OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

NO LAWFUL APPROPRIATION SHOWN: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is PROPOSED to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is PROPOSED to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

No lawful appropriation shown.

7. ☒ **Purpose(s) of Use**

Should be: Municipal

8. ☒ **Period of Year**

Should be: 1/1 to 12/31

9. ☒ **Place of Use**

Should be: Place of use is within the service area of the City of
Blackfoot municipal water supply system, including areas
outside the city limits, as provided for under Idaho law.

11. **I object because:**

- ☐ This water right should not exist.
- ☒ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The IDWR should not have disallowed this claim.

This is a municipal water right. Under Idaho law, municipal water rights held by municipal providers for reasonably anticipated future needs are deemed to be beneficially used. No annual volume limit should be included for a municipal water right. Although the well originally associated with this water right is no longer in use, the water under this right continues to be beneficially used by the City.

To the extent any quantity of water under this right is not currently being diverted, such portion of the original right has been transferred by accomplished transfer to beneficial use for future need purposes.

The City operates an integrated delivery system in which each well serves as an alternative point of diversion for every other well. This is reflected in prior approved Transfer Nos. 5787 and 68933. Accordingly, we have listed each of the PODs associated with those transfers. Those transfers inadvertently listed the Lansing Street Well instead of Well #9. This error has been corrected here. The City also has a pending application to add Well #12 (12S R35E §35, SESE). If appropriate, that POD should be added as well.

This water right was originally developed in association with a well serving the municipal airport park, but is now used in conjunction with the City's integrated delivery system pursuant to an accomplished transfer when the well was abandoned.

We believe it would be helpful to clarify and expressly put the public on notice that the place of use includes areas outside of the city limits.

Regarding municipal water rights, please note in particular the following guidance documents: Operations Division Administrator's Memorandum from A. Kenneth Dunn to District Engineers dated April 7, 1975; Memorandum from Phil Rassier to Dave Tuthill dated May 7, 1979; Administrator's Memorandum, from Norman Young to Regional Offices and Water Allocation Section dated November 5, 1979; Memorandum from L. Glen Saxton to Water Allocation Bureau, Adjudication Bureau, and Regional Offices dated March 18, 1998; Letter from Karl J. Dreher to Christopher H. Meyer dated June 14, 1999.

REF: Snake River Basin Adjudication Claim
A27-4152

Subject: Evidence of Priority

Response Date: February 1, 2005

Dear Ron,

The above listed Notice of Claim to a water right listed above is one of the Cities Statutory claims that requires evidence to support the water being put to beneficial use on the date claimed. Without the information this claim to water cannot be recommended to the SRBA court. This well has a claimed priority date of May 15, 1954 for the golf course. Please submit the information by the above referenced response date otherwise this claim will recommended as "DISALLOWED"

If you have any further questions please don't hesitate to call me at 547-3993.

Respectfully,

Cindy Bird
Adjudication Bureau

Enclosure: Evidence of Priority Brochure

Notes

A27-04152 -

1/ Exam completed 10-28-2003

2/ System is 75 hp pump in 160' well running at 80 psi. For use on South 9 holes only.

3/ GPS Data - 0634267
File # 4152
Existing Tag # A0007572

4/ No measuring area agrees possible. Theoretical is:

$$CFS = 75hp \times 8.81 \times 70\% \text{ eff}$$

$$160' \text{ deep} \pm 2.31 (80 \text{ psi})$$

$$CFS = 468.5 = 1.34 \text{ cfs}$$

$$344.8$$

5/ The theoretical 1.34 cfs is consistent with the North well which matches the other 9 holes. Measurement under license 27-07385 for this well shows 66 acres + 1.32 cfs.

6/ Site defined outline of South 9 holes

acres. Average on SE side of Airport no longer handled by this well as main City system now provides for that area.

Memo to File: The following letter date November 6, 2002, was sent out to the claimants and no response was received back to Intrepid.

November 6, 2002

Dear Sir or Madam:

Intrepid Technology and Resources, Inc. (ITR) has been contracted by the Idaho Department of Water Resources (IDWR) to verify information in the State's records regarding the enclosed claim(s). This letter is being sent to the address of record for the enclosed claim(s).

