PROOF ACKNOWLEDGEMENT LETTER

RE: PERMIT NO. 27-7420

Dear Permit Holder:

The department acknowledges receipt of the proof of beneficial use form and examination fee submitted for the above referenced permit. Enclosed is an order reinstating the permit advancing the priority since proof was submitted after the proof due date. The next step in the process of developing a water right is for the department to conduct a field examination to determine and confirm the use being made of the water. The regional office staff will contact you when that examination is to be conducted. At the time the examination is conducted the system must be in operation, otherwise this permit will be of no force nor effect.

Be advised that Section 42-248, Idaho Code, requires you or the owner of these water rights to maintain current ownership and address records on file with the department. Forms to file a change of ownership of a water right and/or a change in the address of the water right owner are available from any department office.

If you have questions concerning the field examination, please contact the **Eastern** Regional Office of the department in Idaho Falls at (208) 525-7161.

**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

IN THE MATTER OF PERMIT NO.)	
27-7420 IN THE NAME OF THE)	REINSTATEMENT ORDER
CITY OF SHELLEY)	
_____)	

This matter having come before the Idaho Department of Water Resources ("Department"), the Department makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1. On June 16, 1986, the Department issued Permit No. 27-7420 to the City of Shelley ("permit holder") authorizing the diversion of 0.02 cubic feet per second (cfs) of ground water to be diverted for a municipal use within the Gov. Lot 2 (NW1/4NW1/4), Township 1 North, Range 37 East, Section 31, Bingham County, B.M. A condition of permit approval required the permit holder to submit proof of beneficial use of water ("proof") to the Department on or before July 1, 1987.
2. On July 29, 1987, an Extension of Time was granted to the permit holder allowing additional time for development by extending the proof due date to July 1, 1991.
3. On April 30, 1991, the Department notified the permit holder that proof was due and instructed the permit holder of the steps to be taken to submit Proof of Beneficial Use or a Request for Extension of Time ("extension request").
4. On July 5, 1991, the Department sent the permit holder a lapse notice, since the Department had not received an acceptable proof or extension request.
5. On June 17, 2003, the permit holder submitted Proof of Beneficial Use to the Department. The permit holder submitted evidence to show that water has been applied to the authorized beneficial use during the development period and has shown sufficient cause why the beneficial use was not timely submitted.

CONCLUSIONS OF LAW

1. Section 42-218a.2, Idaho Code, provides as follows:

That upon receipt of proof of beneficial use after sixty (60) days after such notice of lapsing, the director shall require sufficient evidence to be submitted by the permit holder to

clearly establish the extent of beneficial use made during the time authorized by the permit and any extensions of time previously approved. Upon finding that beneficial use had occurred during the authorized period and upon a showing of reasonable cause for filing a late proof of beneficial use, the director may reinstate the permit with the priority date advanced to the day that proof of beneficial use was received;

2. The permit holder has provided sufficient information and reasonable cause for the Department to reinstate the permit by submitting sufficient information verifying the construction of the well during the development period.

3. The Department should reinstate the permit with the priority advanced to the date that proof was received.

ORDER

IT IS HEREBY ORDERED, that Permit No. 27-7420 in the name of the City of Shelley is **REINSTATED** with the priority advanced to **June 17, 2003**.

Dear Permit Holder:

One of the conditions of approval of the above referenced water permit was that proof of the extent of your beneficial use must be submitted to this office on or before July 1, 1991. (See last page of your approved permit or your last approved extension request.) Enclosed is a form which when accompanied by the license examination fee or a complete field examination report prepared by a certified water right examiner may be used to submit the required proof.

If you have been prevented from proceeding by a governmental agency or by litigation which might bring title to the water in question, more than one extension of time can be granted. An extension of time request form is enclosed for your convenience.

construct a hydroplant along the Snake River adjacent to Shelley.

The City of Shelley began pursuit of the hydro project in 1977. We contacted the Bureau of Reclamation for assistance in evaluating the best location along the Snake River adjacent to Shelley. The BOR provided a report and Shelley City began preparation of an application for FERC. The City of Idaho Falls, Idaho filed an application just before Shelley and were granted the preliminary permit.

Idaho Falls has since filed for a license on the site selected by Shelley. We protested the project based on several irregularities in the original filing procedure followed by Idaho Falls contractors. FERC has granted until July 18, 1987 for Shelley to file a competing application which we are doing.

Following the filing, FERC will have to choose which to allow. It is even possible that Idaho Falls and Shelley may participate together in the project.

Then the project will have to be designed and constructed. For that reason, Shelley is asking for a 4-year extension to provide adequate time for the hearing, decision by FERC, design and start of construction. That will require a minimum of four years to accomplish.

The City of Shelley has already spent over \$50,000 on the work to date getting the data from BOR, filing applications, doing the necessary legal work. We will be spending an additional \$30,000 to file competing application with FERC.

Hopefully, it is obvious that the City of Shelley has done the following:

1. Expended substantial funds trying to develop the resource.
2. Pursued development of the project diligently.
3. Shown a determination to make the project work, if possible.
4. Been held up by a federal agency in developing the water.
