RECEIVED
JAN 2 1987
Department of Water Resources
Eastern District Office

WATER RIGHT LICENSE

License of Water Right No. 27-7421 Priority October 26, 1982 Amount 0.90 cfs

THIS IS TO CERTIFY, that Greenfields Water & Sewer District
of Shelley, Idaho, has complied with the terms and conditions of Permit
No. 27-7421 issued pursuant to Application for Permit dated October 26, 1982,
and has submitted proof to the Department of Water Resources on April 1, 1985,
that he has applied water to a beneficial use; an examination by the Department indicates that the works have a
capacity for the diversion of 0.90 cfs of water from a groundwater source,
tributary to _____, and that the permit holder has applied to a beneficial use and
established a right to use water as follows:

Beneficial Use	Period of Use	Rate of Diversion	Annual Volume
<u>Irrigation</u> from <u>March 15</u> to <u>November 15</u> at <u>0.90</u> cfs and			<u>206.5 acre feet</u>
<u>Domestic</u> from <u>January 1</u> to <u>December 31</u> at <u>0.50</u> cfs and			<u>75.6 acre feet</u>
<u>(126 Units)</u> from _____ to _____ at _____ cfs and			
(both dates inclusive)			

Subject, however, to the condition that no more than 0.90 cfs of water be diverted at any one time, and
that the amount of water so diverted and to which such right is entitled and confirmed is for the purpose
aforementioned and is limited to the amount which can actually be beneficially used and shall not exceed
282.1 acre feet per year, said waters to be diverted within the (2 points) SE 1/4 SW 1/4

Re: Evidence of Priority

Claim No.(s) A27-10213

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. As the claimant, you are responsible for submitting the necessary proof to support the priority date.

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "**Evidence of Priority**". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some examples of Documents Which May Be Evidence of the Priority Date**".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 30, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird

Re: Notice of Claim #A27-10213 and 27-07421.

Dear Mr. Wilcox:

Please find enclosed a copy of Notice of Claim #A27-10213 that was filed and paid for by the District in 1989. Also enclosed is a copy of license #27-07421.

A27-10213 is based on license #27-07421, but the claimants at that time wished to file on a priority date that they felt was the date beneficial use was first established (1973). Although you may file a claim based on the 1973 date, it is in violation of the Mandatory Permit Statutes and therefore **cannot** be recommended by the department. The Mandatory Permit Statutes basically say that all rights to divert and use the waters of the state after March 23, 1963, with ground water as a source, must file an Application for Permit with the department.

If you wish we could renumber A27-10213 to A27-07421 and amend the priority date to Oct. 26, 1982 and the basis of claim to "License". Or, if you would like you can pursue right #A27-10213 as claimed.

Please do not hesitate to contact this office if you have any questions regarding this matter.

Sincerely,

Jo Thompson
Adjudication Secretary

Re: Water Rights of Greenfield Acres Water District
#27-7421

Gentlemen:

The Greenfield Acres Water District (hereinafter referred to as the District) claims water rights to all 129 lots in the Greenfield Acres Subdivision. The District was organized in June 8, 1981, and the first election of the district was held Feb. 9, 1982. The purpose of the District was to construct improvements to the then existing Well Water, Inc. as stated in an organizational resolution to the District Court in Blackfoot. Well Water, Inc.'s water system was being operated by the Greenfield Acres Homeowners at the time. Also at this time the homeowners were trying to fund improvements to the Well Water, Inc. system. Because the District is a governmental entity with the power to levy and collect taxes, the homeowners decided this was the best way to fund improvements to Well Water, Inc. It was stated in the District's organizational resolution, Section 1, (a):

The acquisition, construction and installation within and for the District of an additional water supply to provide adequate water for culinary, irrigation and limited fire protection purposes to all 129 Lots encompassed within the District by the installation of a 100,000-gallon storage tank, the drilling of an additional well, the installation of a pump and appurtenances, the construction of a well-house, the acquisition of land and easements to provide a site for the new well and tank, the acquisition of pressure reducing stations at necessary locations and the upgrading of the existing distribution system by the addition of valves, pipe, meters and one fire-loading hydrant, (herein the "Project") at a cost of not exceeding \$225,000.

The election on Feb. 9, 1981 gave the District the authority to incur indebtedness for improvements to Well Water, Inc. During this time of limited water to the Greenfield Acres Subdivision some landowners dug their own wells. During the organizational phase of the District the law allows landowners in the proposed District to be excluded from the District, or in other words be declared outside the proposed district's boundaries. Since no landowners petitioned the court for exclusion from the proposed water district, and the election of February 9, 1981 passed with a two-thirds majority, the District has water rights to all 129 lots within the Greenfield Acres Subdivision. This means that water rights #27-7153 and #27-7128

MICROFILMED
NOV 12 1992

April 2, 1989

are at least subordinate to the District's water right #27-7421, or may be void due to the District's acquisition of water rights through Well Water, Inc. and Aspen Springs Development Corporation water right #27-7028, #27-7029, or #25-7094. A brief history of the acquisition of water rights will follow.

On March 6, 1984, Well Water, Inc. was dissolved by their then existing Board of Directors and all assets including water rights dating back to Aug. 3, 1973 (see County Document #323172) were transferred to the District.

Well Water, Inc. was purchased by the Greenfield Acres Homeowners Association on MAY 30, 1980 from Andrews Well Drilling who created Well Water, Inc.

Andrews Well Drilling placed a lien against Aspen Springs Development Corporation for non-payment in digging a well in the subdivision. Title transfer occurred between Aspen Springs and Andrews Well Drilling in August, 1977.

Aspen Springs created the Greenfield Acres Subdivision in 1973 and approved by county document #1823S March 26, 1973. In establishing the subdivision they drilled two wells and installed distribution lines for culinary water. The Greenfield Acres Subdivision became a quasi-municipality with restrictive rights as to homeowners digging their own wells.

At this point in time they established water rights for beneficial use. Water Right permit # 27-7028 dated Aug. 3, 1973, #27-7029 or #25-7094 dated July 9, 1974 were issued to establish water rights for Aspen Springs.

It would appear from this above history that water rights #27-7153 and #27-7128 and #_____ should not have been issued because of the prior water rights for the community water system. These landowners dug their own wells with full knowledge of the fact that Aspen Springs developed a community water system. Even though there was not enough pumping capacity to provide enough culinary and irrigation water, it did not give them the right to dig their own wells. Therefore, the District claims water rights to all 129 lots in the subdivision.

Thank you,

Mardee Wallace
Treasurer
