Notes

4/a/05. Pou is within the boundaries recommended for Beachfront Management Co. 1-15 and 1-298.
 Claim made to be amended to correct Pou. Only cleared 75 acres, permit was amended to 78 acres. Increased for 78 acres.

4/15/05 Received amended claim for increased 78 acres. The imagery only shows 73.8 acres from the 1987/88 NAIP photography. Looking at the 2002/03 Satellite imagery it is even less accurate. Also the point goes into the SW 1/4 of Section 12, T2S, R36E, NOT increased. These elements will need to be a transfer to continue amending in Section 12 from the G.W. source.

All the ground water recommendations should have the following explanatory condition:
Use of this right is combined with water from Snake River Valley Irrigation Dist.

W08

I checked the listing of conditions and remarks at <http://wenet/adjudication/Administrative%20Memorandums/admmemo32template.xls>
065 is a source condition. 079 is inactive and should not be used.

Should we add anything to recognize the surface water?

Cindy the remarks should go on the recommendations for the licenses they pertain too. I think it is inappropriate to add them if they were not on the original right. In the case of Wernette the remark was probably address the use of water from Snake River Valley Irrigation District.

good morning and happy Friday,

Last night while research Wernette's right some more I discovered more licenses for ground water. These however have conditions that require they use the surface water first (065) and that the surface water can't be sold off the ground (079). What do you think about adding these to their other rights?