In June or July of 2002, ITR employees visited the point(s) of diversion for the claim(s) in question. The purpose of this letter is to follow up on that visit, and ask for your input to verify the boundary of the area irrigated by each point of diversion. IDWR has supplied the enclosed maps and/or aerial photographs. The points of diversion (wellheads, dams, etc.) are indicated as circles. The irrigated areas are traced with bright yellow lines.

Please take the time to review the map, and correct any inaccuracies by marking changes on the map, and sending the map and claim file back to us in the enclosed postage-paid envelope.

If the claim is no longer in use, please note it on the claim file and return it to us in the enclosed envelope.

This applies only to the enclosed claim file. Water rights or claims not included with this package will be dealt with separately. Please DO NOT mark wells, diversions, or irrigated areas not specifically addressed in this package.

If you have any questions about the letter itself or how to respond, please call Doug Larsen or myself at 208-529-5337. We will be happy to discuss it with you.

Sincerely,

Shaun Dustin, PE

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 23, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount that can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The use of water under this right shall not give rise to any claim against the holder of a senior water right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.
6. The Director retains jurisdiction of the right to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that City of Blackfoot (Airport Park Irrigation)
(Name of Claimant)
157 N. Broadway, Blackfoot, Idaho 83221 Telephone No. 785-0491
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) May 15, 1954
A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.
- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
ground water tributary to _____
- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely

PERMIT APPROVAL NOTICE

RE: PERMIT NO. 27-07385

Dear Permit Holder:

Enclosed is a copy of your approved application for permit. We direct your attention to the conditions of approval on the final page.

You should be aware that the groundwater you propose to divert is located within a drainage basin where surface waters are regulated during the months of low flow. It is possible that diversion of groundwater may have an adverse impact on these surface water flows. Information available to us at this time does not warrant refusing to issue permits in your area, but we do caution that diversions of groundwater are not allowed to deplete flows available for surface water users with earlier priority dates. Siting your well as far from surface sources as possible and casing out upper water producing zones may reduce the potential of interference.

Section 42-235, Idaho Code, requires that a "drilling permit" must be obtained from the department for all wells constructed after July 1, 1987. A drilling permit is a separate permit that must be issued in addition to your permit to appropriate water. Commencement of well construction or diversion of water under your permit to appropriate water is prohibited unless a drilling permit is obtained.

Be sure to note the special condition requiring you to install a measuring device, or a flow measurement port to provide for the installation of measuring equipment by the Department. Enclosed please find a list of measuring device options, and specifications for the installation of the flow measurement port.

We have enclosed a form entitled "Instructions for Proof of Beneficial Use". Please read the instructions carefully since you must take further action to develop this permit. Also

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7385, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- SUBJECT TO ALL PRIOR WATER RIGHTS.
- Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 1990.

c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.

d. Other: Permit holder shall comply with the drilling permit requirements of Section 42-235, Idaho Code.

The right to the use of water acquired under this permit shall not give rise to any right or claim against the holder of a senior right based upon the theories of forfeiture, abandonment, adverse possession, waiver, equitable estoppel, estoppel by laches or customary preference.

The Director retains jurisdiction of the permit and any license subsequently issued to incorporate the use into a water district, require streamflow augmentation or other action needed to protect prior surface water and groundwater rights.

Prior to the diversion of water under this permit a flow measurement port or other device as specified by the Department shall be installed to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.

Witness my hand this 11th day of April, 1989.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 27-7384, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before November 1, 19 86.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: Use of water under this permit is subject to control by the watermaster of State Water District No. 01, Snake River.

Witness my hand this 8th day of October, 1985.

DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that City of Blackfoot (Airport Park Irrigation)
(Name of Claimant)
157 N. Broadway, Blackfoot, Idaho 83221 Telephone No. 785-0491
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) May 15, 1954

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
ground water tributary to _____

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

RESULT:

Intestinal bacteria were Not found in this sample of water.

J. H. Frazier
Microbiologist

EXPLANATION: Intestinal bacteria **should not be found** in your water supply. The presence of these organisms indicates that your water is **contaminated**. This may be due either to poor quality of water at its source or improper construction and maintenance of the system. Because the quality of water may vary from time to time, it is recommended that repeat samples be submitted. For Department of Health recommendations or approval of your water supply, please contact your sanitarian or public health engineer.
