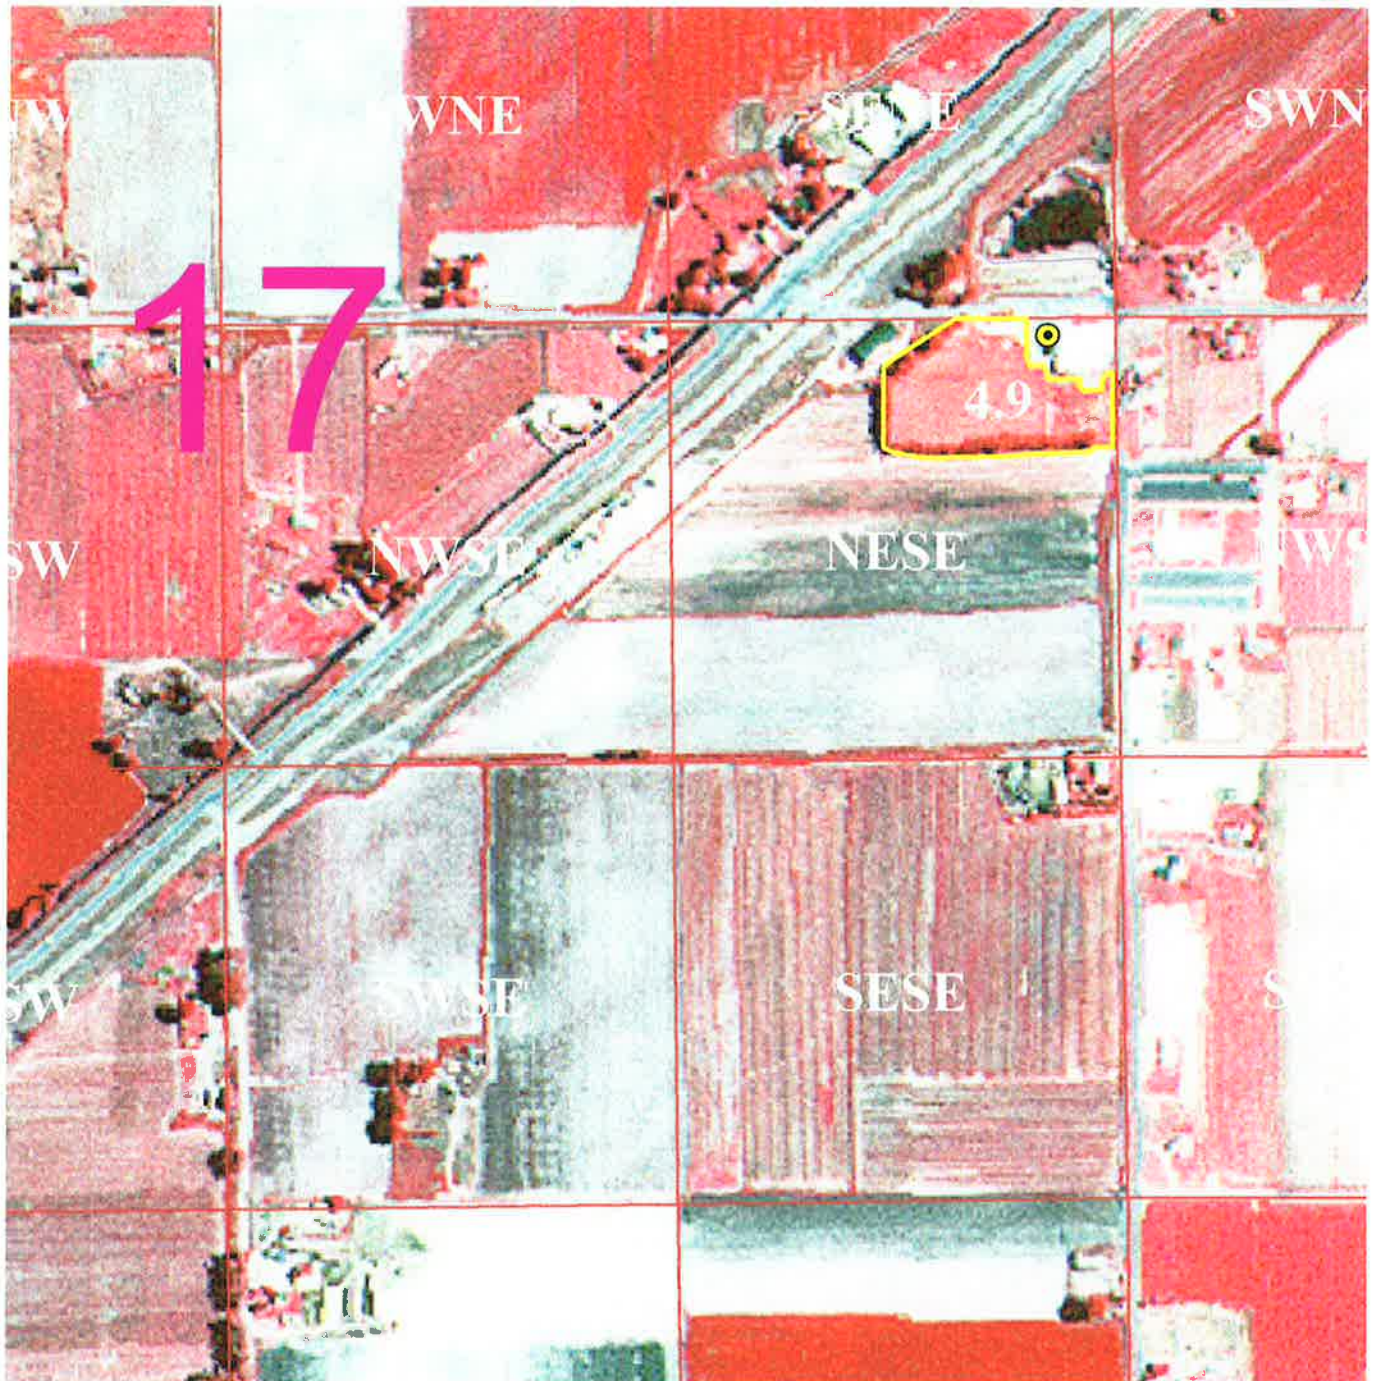

EXPLANATORY MATERIAL: Beneficial Use

The irrigation claimed under this right is not being recommended because it started in 1980. Pre-1987 application has been sent.

Notes

9/25/03 per skip's field notes, domestic only is being recommended.

Link the OPS file to the POP.

10-16-03 Letter to Clement re amendment. BP

12/19/03. Amendment received; amended priority date. The irrigation purpose on this claim is not being recommended because it started in 1980. The claimants have been sent a pre-1987 application for the irrigation.

6/8/05 I spoke with Chris Gardner @ 285-8832. He said they have a permit 27-11964 with a Sept. 2003 priority date. He wanted to know if they could get the 1984 date for irrigation. I explained to him that because of the 1963 mandatory permit statute they can't. If the well was being used for irrigation prior to 1963, then a B.U. right might be possible. In that case they would have to withdraw the permit if it could be established on the same lands. CB

27-4150 & 27-11964 are from the same well.

Notes

A27-04150

