Please feel free to contact me if you have any questions concerning this matter.

RE: Objection to 27-10151

Dear Ray:

In response to our telephone conversation I am sending you a Standard Form 1 for filing an objection with Snake River Basin Adjudication court, a copy of the report on water right 27-10151 and a colored layout illustrating the place of use in question.

My concern with this water right is the number of acres. Based on the information in the Department's file I believe you are entitled to a combined total of 75 acres not 70.6 acres. To make this correction you will first need to file the objection form. Once that has been done please call me at 525-7161 to schedule an appointment.

Naturally if you have any questions feel free to contact me.

Respectfully yours,

Ernest Carlsen

Re: 27-10151

When I was checking why the shape was not linked, I corrected the stray vertexes and then linked the shape on 1/12/06.

At the same time I noticed that the names were incorrect on the PDR. As I searched the file, I noticed that when the ownership change was processed on April 4, 2005 in IF, the wrong name was changed in the database. The name that should have been changed from current owner to original owner Rosemary Tominaga, not Joann Tominaga. I corrected the database to reflect the correct current owners.

Claims 27-7120, 27-7261, 27-10151

Subject: ENLARGEMENT CLAIM

Response Date: 1 November 2003

Dear Claimant(s):

In reviewing your Snake River Basin Adjudication (SRBA) claims, it was determined that your irrigated acres doesn't match your claims filed with the Department.

Our 1987/88 NAPP Photography shows under claims 27-7261 and 27-10151 a total of 70.6 acres. The claimed acres under 27-7261 are 68.0. Your enlargement claim 27-10151 will cover the additional 2.6 acres to reflect the correct irrigated acres.

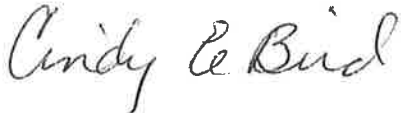

Our 1987/88 NAPP Photography shows under claim 27-7120 a total of 195.8 acres. The claimed acres under 27-7120 are 188.0. You need to file an enlargement claim during the review process of the SRBA for an additional 7.8 acres to reflect the correct acres irrigated under this claim.

I am enclosing a Notice of Claim to a Water Right form that I have filled out based on the enclosed map. Please verify that the information is correct and sign. Please complete the highlighted portions and return to this office for processing. The filing fee is \$50.00 plus \$1.00 per acre for 8 acres. Therefore the total filing fee is \$58.00.

The preliminary director's report will be coming out soon in this basin so you will need to file this claim as soon as possible if you intend make these changes.

If we do not hear from you by the above response date, we will assume you do not want to file an enlargement claim. If you have any questions please feel free to contact me at 547-3993 in Soda Springs.

Respectfully,

Re: Priority date

Claim No. A27-10151

Dear Cindy,

This is a written affidavit stating in March of 1983 an agreement was reached to rent the entire farm of Woodrow Petersen for potatoes. This agreement included the particular piece in question on claim No. A27-10151. There was an end gun on the pivot and it was used the entire year. Irrigation began in April of 1983 and ended in October of 1983.

Please note for your records we purchased the farm from Woodrow Petersen in 1996 and the ownership name should be change on water right number 27-10151. Paper work was submitted to show change of ownership in 1996 and I was led to believe it was all taken care of.

Please call if you have any questions.

Sincerely,

Re: Evidence of Priority

Claim No.(s) A27-10151

Dear Claimant (s):

The Idaho Department of Water Resources has begun its water right review in Basin 27. The Notice(s) of Claim identified with the number shown above, has been filed in the Snake River Basin Adjudication (SRBA). The Notice indicates water usage is based on "Beneficial Use". Water rights of this type are established by the historical use of water, dating back to when water was first used for the purpose claimed, at or on the place of use identified on the Notice. The date the water was first put to use, known as the priority date, has not been confirmed by a license, Decree, or Permit. For this reason, proof must be provided supporting the priority date. **As the claimant, you are responsible for submitting the necessary proof to support the priority date.**

It is important that each element of the Notice be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

For your reference, I have enclosed the pamphlet entitled "Evidence of Priority". The pamphlet describes the types of evidence required and suggests which documents will fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some examples of Documents Which May Be Evidence of the Priority Date".

It is our goal to recommend historical water rights within the Snake River Basin as accurately as possible.

.....
The Department cannot recommend the court decree the Notice if no evidence of a priority date is submitted.
.....

Please submit the documentation supporting the priority date by June 30, 2003, referencing all documents with the corresponding Notice number. If you have any questions not covered by this letter, please feel free to contact me at 547-3993.

Respectfully,

Cindy E. Bird
