RE: Notices of Error

Dear Mark,

Thank you for taking the time to submit the Notices of Error for your water rights 27-7139, 27-7262, and 27-7263. After reviewing your responses I determined the changes you requested require further action on your part.

Right 27-7139: You requested that the place of use be increased to 134 acres. However, this right is licensed for only 128 acres. We cannot recommend more acres than the license allows. If you wish to pursue this further, then you must file an enlargement claim with evidence that you irrigated the additional 6 acres prior to 1987. Evidence may include an aerial photo obtained from the Farm Service Agency showing 134 acres being irrigated at that time. For example, if the aerial photo had written on it the acres being irrigated, that would suffice.

Rights 27-7262, 27-7263: Because right 27-7263 was licensed after the process of adjudication began in 1987 the recommendation is guided by the license. In order to combine the two rights into a permissible place of use you need to file an Application for Transfer. Staff working in the allocations section in this office can provide guidance on completing the application.

Respectfully yours,

Ernest Carlsen
Water Rights Supervisor