1/ I met with Chris Gardner, Buildings + Grounds Supervisor + advised him that the irrigation portion of this claim could not be recommended. Irrigation from the well started sometime in the 1980's.

2/ Claim should be amended to only include "Domestic" with the 4-01-1921 priority.

3/ I will send Blackfoot School District a new application for permit as they contend irrigation of school ground occurred. (Date 8-22-03) prior to 1981 from the school well.

4/ Chris Gardner agreed with Spatial Dynamics map that only 4.9 acres constitute irrigated p.o.u.

Re: Snake River Basin Adjudication (SRBA)
Claim 27-4148

Subject: AMENDING YOUR CLAIM

RESPONSE DATE: 16 November 2003

Dear Claimant(s):

After reviewing the above referenced claim I am recommending you amend your claim to correct several errors determined during our field exam.

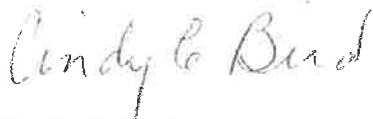

First, the point of diversion is located in the SWNWNE of Section 10 instead of the NWSWNE also in Section 10.

Secondly, I am recommending that the claim be modified to reflect the correct number of acres being irrigated. When the claim was filed it included 38 acres. According to our field examiner, the correct acreage is 33.4. See the attached layout for the place of use.

