OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

NO LAWFUL APPROPRIATION SHOWN: There are a number of circumstances in which a claim is proposed to be disallowed on this basis. This is most commonly included for a claim based on beneficial use or posted notice that is PROPOSED to be disallowed because the right claimed is not within an exception to the mandatory permit statute, and beneficial use of water prior to the mandatory permit statute was not confirmed. This is also included where a claim is PROPOSED to be disallowed because the claim is to water that is not public water subject to appropriation. This is also included where a right was determined not to exist in a prior adjudication.

No lawful appropriation shown.

Re: Snake River Basin Adjudication (SRBA)
Recommended Water Right No. 27-4153

Dear Diana,

Two errors were discovered recently on the partial decree referenced above. The first Point of Diversion in the Decree included T02S R35E S30 Lot 4 SWSWSW when in fact the Point of Diversion is **T02S R35E S30 Lot 4 SESWSW**.

The second Point of Diversion in the Decree included T03S R35E S02 Lot 4 SWNWNW when the Point of Diversion is **T03S R35E S02 Lot 4 SENWNW**. The other Points of Diversion are correct.

I have enclosed a recommendation the Court may use to consider for issuing an amended partial decree, after notice and hearing of course.

IDWR stands ready to respond to any questions the Court may have. I extend my thanks for considering this request.

Sincerely,

Donald V. Shaff, MPA

Dear Sally:

As you requested, enclosed is a copy of the SF5 for Subcase No. 27-4153 from our file. Unfortunately, I don't think our copy is much better than the one you already have. I am also sending you a copy of the SF5 before it was signed by Ernest Carlsen and Candice McHugh. The attachment to this copy is much clearer, so hopefully between these two copies, you will have enough information for your file.

Please call me if there is anything else we can do to help. My direct dial is 388-1227.

STANDARD FORM 5

STIPULATED ELEMENTS OF A WATER RIGHT

This form is used to report the stipulated elements of one water right acquired under state law and/or one federal reserved water right. Submission of this form will not automatically result in the issuance of a partial decree. The Presiding Judge or Special Master will conduct any hearing necessary to determine whether the facts, data, expert opinions and law support the issuance of a partial decree for the water right.

The parties agree that the Snake River Basin Adjudication Court has jurisdiction of the parties and subject matter to enter a partial decree for this water right; that they have been served with sufficient process, according to the law; and that they have appeared, prosecuted, and defended their positions with regard to this water right dispute.

The parties and IDWR agree and stipulate that the elements of this water right should be described per the attached. The parties and IDWR have further indicated their concurrence by initialing each of the attached pages.

11. **I object because:**

- ☐ This water right should not exist.
- ☒ This water right was not recommended, but should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTION(S):

The IDWR should not have disallowed this claim.

This is a municipal water right. Under Idaho law, municipal water rights held by municipal providers for reasonably anticipated future needs are deemed to be beneficially used. No annual volume limit should be included for a municipal water right. Although the well originally associated with this water right is no longer in use, the water under this right continues to be beneficially used by the City.

To the extent any quantity of water under this right is not currently being diverted, such portion of the original right has been transferred by accomplished transfer to beneficial use for future need purposes.

The City operates an integrated delivery system in which each well serves as an alternative point of diversion for every other well. This is reflected in prior approved Transfer Nos. 5787 and 68933. Accordingly, we have listed each of the PODs associated with those transfers. Those transfers inadvertently listed the Lansing Street Well instead of Well #9. This error has been corrected here. The City also has a pending application to add Well #12 (T2S R35E §35, SESE). If appropriate, that POD should be added as well.

This water right was originally developed in association with a well serving the municipal golf course, but is now used in conjunction with the City's integrated delivery system pursuant to an accomplished transfer when the well was abandoned.

We believe it would be helpful to clarify and expressly put the public on notice that the place of use includes areas outside of the city limits.

Regarding municipal water rights, please note in particular the following guidance documents: Operations Division Administrator's Memorandum from A. Kenneth Dunn to District Engineers dated April 7, 1975; Memorandum from Phil Rassier to Dave Tuthill dated May 7, 1979; Administrator's Memorandum, from Norman Young to Regional Offices and Water Allocation Section dated November 5, 1979; Memorandum from L. Glen Saxton to Water Allocation Bureau, Adjudication Bureau, and Regional Offices dated March 18, 1998; Letter from Karl J. Dreher to Christopher H. Meyer dated June 14, 1999.

EXPLANATION: Intestinal bacteria **should not be found** in your water supply. The presence of these organisms indicates that your water is **contaminated**. This may be due either to poor quality of water at its source or improper construction and maintenance of the system. Because the quality of water may vary from time to time, it is recommended that repeat samples be submitted. Subject: Evidence of Priority

Response Date: February 1, 2005

Dear Ron,

The above listed Notice of Claim to a water right listed above is one of the Cities Statutory claims that requires evidence to support the water being put to beneficial use on the date claimed. Without the information this claim to water cannot be recommended to the SRBA court. This well has a claimed priority date of May 27, 1958 for the culinary well at the golf course. Please submit the information by the above referenced response date otherwise this claim will be recommended as "DISALLOWED"

If you have any further questions please don't hesitate to call me at 547-3993.

Respectfully,

Cindy Bird
Adjudication Bureau

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by May 23, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that CITY OF BLACKFOOT (Golf Course, Old Club House)
(Name of Claimant)
157 N. Broadway Blackfoot, Idaho 83221 Telephone No. 785-0491
(Mailing Address) (Zip Code)

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) May 27, 1958

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

ground water tributary to _____
(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

Gentlemen:

Our records show you have filed your adjudication claim(s) in the Snake River Basin Adjudication. Our records do not, however, include a clear map of your service area. Would it be possible for us to get a map of your customer service area for your municipal water system, both to supplement the record of your claim(s) and for use as described below?

In our review and investigation phase of the Snake River Basin Adjudication, the map would be helpful for us to have this information in verifying individual claims to water rights for domestic purposes. We will be happy to discuss with you the most convenient way for you to provide this information to us. I can be reached at 327-7931 or you may contact my assistant, Anita Warntjes at 327-7986.

Your assistance in this matter is greatly appreciated.

Sincerely,

DAVID B. SHAW

EXPLANATION: Intestinal bacteria should not be present in your water supply. The presence of these organisms indicates that your water is contaminated. This may be due either to poor quality of water at its source or improper construction and maintenance of the system. Because the quality of water may vary from time to time, it is recommended that repeat samples be submitted.
