1-17-06 NO Row Shape in Accommodation Camp.
 There were 2 shapes for this night one in
 g://basin27/shapes/shapes/recommended. I
 g://basin27/shapes/shapes/recommended. I
 deleted the extra shapes. The shape
 linked in in g://basin27/shapes.
 It was originally 27-7324 per slip. I deleted
 the other 2 shapes because they would not
 link. They produced an error so I deleted
 a new shape and linked it. Then recommended
 after I deleted the 2 pad shapes. CB.

Memo to file:

Michael Ciscell said that it would be 2 to 3 months before BLM would get the POU and GCDB registered.

When entering the eCVR information, **DO NOT UPDATE THE PLS** per Cindy.

Notes

27-7324

12-2-03 continued

As I explained to Daryl Thompson; if the irrigation was done prior to 1987, he could file an enlargement claim but looking at the 1987 Vapp photography, it appears irrigated with H.L. if the pivot was installed after A.J. then they can file a transfer to move the corners, and the price they sold in 1990.

The ASCS photo he brought in shows irrigation of 114.9 acres. It was licensed for 97 (diff of approx 18 acres) we'll give him until 12/16/03 to submit the additional information.

12/23/03 3:40pm. I called Michael Cusick to check the GCDB in T3S, R35E Sec. 11 to see if he could tweak it to better fit the POB. I tried to email Michael but I couldn't get it to send the email. It just sat trying to send it for 5 mins. Got tired and called.

9/5/04 Has Michael resolved the GCDB + POB problem? No solution. See email. 9-3-04 /BP
Don't round to the tenths, and see if we can come up with the 97 acres and add the C05 Acreage. Gen Cond.

9-3-04 See memo. BP
9-10-04 See memo. BP

Notes

10/8/03 verify ownership address.

See spatial map marked for
boundary changes in Poll.

11-25-03 Received a copy of the claimants current
year tax billings. DB

11-26-03 Called Mr. Thompson, explained the info. he
sent wasn't enough, didn't clear up the question
of how many irrigated ac. He is going to get
us the FSA photo with ac. outlined. He said he could
also GPS the acres if we need. DB

12-2-03. NENE of Section 11 was irrigated with
Blackfoot Irrigation & Blackfoot Slough water,
changed to a pivot ———. Will research.
when the pivot was installed.

Meeting with Daryl Thompson at 10:30 - Noon.
on Tuesday 12-2-03. Daryl will call back and
let me know when the pivot was installed. I got
a copy of the ASCS photo shows 115 acres (114.9).

In about 1990, they sold 5 acres in the corner of SWNE
of Section 11. The layout needs to be moved to
include the field boundaries. Check with Michael
Cusick on the match of the GCDB.

Cindy,

Re: 27-7324

There is no solution on the gcdb and pou match per Michael. (see his e-mail attached)

I adjusted the shape to get 97 acres. I "followed" the image and your markings.. However, when I did that I encroached 2 QQs in Section 12. The license only sites use in Section 11.

If you want to let this go as drawn, we can let Pauline do the eCVR. If not, please let me know how to handle the discrepancy. Thanks.

Barbara,

The allroads theme is from 100k maps, not the 'better-registered' GCDB or imagery, so it doesn't surprise me if the don't align. Always need to be cognizant of differnt scale data and how it probably won't match. Doesn't mean it isn't good data, just registered differently.

I did have a great Fourth. All the family and staying at home. Haven't had one like that for awhile.

Hi Michael,

I was working on a project involving the above referenced T&R. I was trying to identify a road and when I added the allroads.shp shape the road was way off from the gcdb. I accepted the gcdb placement and ignored the road. However, it might cause problems in the future or with someone else.

Hope you had a great fourth of July.

Hi Michael,

More clarification needed. I am working on a shape for this claim. The CGDB and the .tif are not in alignment. If I follow the image then it encroaches two QQs into Section 12. I am attaching the files you need to see the shape I am talking about.

What now oh great one?

Thanks.

I looked at this at the time. There is little in the way of found corners in this area. While the quad shows roads following QQ and section lines there is no 'evidence' that it should be that way. I've got an e-mail into BLM's GCDB folks to see if they have any additional control in this area.

Hold off for now because the image may change.

Hi Michael,

On December 23 Cindy called you about tweaking the above referenced GCDB to see if it could better fit the POU. Just wondering what the status is so that we can continue with Claim 27-7324.

Hope you had a great holiday season.

Claim 27-7324

Subject: Number of irrigated acres.

RESPONSE DATE: December 1, 2003.

Dear Claimant(s):

IDWR's initial investigation of your Notice of Claim listed above indicates that there may be a reduction in the number of irrigated acres. Your adjudication claim claimed the irrigation of 97 acres in the NWNE, SWNE AND SESE of section 11, township 3 south and range 35 east. According to the county assessors office you have 78.5 acres of irrigated land and our 1987/88 NAPP photography shows approximately 93 acres of cropland. Has any of this land been put into CRP? If so, we will need a copy of your CRP contract and a copy of the map with the appropriate land label. Please submit some evidence to support the date of change or additional information to support the irrigation of 97 acres under the claimed place of use.

This office must receive your response by the response date shown above. If no response is received, then the unverified portions of your claim will not be recommended to the decreed.

If you have any questions please feel free to contact me in the Soda Springs office at 547-3993 or call for an appointment at your earliest convenience.

Respectfully,

Cindy E. Bird