Lastly, under Idaho Code, water is recommended based on inch-per-acre or 0.02 cfs per acre. Calculations indicate the diversion rate needs to be changed to 0.67 cfs and the diversion volume to 117 afa.

If you agree with the enclosed Amended Claim form, please sign it in front of a notary and return it to my office. If you have any questions please feel free to contact me at 547-3993 in Soda Springs.

Respectfully,

Cindy E. Bird

AFFIDAVIT

The following affidavit is in reference to a well (No. 27-4150) at Wapello Elementary School located at 195 East 350 North, Blackfoot, Idaho.

I, Cloris Brown, attest that I compiled *History of the Wapello School*, which appears on page 60 in the book titled Bingham County History, published by Bingham County Centennial Book Committee, Blackfoot, Idaho (Library of Congress No. 85-72293). The following is an excerpt from this article, "In 1921, a well was drilled just south of the entrance and a hand pump was put in." My source of information was taken from *Histories of Viola Gerdes*.

Post Office in his home. The mail sack was thrown from the passenger train and people would call for their mail at his home. Later, Blackfoot Route #3 was established. Then it changed to Route #1, then Route #6 until the present county directory system. George and Walter Bithell were the first mail carriers for the area.

The following 10 to 15 years brought a number of new families and they became leaders in the community. The Ethan Allens, Scotts, Eno Jonathan Gerdes, Henry Felts, Frank Berlin, Charles Hancock, J.D. Jensen, John Q. Stone, Arthur Galeazzi, George Winslow, Elijah Clark and Elbert Call.

Clarence Neville, with the financial assistance of Lester Howard, was the first owner of the store in the community located just west of the tracks on Wapello Road.

Many staunch and true pioneers came in the following years. They were seeking better homes, more land, good water rights and a peaceful, quiet community in which to rear their families. *Compiled by Cloris Brown from histories of Laverne Stone*

Lloyd Johnston and Cliff Robertson using dump rake.

HISTORY OF THE WAPELLO SCHOOL

The first school in the vicinity of Wapello was the "Fox School" located one-fourth mile north of the Wapello railroad crossing and west of the highway and canal. Kerosene lamps were used to light the building and a wood-burning stove was used for heat. The first desks had tops made from one by twelve inch boards and the seats were made from two by fours. Each desk and seat were made to accommodate two pupils. Later on school desks were used which were hinged and had to be raised.

The first teacher, Mr. M.D. Andrus, began teaching in this school in 1897. There were not too many families in this locality at that time, but those living here had large families. The children from the Kimball area also came here to school. Mr. George W. Bithell told of being the only pupil in the first grade. Mr. Andrus would often take him on his lap and teach him his lessons. This school later became known as the "Kimball School."

In those days the children walked to school on well-beaten paths through the sagebrush. They walked in groups because coyotes roamed around and were often seen near homes in those early years.

In 1902, the school's name was changed to "Hardscrabble School".

In 1904, Lester Howard donated a corner of his farm for a school and a red brick building was built on this ground just slightly west of our present school. Barely two years had passed when a fire broke out and burned the building so quickly the students barely had time to save their clothing and lunches. The old "Hardscrabble School" was then moved to the northeast corner of the school ground.

In 1911, there were 115 pupils so a new two-room school was built and is the south half of the old building that now stands. In 1915, two more rooms were added to the north. It had a large bell tower and the children enjoyed giving the rope a tug to hear the bell ring high above. Each room was now heated by a large coal-burning stove. It was still necessary to carry water to the school. In 1921, a well was drilled just south of the entrance and a hand pump was put in. In or about 1923, a furnace type stove was installed. The yard was still bare ground except for a little grass along the ditch. In 1928, electricity came to the area and a little later a pressure water pump was installed and restrooms were added.

In 1960, another addition was built on to the east side, adding classrooms, a lunchroom and kitchen. The old building was painted to match the new building. About 1965, the windows in the old building were filled in to conserve heat. *Compiled by Cloris Brown, from Histories of Viola Gerdes*

foot Stake. In 1903, Wapello and Kimball were combined Howard Branch of the Basalt Ward, Blackfoot Stake. The P John Wheeler.

In 1910, the branch was divided into the Kimball and W Services were held in a one room school located on the trustees asked them to discontinue. Then they began holding homes of various members. There weren't enough chair-planks were used from one chair to another and a blanket to make them more comfortable.

In 1911, it was decided that they would build a hall 36 x 50 ft, costing approximately \$1000 and built by the men in 1911, on a cold, snowy Sunday, 36 people held the first meeting. In May, 1912, this building burned. It had only been used. Another chapel was begun and completed by 1914 at a cost building was remodeled, renovated and modernized during years. One of the biggest improvements came in 1940, when son bought and installed a water pressure system. Until this water from the homes for services and socials in milk cans, brought in buckets from Esther Scott's home.

The chapel underwent an extensive face lifting in 1950, at west, including a carpeted Relief Society room, with drapes donated by Past President, Matilda Stone. More classrooms restrooms were also added. An entrance and foyer were stage was changed to the opposite end of the hall. The outside with brick.

This building was used until 1971, when our new and completed.

Ground breaking was held on Monday, September 8, 1971 the first meeting was held in this new building. *C Brown, from Histories of Laverne Stone*

WAPELLO SECOND

On March 12, 1978 the Fourth, Seventh, Eighth and W bers were called to a special meeting at which time the boundaries were changed and new wards were formed. One would be known as Wapello Second. Blackfoot Idaho Stake general was everything east, including Harmony Acres, Lane to the Blackfoot River.

With two wards using the building it soon became apparent needed to be remodeled. During October 1979 to October the Blackfoot Stake Center with Eighth Ward while the by Cannon Construction.

A few ward members were transferred into the Eleventh 1981 then on November 1982 all members of the south side Blackfoot River were either transferred to the Fourth or new boundaries would include the north side of Rich Lane Tanner Lane and the south side of Weeding Lane east to Ficks.

FIRTH

In 1885, a thirty-three year old Englishman named L. resided in Bingham County where he farmed and raised livestock. He took an active part in the building of the community — its development and otherwise.

In 1905, Lorenzo Firth and his wife, willed a plot of land (hence the town's name). Being concerned for the children, he also gave 1 1/4 acres for the purpose of a one room school room was added. And still later the four room brick building standing south of the present elementary.

The first bridge across the Snake River was built around 1880 and had been made by boats.

The first grocery store in Firth was owned by a man by the name of Butte. Emma Firth clerked in this store. John Drew a man named Belcher. Carl and Axel Nelson, sons of Gustav named Andrews owned a department store; it was later owned by daughter Bina and her husband, Wardell Clinger.

Mr. Thorstenburg operated a store in the Corgatelli building. Thomas Firth and Roy Womack were clerks in this store. Firth and his son, Fern, bought Mr. Thorstenburg's interest. There was a harness shop in this building, and also Shockey and his wife operated a store in this building.

Joe Dye operated a store next to the Corgatelli building. The blacksmith shop was first operated by a man by the name of George Wernette built part of the present shop and operated for years. He sold it to Carl Granburg. (Carl built a pot still not successful because it could not operate by being pulled. Owner was Mr. Buerbauer; then Ole Beus, Ed Hall, Sunowner.

Hurt and Hutchinson built the large brick building which housed offices, a dance hall, theater, bar, cafe, meat market.

There was, at one time, a First National Bank in Firth. It became the drug store operated by Mr. and Mrs. Earl V.

Re: Evidence of Priority

Claim No.(s) A27-04148 & A27-04150

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 23, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
Adjudication Bureau

Enclosure: Brochure on "Evidence of Priority"
Adjudication Claim Report

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

AFFIDAVIT

RECEIVED

NOV 04 1994

Department of Water Resources
Eastern District Office

I, Vaughn Hugie, began my employment with Blackfoot School District No. 55 in August 1956. During my forty year career, I have been a teacher, coach, principal, and presently I am the assistant superintendent. Based on my experience with the school district, and after reviewing a document dated July 27, 1962, I attest that a 64' 8" well was in place, a 2 HP submersible pump was installed and that the system was operating in August 1962. The pump installers were Carvel Kunz and Arlin Rooks of (then) Westside Plumbing Company.

Vaughn Hugie

Vaughn Hugie, Assistant Superintendent
Blackfoot School District No. 55
Dated: November 3, 1994

State of Idaho)
)ss
County of Bingham)

On this 3rd day of November, in the year of 1994, before me personally appeared Vaughn Hugie, known to me to be the assistant superintendent of Blackfoot School District No. 55, and acknowledged that he executed the affidavit above on behalf of Blackfoot School District No. 55.
